## **Technology Transfers And Licensing:**

**Reverse Licensing** Manucheh Shahrokhi, 1987-01-19 Reverse Licensing evaluates the transfer of technology to the U S as an alternative growth strategy for both small and medium sized U S manufacturing firms which need new and competitive technology and for foreign firms which are anxious to enter the U S market but lack the required resources for export and or foreign direct investment The first theoretical research on international technology licensing from the U S licensees standpoint this book examines reverse licensing as an alternative to reverse investment In addition a sample of 120 U S manufacturing firms which have actually utilized reverse licensing is used for empirical and statistical analysis

**Technology Transfers and Licensing** John T. Ramsay, 1996 Innovation and Technology Transfer for the Growing Firm Julian Lowe, Nick Crawford, 2013-10-22 Innovation and Technology Transfer for the Growing Firm Text and Cases is a practical guide and commentary in the field of technology transfer with emphasis on the economic and managerial aspects of the subject The book is concerned with both positive and normative aspects of licensing The book is organized into three parts Part I presents general definitions and discussion of factors impinging on the environment of licensing Parts II and III deal with alternative licensing strategies some empirical evidence and a public policy approach that might be adopted by governments interested in using licensing to promote business development The text will be useful to students and practitioners in this field of interest

**The Technology Transfer System** Albert E. Muir, 1997 Ramsay on Technology Transfers and Licensing John T. Ramsay, 2002

**Intellectual Property Licences and Technology Transfer** Duncan Curley, 2004-09-30 This essential guide vital new changes by the European Commission to the law governing the enforceability of intellectual property licences in Europe Agreements which contain the grant of a licence by one party to another of intellectual property rights are subject to European competition anti trust laws In particular many agreements containing licences of patent rights and rights in confidential information and technical know how are caught by Article 81 1 of the EC Treaty which prohibits agreements between undertakings which prevent restrict or distort competition in the Common Market However because licences of intellectual property rights usually facilitate the transfer of technology from one undertaking to another and the licensor and licensee will often operate at different levels of the market many licences of intellectual property rights may benefit from an automatic exemption under Article 81 3 of the EC Treaty On 1 May 2004 this exemption is being radically overhauled as part of the European Commission s drive to modernise European competition law This book examines the changes in that legislation The legislation is completely new and there is therefore no existing book on the market The change in the law will require an entirely new approach to the drafting of IP licences The change in the law will require existing IP licences to be re examined and possibly re negotiated

*Technology Transfer and the New EU Competition Rules* Steven D. Anderman, John Kallaugher, 2006 The new Technology Transfer Block Exemption Regulation in force from May 1 2004 signals a profound change in the nature of the regulatory framework for technology licensing under

EU competition law This book examines the new Regulation in detail placing it in the wider context of i the modernisation reforms of EC competition law and ii the treatment of IP rights over technology more generally The book also considers the approach to assessment of IP issues set out in the Guidelines that accompany the Regulation the authors discuss their legal basis and where appropriate criticise the approach taken by the Guidelines where the legal basis is unsure International Technology Transfer United States International Trade Commission,1979 **Managing International Technology**

**Transfer** Min Chen,1996 As a result of the rapid globalization of business the subject of international technology transfer is now of importance to both scholars and practitioners of international business In drawing his examination from the fields of international studies international management and international law Min Chen provides a comprehensive consideration of the management and legal implications of international technology transfer The text is divided into four organically linked parts which discuss comparative national policies on technology transfer the international protection of intellectual property international licensing and lastly international technology transfer via other major commercial channels This work should be of interest to students and academics in business and technology also to international executives and lawyers

**Technology Transfer** Neil F. Sullivan,1995-11-16 The purpose of this book is to help research scientists exploit their ideas commercially **Transfer And Licensing Of Know-how And Intellectual Property, The: Understanding The Multinational Enterprise In The Modern World** David J Teece,2008-09-10 The international transfer of technology is one of the most important features of the global economy However the literature on it is sparse This book encapsulates the author s contributions to this field over the last three decades and provides insights into the manner mechanisms and cost of technology transfer across national boundaries and the implications for the theory of the international firm *University Technology Transfer* Gideon Markman,Peter T. Gianiodis,David B. Balkin,Phillip Phan,2013 This study examines factors that affect the commercialization of university based innovations It was hypothesized that successful university based technology transfer royalty revenues and new venture creation is related to licensing strategies the configuration of the technology transfer office and the application of monetary incentives To avoid common method bias data were collected from four different sources including from AUTM Licensing Surveys 1999 2000 interviews with 127 technology transfer directors and for convergent validity from web based searches of each research institution and the US Patent and Trademark Office Findings revealed that licensing strategies and technology transfer office configuration are significantly related to successful technology transfers In addition the practice of sharing licensing revenues with a scientist s academic department and technology office directors pay levels were positively related to technology transfers However sharing licensing revenues with scientists counter to predictions generated a negative relationship with technology transfers We conclude with a discussion that deepens our understanding of the determinants of technology commercialization and provide a richer theoretically grounded characterization of the process by which universities transfer technology to industry The

International Trade Policy for Technology Transfers Yi Shin Tang, 2009-01-01 This book provides a robust guideline to both policymakers and researchers wishing to identify and categorize the factors that influence the process of technology flows across national boundaries as well as the economic theories and legal arguments that may support a given position in international forums In particular the work discusses how certain negotiation strategies may optimally deal with such barriers and lead to more effective institutional arrangements in the current global geography of technological development

**Government Patenting and Technology Transfer** Paul W. Heisey, 2005 This report examines the use of intellectual property rights in Federal technology transfer focusing primarily on the Agricultural Research Service ARS ARS uses patenting and licensing when a technology requires additional development by a private sector partner to yield a marketable product Licensing revenue is not a major motivation Greater use of patenting and licensing by ARS has not reduced the use of traditional instruments of technology transfer such as scientific publication The structure of licensing agreements affects technology transfer outcomes Mutually advantageous revisions to license terms may at times maintain the incentives through which private companies distribute the benefits of public research Taken from website

**Technology Transfer Systems in the United States and Germany** National Academy of Engineering, Fraunhofer Institute for Systems and Innovation Research, 1997-10-26 This book explores major similarities and differences in the structure conduct and performance of the national technology transfer systems of Germany and the United States It maps the technology transfer landscape in each country in detail uses case studies to examine the dynamics of technology transfer in four major technology areas and identifies areas and opportunities for further mutual learning between the two national systems

The Chicago Handbook of University Technology Transfer and Academic Entrepreneurship Albert N. Link, Donald S. Siegel, Mike Wright, 2015-03-09 As state support and federal research funding dwindle universities are increasingly viewing their intellectual property portfolios as lucrative sources of potential revenue Nearly all research universities now have a technology transfer office to manage their intellectual property but many are struggling to navigate this new world of university industry partnerships Given the substantial investment in academic research and millions of dollars potentially at stake identifying best practices in university technology transfer and academic entrepreneurship is of paramount importance The Chicago Handbook of University Technology Transfer and Academic Entrepreneurship is the first definitive source to synthesize state of the art research in this arena Edited by three of the foremost experts in the field the handbook presents evidence from entrepreneurs administrators regulators and professors in numerous disciplines Together they address the key managerial and policy implications through chapters on how to sustain successful research ventures ways to stimulate academic entrepreneurship maintain effective open innovation strategies and improve the performance of university technology transfer offices A broad and ambitious work the handbook offers comprehensive coverage for universities of all types allowing them to confidently handle technology commercialization and further cultivate innovation

Technology Transfer

and International Production Jin W. Cyhn, 2002-03-27 This book analyses the technology development efforts of Korea's electronics industry the country's largest exporter It asks how the Korean electronics industry was able to develop both in terms of production and technology despite low inflows of licensing and foreign direct investments The book argues that the key to its spectacular growth has been through its participation and learning from an inter firm arrangement called original equipment manufacturing arrangement OEM A number of firm level case studies on the Korean electronics industry support this argument The role of the government especially related to its technology policy has also been analysed The government was effective in providing financial incentives for the firms technological upgrading efforts but its supplying of direct technological assistance had limited success Overall this book argues that contrary to many previous studies the role of multinational enterprises has been significant in the development of Korea's electronics industry and that they have acted as a technological tutor for Korea through OEM P xiv tributors world 0

Globalization, Foreign Direct Investment and Technology Transfers Nagesh Kumar, 2003-08-29 In this book Nagesh Kumar and expert contributors examine and explain the emerging patterns in international technology transfers and foreign direct investment flows FDI over the past two decades They analyse the trends in internationalization of corporate activity in individual source countries discussing outflows from both major and emerging source countries This departs from the existing treatments of FDI as homogenous resource and allows for a more detailed prediction of future outflow patterns Throughout the research focuses upon the implications of new trends for developing countries Kumar concludes by outlining the policy implications for the governments of such countries seeking to mobilize technology and FDI for their industrialization and further integration into the international community Controversially he cautions against excessive optimism about the potential of FDI inflows as an agent of development This book draws together much data and information which is not readily available and provides reflections upon international business negotiations from a developing country's perspective

**Drug abuse technology transfer** Thomas E. Backer, 1991

International Technology Transfer by Small and Medium-Sized Enterprises Peter J. Buckley, Jaime Campos, Eduardo White, 2016-07-27 The book is the culmination of a research effort which spanned all continents and involved a large number of research teams from both the industrialised and developing countries The book addresses a number of key issues related to technology transfer by small and medium sized enterprises most especially whether such companies are more effective transferors than larger transnational corporations A key aspect of the research was the fact that firms in source and host countries were matched to assure a degree of consistency in the firm coverage and their responses
