world the telecommunications industry in the Netherlands has been subject to drastic change over the last few years By  
necessity the same applies to its regulation the present Dutch Telecommunications Act dates from 1988 when competitive  
provision of infrastructure and services was almost non-existent Since then technological developments and a general  
tendency towards liberalisation have had a profound impact on the market structure on 15 July 1996 a major amendment to  
the Dutch Telecommunications Act introduced virtually unlimited competition in the provision of fixed telecommunication  
infrastructure In addition almost all telecommunication services with the exception of public voice telephony were liberalised  
This book provides an introduction to Dutch telecommunications regulation and contains English translations of the  
Telecommunications Act the Fixed Telecommunications Infrastructure Licences Act and a number of important regulations  
implementing the acts This publication results from a cooperative effort between the law firm Loeff Claeyss Verbeke and the  
Telecommunications and Post Department of the Ministry of Transport Public Works and Water Management      *The  
Cumulative Book Index*, 1999      *The Development of the Principles of Insurance Law in the Netherlands from 1500 to 1800*  
J. P. Van Niekerk, 1998 Published in two volumes the first part of this title covers the origin recognition and distinguishing  
features of the insurance contract The second part details the principles of pre-codified Dutch insurance law from general  
requirements to the termination of insurance contracts      **Martindale Hubbell Law Directory**
