## Television And Politics:

*Television and Politics*, One question the authors address Do network projections based on increasingly sophisticated techniques for calling election outcomes well before polls close affect results At no time has this question been more in the forefront of public consciousness than in the wake of the 2000 presidential election The Langs draw on their own highly detailed study of voter reactions to election news to assess its effect on turnout on political attitudes on candidate strategies and on legislative initiatives As a model of how to study communication effects this highly readable volume will interest decision makers and analysts as well as students of journalism broadcasting political behavior and voters looking ahead to the next election BOOK JACKET

**Television and Politics**, 2017 The authors have analyzed the television problem brilliantly They had come up with a whole set of new insights and their backup research always is fascinating to read Saturday Review A cautious research based book hopefully it will set a trend Ithiel de Sola Pool Public Opinion Quarterly After more than forty years of studying its political implications Kurt and Gladys Lang put the power of television into a unique perspective Through carefully compiled case studies they reveal surprising truths about TV's effect on American political life and explode some popular myths Their theme throughout is that television gives the viewer the illusion of being a favored spectator at some event he sees for himself in other words But in fact it conveys a reality different from that experienced by an eyewitness Because the televised version of an event reaches more people it has greater impact on the public memory and comes to overshadow what actually happened The Langs tell in detail how television shapes events how public figures and political institutions adjust their tactics to exploit the effects they and millions of viewers think television has They examine such issues as whether or not network television projections influence election results They consider the accuracy of the networks increasingly sophisticated techniques for calling election outcomes well before polls close Such concerns have never been more at the forefront of the public consciousness than in the wake of the 2000 presidential election The Langs assess the research to date and clarify the effects of early TV projections on voter turnout and election outcomes and look at the implications for our system of government A model of excellent policy analysis this highly readable volume will interest decision makers and analysts as well as students of journalism broadcasting political behavior and voters looking forward to the next election Kurt Lang was a professor of sociology and political science at Stony Brook before becoming the Director of the School of Communications at the University of Washington Gladys Engel Lang is a professor of communications with joint appointments in Political Science and Sociology at the University of Washington In addition to *Television and Politics* the Langs have also co-authored *The Battle for Public Opinion the President the Press and the Polls during Watergate Voting and Nonvoting and Collective Dynamics* Provided by publisher

**Politics and the American Television Comedy** Doyle Greene,2015-01-28 This work examines the unique and ever changing relationship between politics and comedy through an analysis of several popular American television programs Focusing on close readings of the work of Ernie Kovacs Soupy Sales and Andy Kaufman as well as Green Acres and The Gong Show the author provides a unique glimpse at the often subversive nature of avant garde television comedy The crisis in American television during the political unrest of the late 1960s is also studied as represented by individual analyses of The

Monkees The Smothers Brothers Comedy Hour Rowan and Martin's Laugh In and All in the Family The author also focuses on more contemporary American television drawing a comparative analysis between the referential postmodernism of The Simpsons and the confrontational absurdity of South Park

*Politics and Politicians in Contemporary US Television* Betty Kaklamanidou, Margaret Tally, 2016-10-04 Bringing together well established scholars of media political science sociology and film to investigate the representation of Washington politics on U.S. television from the mid 2000s to the present this volume offers stimulating perspectives on the status of representations of contemporary US politics the role of government and the machinations and intrigue often associated with politicians and governmental institutions The authors help to locate these

Television and Politics in Evolving European Democracies Lynda Lee Kaid,1999 Throughout the world television has become an important part of the way in which political candidates and parties present their messages to voters during election campaigns This is particularly true in campaigns at the national level where voters have little personal contact with candidates and must rely on experiencing candidates through the media Despite the importance of the media for voter government interaction however many new reform governments in the post communist era in Eastern European countries failed to appreciate the demands of creating workable new media systems

Reel Politics Lemi Baruh, Ji Hoon Park,2020-05-22 In the mid 1980s Neil Postman claimed that television made entertainment the natural format for the representation of all experience While Postman s argument still is pertinent to a description of contemporary television shows it also seems increasingly more accurate to argue that reality based entertainment is quickly becoming the referential format for televisual representations of our experience in the 21st century Chapters in this edited volume explore reality television s place within contemporary media landscape in terms of its potential for political engagement The authors engage with a variety of issues such as politics of authenticity and performance audience reception of political issues ethics and media regulation politics of self presentation modernity and collective identity The diversity of perspectives and issues presented in this book cautions readers both against quickly dismissing reality television s potential as a platform for political discourse and against subscribing to the celebratory rhetoric regarding the democratic potential of reality television

Reel Politics Reality Television as a Platform for Political Discourse furthers our understanding of the semiotic openness of the reality text and the variations in social cultural and political contexts across which the reality television genre formulas migrate

**Public Radio and Television in America** Ralph Engelman, 1996-04-22 Ralph Engelman's history of the growth of public radio and television in America is timely compelling and instructive Very useful for citizens who take seriously the need for public use of the public airwaves which we need to remember the people own but do not control Ralph Nader Director The Center for the Study of Responsive Law There is no cynicism or stridency in Ralph Engelman's definitive history of public broadcasting's failure to fulfill its promise only documentation of the immense problems endemic to government and corporate sponsored mass media For models of hope this volume acknowledges the civic discourse that has thrived in the margins of public broadcasting in the independent community and in the homespun programming of the public access movement Dee Dee Halleck Cofounder Paper Tiger Television Deep Dish TV Public Radio and Television in America by Ralph Engelman effectively navigates the complex

controversial and often maddening history of public broadcasting as a political and cultural force Always more important than its audience size in America public broadcasting s promise and problems as well as its heroes and villains are treated effectively and well in this solid and critical analysis The book is compact yet sufficiently substantive and blessedly well written and well documented Everett E Dennis Executive Director Freedom Forum Media Studies Center editor Media Studies Journal Ralph Engelman s Public Radio and Television in America is a chilling description of how noncommercial broadcasting is the tragic victim of conservative corporate politics that have spent most of this century trying to cripple and kill it Ben H Bagdikian former Dean Graduate School of Journalism at the University of California     **The International Politics of Television** George H.
