Del Negro, Melanie A. Kimball, 2017-06-28 Based on proven theory and real life experience this guidebook provides a one stop resource for educators, librarians and storytellers looking to introduce storytelling programs for young adults. Storytelling is often associated with storytime and library services to young children but effective storytelling speaks to all ages including teens.

Engaging Teens with Story: How to Inspire and Educate Youth with Storytelling offers an in depth look at storytelling for young adults that explains the benefits of storytelling with this audience, what current practices are and storytelling opportunities to explore with youth. It provides a unique source of expert guidance that youth services librarians, professional storytellers and middle and high school teachers will appreciate. Readers will learn how to find stories for teens, apply proven techniques for successful telling of tales to teens, use traditional literature as a basis for creative writing and establish a teen storytelling club or troupe. The guide also covers how teens can create their own stories with digital media, the connections between traditional folk and fairy tales and today's film, television, books and online media and how storytelling can be successfully used with at risk youth. **Storytelling** Janice M. Del Negro, 2021-06-24 This book serves as both a textbook and reference for faculty and students in LIS courses on storytelling and a professional guide for practicing librarians, particularly youth services librarians in public and school libraries. Storytelling: Art and Technique serves professors, students and practitioners alike as a textbook, reference and professional guide. It provides practical instruction and concrete examples of how to use the power of story to build literacy and presentation skills as well as to create community in those same educational spaces. This text illustrates the value of storytelling, covers the history of storytelling in libraries and offers valuable guidance for bringing stories to contemporary listeners with detailed instructions on the selection, preparation and presentation of stories. It also provides guidance around the planning and administration of a storytelling program. Topics include digital storytelling, open mics and slams and the neuroscience of storytelling. An extensive and helpful section of resources for the storyteller is included in an expanded Part V of this edition. **Monstrous adaptations** Richard Hand, Jay McRoy, 2017-06-01 The fifteen groundbreaking essays contained in this book address the concept of adaptation in relation to horror cinema. Adaptation is not only a key cultural practice and strategy for filmmakers but it is also a theme of major importance within horror cinema as a whole. The history of the genre is full of adaptations that have drawn from fiction or folklore or that have assumed the shape of remakes of pre-existing films. The horror genre itself also abounds with its own myriad transformations and transmutations. The essays within this volume engage with an impressive range of horror texts.
