The Logoarchetype

Sebastian Brünink

The Logoarchetype:

The Logoarchetype Daniel Deleanu, 2003-03-23 Daniel Deleanu's new book continues the logosophistic investigation started in *Principles of Logosophism*. The Logoarchetype is written in the same logosophistic English, an original metalanguage which makes English foreign to itself while returning to its unconscious archetypal roots. The author links C. G. Jung's notion of archetype with the archaic concept of Logos as it appears in Plato, Zeno, Philo of Alexandria, The Gospel of John, the philosophic work of the Romanian poets Mihai Eminescu and Lucian Blaga, and in all the major religions from the primitive to the modern ones. Deleanu's original concept of logoarchetype searches out hidden etymologies, lost meanings, and unconscious senses of being. Daniel Deleanu breaks all the boundaries of human knowledge with this extremely innovative scholarly system called logosophism, whose most important achievement is the discovery of the logoarchetype. Mythos and Logos in the Thought of Carl Jung Walter A. Shelburne, 1988-01-01 The author explores and defends the bold thesis that the idea of the collective unconscious can be reconciled with a scientific world outlook as he sketches a big picture from Jung's psychological viewpoint. In his examination of Jung's archetypes, Shelburne considers the chief critical views of the scientific import of Jung's thesis as he discusses the issue of rationality posed by the theory. There is also a discussion of how the ideas of James Hillman contrast with those of Jung on the issue of the scientific nature of archetypes. Shelburne presents scientific evidence for the existence of archetypes and shows how the theory fits in with modern evolutionary biology. **The Brand Mythology: Creating Legends Around Your Products** Ahmed Musa, 2024-12-31 Every successful brand has a story, and this book teaches you how to craft a compelling mythology around your products.
