

SLIPS OF TONGUE AND PSYCHOLINGUISTICS

In Psycholinguistics tongue slips are one kind of speech errors which are regarded mostly as errors of articulation.

Serendre Shutter in 2004 stated that:

It is a complicated mental processing which is happening entirely below the level of consciousness, so we're not aware of doing anything except when we hear ourselves saying something funny, and its all happening at such lightning speed that we're not aware of any time these steps are taking.

Slips Of The Tongue:

Slips of the Tongue - A Classification Maria Dziekonska, 2012-01-14 Seminar paper from the year 2009 in the subject English Language and Literature Studies Linguistics grade 1 3 University of Heidelberg Anglistisches Seminar course Slips of the tongue language English abstract Whenever people fail to utter the message they wanted to convey correctly they apologize and tend to explain their accidental mistake as a slip of the tongue However what is meant and covered by this term which is used so often to refer to speech errors Does its universality suggest that all tongue slips are of the same kind If not how can they be distinguished This term paper will try to give a more detailed categorization of speech anomalies first providing a definition what is generally seen as a slip of the tongue It will be shown who were the first linguists to examine this topic and what discoveries were made In order to give an own precise classification of speech errors different approaches for main categorizations will be presented and taken into consideration On the basis of these main categories further sub categories are elaborated and illustrated with examples given by different authors in order to explain every feature appropriately Since many authors still not agree upon a common sub classification this term paper will select the most suitable terms and definitions try to compromise about the most common ones and give suggestions for further distinctions To be conforming to the majority of the literature the most common terminology shall be used However if provided terms are inappropriate or imprecise they will be modified The types of speech errors will be ordered via the main class they belong to They will be presented as sub classes defined explained and illustrated by examples in detail Examples are marked with ordinals The incorrect utterance is always presented with an asterisk and followed by the proper realization in brackets The pronunciation of the slips is written in graphemes i e normally w Slips of the Tongue Nanda Poullisse, 1999-11-15 This book reports the results of an extensive study of slips of the tongue produced by foreign language L2 learners at different levels of proficiency Thus it provides new data which can be used to test current monolingual models of speech production and to further the development of bilingual speech production models Moreover it offers a new approach to the study of second language acquisition The book contains a detailed survey of the findings of L1 slip research including studies of slips produced by child L1 learners It systematically compares these findings to those of the current L2 study and relates them to recent monolingual and bilingual models of speech production and to several cognitive models of second language acquisition Special features of the book are its emphasis on methodological problems and the inclusion of the complete L2 corpus of 2000 slips of the tongue It is expected that the book will be of interest to researchers and advanced students in the areas of speech production and second language acquisition and particularly to those who would like to test their own hypotheses using the L2 data Summary of the contents of the book The book provides an overview of the key findings in L1 slip research It relates L1 findings to monolingual speech production models It gives a detailed survey of studies of slips produced by children It presents an up to date review of bilingual speech production models It discusses

recent cognitive models of second language acquisition It gives a detailed description of an extensive research project on slips of the tongue produced by Dutch learners of English The L2 slip corpus is tape recorded It discusses methodological problems in L1 slip research It systematically compares the L1 findings to those of the L2 slip project It relates the findings to monolingual and bilingual models of speech production and to cognitive models of second language acquisition It makes the data available in the appendix

Kids' Slips Jeri J. Jaeger, 2004-12-13 The study of speech errors or slips of the tongue is a time honored methodology which serves as a window to the representation and processing of language and has proven to be the most reliable source of data for building theories of speech production planning However until Kids Slips there has never been a corpus of such errors from children with which to work This is the first developmental linguistics research volume to document how online processing is revealed in young children ages 18 months through 5 years through their slips of the tongue Thus this text provides a new methodology and data source which will greatly expand our ability to uncover the details of early language development Professor Jaeger's groundbreaking book incorporates both details of her methodology and findings with implications for different aspects of language development including phonetics and phonology the lexicon semantics morphology and syntax While all the child data is included in the book a Web site hosted by the author provides readers with the adult data as well Kids Slips targets those who study language development in linguistics developmental psychology and speech and hearing as well as those who study language representation and processing more generally in the same disciplines

Introductory Lectures on Psychoanalysis Sigmund Freud, 1977 In reasoned progression he outlined core psychoanalytic concepts such as repression free association and libido

Of the various English translations of Freud's major works to appear in his lifetime only one was authorized by Freud himself. The Standard Edition of the Complete Psychological Works of Sigmund Freud under the general editorship of James Strachey. Freud approved the overall editorial plan, specific renderings of key words and phrases and the addition of valuable notes from bibliographical and explanatory. Many of the translations were done by Strachey himself, the rest were prepared under his supervision. The result was to place the Standard Edition in a position of unquestioned supremacy over all other existing versions. Newly designed in a uniform format, each new paperback in the Standard Edition opens with a biographical essay on Freud's life and work along with a note on the individual volume by Peter Gay, Sterling Professor of History at Yale.

The Constitution of Society Anthony Giddens, 1986-03-25. It is likely that this book will be regarded as the most important piece of grand sociological theory in English of the past decade. Mark Poster, University of California. This book will take its place alongside such major statements of sociological theory as those of Parsons and Habermas. Anyone interested in the state of the social sciences today, the character of social theory or the relevance of philosophy to social theory will now find it essential to grapple with Giddens's bold and incisive book. Richard Bernstein, Haverford College, USA. Anthony Giddens's new book is the fullest presentation yet of his theoretical views; it has the lean, sparse, utterly serious, craftsmanlike qualities we have learned to expect from its author and which make it a real pleasure to read. Dennis Wrong, Times Higher Education Supplement.

Slips of the Tongue Tapio Hokkanen, 2001. Slips of the Tongue provide an open window to unconscious representations and processes in speech production. This study is a report on naturally occurring errors in spontaneous speech. It describes the types of slips which arise, the constraints that govern the arousal of these errors and how speakers repair the slips they commit.
