Telecommunications Values And The Public Interest:

Telecommunications, Values and the Public Interest Sven B. Lundstedt, 1987 *Telecommunications, Values, and the Public Interest* Sven B. Lundstedt, 1990 Communications in EU Law : Antitrust Market Power and Public Interest Antonio Bavasso, 2003-01-01 Approaching the theme from an antitrust perspective and focusing on telecommunications and television broadcasting this volume examines how traditional European competition law doctrines and principles can be applied to this converging sector The application of antitrust rules to the communications sector is often one of the most controversial areas of law and policy The shift towards a more competition law oriented form of regulation is one of the main principles inspiring the recent reform of European sectorial regulation enshrined in the 2002 Electronic Communication Package The Package was adopted in 2002 and is in the process of being implemented throughout the Union This monograph provides a detailed description of the new regulatory package and highlights the interplay between regulatory provisions and EC competition law It then follows the pattern of a typical antitrust analysis containing chapters on the definition of relevant market in the sector and various forms of abuses of market power The book also critically examines the Commission's practice and policy in the field of merger control and considers its relationship with wider regulatory policies Finally it analyses the sector from the perspective of the European public interest and the changed nature of communications as a public service

Telecommunications Politics Bella Mody, Johannes M. Bauer, Joe Straubhaar, 1995-09-01 This volume brings together scholars and policymakers to address the issue of telecommunications policy in developing countries It elaborates on the position that economics and technology determine the framework for discussion but politics makes the decision Politics in this case refers to the dynamics of the power structure generated by the h **The Telecommunications Revolution in Korea** James F. Larson, 1995 The first English language work on Korea's unique experiences with telecommunications this book focuses on Korea's distinct political economic legal socio cultural and personal dimensions It includes chapters on the relationship between political liberalization and telecommunications education and public promotion of the information society together with the role of new technologies in the reunification of Korea *Broadcast Regulation and Station Ownership* United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Telecommunications, Consumer Protection, and Finance, 1985 **Annual Review of Information Science & Technology** Blaise Cronin, 2006-10 ARIST published annually since 1966 is a landmark publication within the information science community It surveys the landscape of information science and technology providing an analytical authoritative and accessible overview of recent trends and significant developments The range of topics varies considerably reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives While ARIST continues to cover key topics associated with classical information science e.g. bibliometrics information retrieval editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities Ethical Issues in

the Communication Process J. Vernon Jensen, 2013-11-05 A rapid and widespread growth of interest in applied ethics is occurring today not only in the United States but around the world as well Academia both reflects this and is a leader in the movement The field of speech communication shares in this increased sensitivity to ethical concerns Students and the general public are looking for thoughtful analyses and guidance in all areas of communication Ethical concerns relative to mass communication have been the subject of a number of books but only a very few cover the entire scope of communication to include interpersonal intercultural organizational small groups and public speaking This book tries to fill that need by discussing ethical concerns as they emerge in the areas of the communication process the communicator the message the media the audience and the situation The speech communication field now has a need to digest and synthesize the existing research findings and the general literature in the field and in related humanities and social science works into a coherent and nontechnical discussion This volume explores the most up to date materials to provide just such a synthesis An extensive bibliography at the end of the book gives readers the sources on which the book is based and offers ample avenues for further personal exploration The book should provide meaningful food for thought as readers grapple conscientiously with the many everyday decisions made in communication transactions and in evaluating the communication of others ICT Infrastructure in Emerging Asia Rohan Samarajiva, Ayesha Zainudeen, 2008 This book examines how theoretically optimal concepts actually get implemented in the hard terrain of emerging Asia It gleans lessons from five Asian countries 2014 Bangladesh India Indonesia Nepal and Sri Lanka 2014 based on their experiences with expanding ICT connectivity It reports the findings of a cutting edge 3000 sample demand side survey of telephone use at the bottom of the pyramid in India and Sri Lanka It considers the problem of expanding connectivity from different angles that of the user the operator the policymaker the regulator and civil society And it sheds light on a range of situations and technologies like telephone use in post conflict regions of Sri Lanka Wi Fi deployment in Indonesia and universal service obligations in India **Universal Service in WTO and EU law** Olga Batura, 2015-10-07 This book is a systematic comparative study of WTO and EU law relevant for universal service provision and a timely contribution to the ongoing scholarly and policy debates about the concept and scope of universal service Universal service is one of the most significant regulatory issues worldwide and it is likely to remain so The central question dealt with by the author is how the technologically intensive sector of telecommunications services can be regulated in a socially fair way in the light of liberalisation and the immense importance of ICTs in the Information Society The author investigates whether the legal frameworks of WTO and EU can meet the challenges of the rapid and dramatic technological and social change and formulates relevant policy recommendations The book is of interest to both scholars and practitioners in several disciplines such as EU and WTO law telecommunications law and regulation political science regarding market regulation and governance as well as European integration and WTO Olga Batura is affiliated to the Leuphana Law School University of L neburg Germany and to the European Humanities University in Vilnius Lithuania

Universal Access and Its Asymmetries Harmeet Sawhney, Hamid R. Ekbia, 2022-12-13 A framework for understanding the totality of costs and benefits of universal access that will foster honest appraisal and guide the development of good policies Universal access the idea that certain technologies and services should be extended to all regardless of geography or ability to pay evokes ideals of democracy and equality that must be reconciled with the realities on the ground The COVID 19 pandemic raised awareness of the need for access to high speed internet service in the United States but this is just the latest in a long history of debates about what should be made available and to whom Rural mail delivery electrification telephone service public schooling and library access each raised the same questions as today s debates about health care and broadband What types of services should be universally available Who benefits from extending these services And who bears the cost Stepping beyond humanitarian arguments to conduct a clear eyed diagnostic analysis this book offers some surprising conclusions While the conventional approach to universal access looks primarily at the costs to the system and the benefits to individuals Harmeet Sawhney and Hamid Ekbia provide a holistic perspective that also accounts for costs to individuals and benefits for systems With a comparative approach across multiple cases *Universal Access and Its Asymmetries* is an essential exploration of the history costs and benefits of providing universal access to technologies and services With a fresh perspective it overturns common assumptions and offers a foundation for making decisions about how to extend service and how to pay for it *Handbook of Media Management and Economics* Alan B. Albarran, Sylvia M. Chan-Olmsted, Michael O. Wirth, 2006 This handbook provides a synthesis of current work and research in media management and economics and establishes an agenda for future activities It will serve as a foundational resource for scholars and students in media management and economics *International Media Research* John R. Corner, Philip Schlesinger, Professor Philip R Schlesinger, Roger Silverstone, 2004-01-14 *International Media Research* offers a rigorous and critical review of key approaches and concerns that have recently defined the field of media research In this clearly argued collection of essays the contributors analyze and reflect upon dominant themes and debates that have made media research an increasingly important element of cultural theory The volume begins with a critical evaluation of the work of the leading media scholar Elihu Katz and continues with an exploration of the relationship between media studies and adjacent disciplines cultural studies and gender and sexuality Contributors drawn from Britain America Canada and Belgium consider the relationships between media research and media policy in different national and international contexts Focusing on the European Union East Central Europe North America and Latin America chapters assess the impact of social economic and political circumstances on policy debates and the shaping of the research agenda The final chapter adopts a transatlantic perspective in tracing and analysing the history of the media s role in reporting war **Sorting Out Deregulation** Jae Young Kim, Chae-yŏng Kim, 2002 Kim examines how the United States Germany and Japan encourage universal service and free speech on the Internet in deregulated marketplaces All three nations seek universal service through competitive

marketplaces but they guarantee free expression differently hands off policies in the US top down approaches in Germany and bottom up approaches in Japan The local political social and legal atmosphere determines each nation s policies However all approaches betray unanticipated consequences that weaken their policies Public interest in the two areas cannot be realized without sacrificing the viability of telecommunications deregulation and universal service and the maintenance of free speech require government action
