Poetry and the Anthropocene Sam Solnick, 2016-09-19 This book asks what it means to write poetry in and about the Anthropocene the name given to a geological epoch where humans have a global ecological impact Combining critical approaches such as ecocriticism and posthumanism with close reading and archival research it argues that the Anthropocene requires poetry and the humanities to find new ways of thinking about unfamiliar spatial and temporal scales about how we approach the metaphors and discourses of the sciences and about the role of those processes and materials that confound humans attempts to control or even conceptualise them Poetry and the Anthropocene draws on the work of a series of poets from across the political and poetic spectrum analysing how understandings of technology shape literature about place evolution and the tradition of writing about what still gets called Nature The book explores how writers understanding of sciences such as climatology or biochemistry might shape their poetry s form and how literature can respond to environmental crises without descending into agitprop self righteousness or apocalyptic cynicism In the face of the Anthropocene s radical challenges to ethics aesthetics and politics the book shows how poetry offers significant ways of interrogating and rendering the complex relationships between organisms and their environments in a world increasingly marked by technology

Causley at 70 Harry Chambers, 1987 **On Form**, 2008-09-18 What is form Why does form matter In this imaginative and ambitious study Angela Leighton assesses not only the legacy of Victorian aestheticism and its richly resourceful keyword form but also the very nature of the literary She shows how writers for two centuries and more have returned to the idea of form as something which contains the secret of art itself She tracks the development of the word from the Romantics to contemporary poets and offers close readings of among others Tennyson Pater Woolf Yeats Stevens and Plath to show how form has provided the single most important way of accounting for the movements of literary language itself She investigates for instance the old debate of form and content of form as music or sound shape as the ghostly dynamic and dynamics of a text as well as its long association with the aestheticist principle of being for nothing In a wide ranging and inventive argument she suggests that form is the key to the pleasure of the literary

text and that that pleasure is part of what literary criticism itself needs to answer and convey **Time's Echo** Jeremy Eichler, 2024-09-24 A BEST BOOK OF THE YEAR THE NEW YORK TIMES NPR WINNER OF THREE NATIONAL JEWISH BOOK AWARDS Finalist for the Baillie Gifford Prize for Non Fiction A stirring account of how music bears witness to history and carries forward the memory of the wartime past SUNDAY TIMES OF LONDON HISTORY BOOK OF THE YEAR In 1785 when the great German poet Friedrich Schiller penned his immortal Ode to Joy he crystallized the deepest hopes and dreams of the European Enlightenment for a new era of peace and freedom a time when millions would be embraced as equals Beethoven's Ninth Symphony then gave wing to Schiller's words but barely a century later these same words were claimed by Nazi propagandists and twisted by a barbarism so complete that it ruptured as one philosopher put it the deep layer of solidarity among all who wear a human face When it comes to how societies remember these increasingly distant dreams and catastrophes we often think of history books archives documentaries or memorials carved from stone But in *Time's Echo* the award winning critic and cultural historian Jeremy Eichler makes a passionate and revelatory case for the power of music as culture's memory an art form uniquely capable of carrying forward meaning from the past With a critic's ear a scholar's erudition and a novelist's eye for detail Eichler shows how four towering composers Richard Strauss Arnold Schoenberg Dmitri Shostakovich and Benjamin Britten lived through the era of the Second World War and the Holocaust and later transformed their experiences into deeply moving transcendent works of music scores that echo lost time Summoning the supporting testimony of writers poets philosophers musicians and everyday citizens Eichler reveals how the essence of an entire epoch has been inscribed in these sounds and stories Along the way he visits key locations central to the music's creation from the ruins of Coventry Cathedral to the site of the Babi Yar ravine in Kyiv As the living memory of the Second World War fades *Time's Echo* proposes new ways of listening to history and learning to hear between its notes the resonances of what another era has written heard dreamed hoped and mourned A lyrical narrative full of insight and compassion this book deepens how we think about the legacies of war the presence of the past and the renewed promise of art for our lives today **Englische Lyrik Vom Zweiten Weltkrieg Bis Zur Gegenwart** Gerhard Haefner, 1997

Response to Death Christian Riegel, 2005-02-15 *Response to Death* presents a literary historical perspective on mourning tracing examples of mourning in literary works from the medieval world to the present day Contributors offer a chronological examination of the concept of the work of mourning in specific literary and historical contexts beginning with an exploration of the medieval York Cycle of plays and sixteenth century French women's lyric and continuing through the Renaissance with considerations of Shakespeare the nineteenth century and into the twentieth century Foreword by Jonathan Hart [Literary and Cultural Responses to Mnemonic Landscapes](#) Lourdes López-Ropero, Marzena Sokołowska-Paryż, 2025-07-23 This book offers a profound exploration of spaces in transit a concept that bridges urban spaces natural environments and the archival and architectural echoes of the past with their representations in literature art and commemorative practices Through 14

meticulously crafted essays this volume delves into the intricate interplay between spatial and cultural memory framed by theories of geocriticism feminism race postcolonialism and more Key concepts such as deep spaces implicative spaces and landmark poetic spaces are introduced inviting readers to consider the fluidity and mutability of memory laden sites The essays critically examine how these spaces are continually reinterpreted and renegotiated challenging ideologically rigid narratives The volume is organized into three thematic parts Historiescapes Artscapes and Mythic Urbanscapes and Naturescapes each offering unique insights into the mnemonic appropriations of physical and literary spaces This collection is essential for scholars and students in urban studies environmental studies memory and literary studies providing a comprehensive study of contemporary cultural and theoretical trends It invites readers to rethink the sedentary nomadic continuum of memory and space offering a fresh perspective on the dynamic nature of cultural and collective memory

The Problem of Consciousness in Modern Poetry Hugh Underhill, 1992-07-31 Modernist aesthetics have been identified with a sense of cultural crisis defined by its distance from an ideal of unified consciousness This original study examines the struggle toward that ideal of unitary subjective experience in modern British and Irish poetry from Hardy to Ted Hughes Hugh Underhill argues that the poetry's emphasis on inner states underrepresents the extent to which the crisis is in fact socio historically determined

Misreading England Raphaël Ingelbien, 2021-11-01 In *Misreading England* Poetry and Nationhood Since the Second World War Raphaël Ingelbien examines how issues of nationhood have affected the works and the reception of several English and Irish poets Philip Larkin Ted Hughes Geoffrey Hill and Seamus Heaney This study explores the interactions between post war English poets and the ways in which they transformed or misread earlier poetic visions of England Romantic Georgian Modernist It also traces often neglected but crucial links between their troubled poetics of Englishness and Seamus Heaney's poetry of Irish nationhood This radically intertextual approach takes issue with influential accounts of post war poetry that have drawn on postcolonialism Instead of being made to reflect contemporary agendas the poetics of nationhood are here considered in all their textual and ideological complexity and restored to the historical intellectual and literary contexts which postcolonial emphases on identity often play down or simplify Whereas critics in post devolution Britain increasingly use texts to debunk or promote specific versions of national identity this study interrogates the very terms in which the debate has been conducted Its metacritical analyses expose the contradictions of identity politics and its intertextual readings help re draw the map of post war poetry in Britain and Ireland

Chameleon Poet S.J. Perry, 2013-11 *Chameleon Poet* book goes against the grain of previous readings of the Welsh poet and nationalist R S Thomas by revealing him as profoundly indebted to the modes traditions and personae of the English literary canon

of identity and poetry as redress to a series of close readings of prose writing on poetic exemplars such as Robert Lowell Patrick Kavanagh W B Yeats Ted Hughes Philip Larkin and Brian Friel Seamus Heaney s prose is extensive in its literary depth knowledge critical awareness and its span During the course of his life he published six collections of prose entitled Preoccupations Selected Prose 1968 1978 Place and Displacement Recent Poetry of Northern Ireland The Government of the Tongue The 1986 T S Eliot Memorial Lectures and Other Critical Writings The Place of Writing The Redress of Poetry Oxford Lectures and Finders Keepers Each of these texts is addressed in the collection alongside occasional and specific essays such as Crediting Poetry Writer and Righter and Mossbawn via Mantua Ireland in and Europe Cross currents and Exchanges among many others This book is a comprehensive and timely study of Seamus Heaney s prose from leading international scholars in the field Roman Drama and its Contexts Stavros Frangoulidis, Stephen J. Harrison, Gesine

Manuwald, 2016-03-21 Roman plays have been well studied individually even including fragmentary or spurious ones more recently However they have not always been placed into their context though plays just like items in other literary genres benefit from being seen in context This edited collection aims to address this issue it includes 33 contributions by an international team of scholars discussing single plays or Roman dramatic genres including comedy tragedy and praetexta from both the Republican and imperial periods in contexts such as the literary tradition the relationship to works in other literary genres the historical and social situation the intellectual background or the later reception Overall they offer a rich panorama of the role of Roman drama or individual plays in Roman society and literary history The insights gained thereby will be of relevance to everyone interested in Roman drama or literature more generally comparative literature or drama and theatre studies This contextual approach has the potential of changing the way in which Roman drama is viewed **Sylvia**

Plath's Fiction Luke Ferretter, 2012-05-08 The first study devoted to Sylvia Plath s fiction covering The Bell Jar and all of her published and unpublished short stories drawing extensively on archival material **American Isis** Carl

Rollyson, 2013-01-29 In his biography the author describes Plath as a powerful figure who embraced both high and low culture a writer who wanted nothing less than to become central to the mythology of modern consciousness **Wallace**

Stevens and Pre-Socratic Philosophy Daniel Tompsett, 2012 This book studies Wallace Stevens and pre Socratic philosophy showing how concepts that animate Stevens poetry parallel concepts and techniques found in the poetic works of Parmenides Empedocles and Xenophanes and in the fragments of Heraclitus Tompsett traces the transition of pre Socratic ideas into poetry and philosophy of the post Kantian period assessing the impact that the mythologies associated with pre Socratism have had on structures of metaphysical thought that are still found in poetry and philosophy today This transition is treated as becoming increasingly important as poetic and philosophic forms have progressively taken on the existential burden of our post theological age Tompsett argues that Stevens poetry attempts to play its audience into an ontological ground in an effort to show that his reduction of metaphysics is not dry philosophical imposition but is enacted by our

encounter with the poems themselves Through an analysis of the language and form of Stevens poems Tompsett uncovers the mythology his poetry shares with certain pre Socratics and with Greek tragedy This shows how such mythic rhythms are apparent within the work of Friedrich Nietzsche Martin Heidegger and Hans Georg Gadamer and how these rhythms release a poetic understanding of the violence of a reduction of metaphysics
