The Of Ode An Afrocentric View Of Psychology:

The Book of Ode Lionel F. Scott,2001-08-01 **Divining the Self** Velma E. Love,2012 Explores the dynamics of African American engagements with the Holy Odu the unwritten sacred scriptures of the West African Ifa Orisha tradition Examines the experiences of selected practitioners focusing on the ways in which the divinatory narrative and associated mythology impact self understanding and worldview Provided by publisher **African American Psychology** Faye Z. Belgrave, Kevin Wendell Allison, Camilla W. Nonterah,2025-09-02 African American Psychology From Africa to America provides a comprehensive and integrated introduction to the field The Fifth Edition presents recent advances and developments in African American psychology including new coverage of systematic and institutional racism Black empowerment COVID 19 s impact on Black communities and increased attention to heterogeneity within the Black community **The Ideological Origins of African American Literature** Phillip M. Richards,2025-06-27 Inquiry into African American literature in recent decades has neglected to probe the intellectual structure of the tradition s aesthetics and its underlying ideology In The Ideological Origins of African American Literature Phillip M Richards begins this reconstructive work illuminating the dialectical backstory of black prose and poetry in America Richards argues that the social and political forces that influenced white literature were uniquely reacted to absorbed and often times rejected by African American literary figures from the eighteenth century Puritan notions of a God centered history to the onset of Romanticism and Modernism in the nineteenth and twentieth centuries Building his case for ideological continuity Richards surveys a profoundly creative period of 125 years launched by an African American reaction against a racist mid eighteenth century American culture This epoch in African American literature saw a fusion of Puritan Protestant culture into a religious and secular worldview drawing in the poetry of Phillis Wheatley antebellum slave narratives Richard Allen and the periodicals of the ambitious African Methodist Episcopalian movement all of which would form the underlying foundation of a Black Victorian culture A rising black middle class Richards argues would later be secularized by an eroding religious tradition under the pressures of nineteenth century modernity the trauma of Jim Crow and the emerging northern ghetto Richards further traces the emergence of Romanticism which appeared with white American authors such as Emerson Thoreau and Whitman but would not take shape in African American literature until the likes of W E B Du Bois and Langston Hughes took stock of Anglo European culture at the end of the nineteenth century The Ideological Origins of African American Literature illustrates a pattern of black writing that eschews the hegemonic white culture of the day for an evolving black culture that would define an American literary landscape [Post/Colonialism and the Pursuit of Freedom in the Black Atlantic](#) Jerome C Branche,2018-01-19 Post Colonialism and the Pursuit of Freedom in the Black Atlantic is an interdisciplinary collection of essays of wide historical and geographic scope which engages the legacy of diaspora colonialism and slavery The contributors explore the confrontation between Africa s forced migrants and their unwelcoming

new environments in order to highlight the unique individual experiences of survival and assimilation that characterized Atlantic slavery. As they focus on the African or Afro diasporan populations under study, the chapters gauge the degree to which formal independence coming out of a variety of practices of opposition and resistance lasting centuries in some cases has translated into freedom, security and a good life. By foregrounding Hispanophone, Lusophone and Francophone African and Afro descendant concerns over and against an often Anglo-centric focus in the field, the book brings a more representative approach to the area of diaspora or Black Atlantic studies, offering a more complete appreciation of Black Atlantic cultural production across history and across linguistic barriers.

Intertextuality in Contemporary African Literature Ode Ogede, 2011-09-16 This book is a study in African literary influence. It focuses on the importance of indigenous sources to new writing. The analytical framework for the study draws on recent conceptual advances in theories of authorship, juxtaposing works and authors that are traditionally thought to be unlikely bedfellows. The book persuasively identifies their hitherto unexamined points of contact, opening up a vigorous debate about the roots of African literature and offering a radical critique of the assumptions underlying conventional notions of African literature. The book provides valuable insight on the roles of such activities as appropriation, copying, pastiche, parody, simulation, foraging, grafting, padding, recycling and remodeling in underwriting literary expression in Africa. Alive with wit and full of delight in the texts it discusses, it is a marvel of close and attentive detective reading.

The Experiences of Black Women Diversity Practitioners in Historically White Institutions Johnson, Tristen Brenaé, 2022-12-19 In recent decades, historically white institutions have advanced their focus on diversity, equity and inclusion practices within their organizations. Today, many organizations feature diversity practitioners within their workforce. Despite this, many historically white institutions, such as education, business and healthcare organizations, still face systemic racism from within. In the wake of the dual pandemics of COVID-19 and systemic racism, it is essential for historically white institutions to listen to the experiences of Black women diversity practitioners so that they may implement the necessary changes to promote a more diverse, inclusive and equitable environment. *The Experiences of Black Women Diversity Practitioners in Historically White Institutions* centers on Black women's experiences before, during and after the dual pandemics at historically white higher education, corporate America and healthcare institutions, and how these experiences have affected their ability to perform their jobs. The stories and research provided offer crucial information for institutions to look inward at the cultures and practices for their organizations that directly impact Black women diversity practitioners. Covering topics such as guidance in leadership, Black woman leadership and
