## **The Of Rules Of Tyconius Its Purpose And Inner Logic:**

**The Book of Rules of Tyconius** Pamela Bright, 2016-09-15 The *Liber Regularum* written by Tyconius in the Fourth Century A D was the first system of biblical interpretation proposed by a Latin theologian Augustine was very interested in this work and included an extraordinary summation of it in his *De doctrina christiana* Although this treatment insured the preservation of the work and its lasting fame Augustine's summary became better known than the original Pamela Bright's *The Book of Rules of Tyconius Its Purpose and Inner Logic* reintroduces this neglected classic of early church literature Bright asserts that although Augustine was greatly influenced by the *Liber Regularum* his philosophical differences caused him to misunderstand its meaning Bright reexamines the meaning of prophecy and rule from Tyconius's perspective and reveals that the purpose of the book was not to provide a general guide to scriptural interpretation but rather a way to interpret apocalyptic texts She cites Tyconius's intense concern with evil in the church as the genesis of his interest in the apocalypse and subsequently the meaning of the scripture concerning it Tyconius speaks of the seven mystical rules of scripture that with the grace of the Holy Spirit reveal the true meaning of prophecy If an interpreter follows the logic of these rules the nature of the church as composed by both good and evil membership is revealed Bright argues that Tyconius was not illogical or incompetent in the work's composition as many critics have claimed but rather that he organized his material in a concentric pattern so that Rule Four the center of the seven rules is also the central development of his theory Of interest to theologians students of biblical interpretation and of Augustine *The Book of Rules of Tyconius* focuses attention upon a work that had great influence on the understanding of the nature of the church on interpreting scripture and its meaning for the Church of its day

**The Book of Rules of Tyconius** Pamela Bright, 2009 **Tyconius' Book of Rules** Matthew R. Lynskey, 2021-03-01 In *Tyconius Book of Rules* Matthew R Lynskey explores the church centric interpretation of ancient biblical exegesis Tyconius in his hermeneutical treatise *Liber regularum* Influential within his Donatist tradition and the broader context of early North African Christianity Tyconius wrote one of the earliest works on exegetical theory and praxis in Latin Christianity By investigating five key concepts undergirding Tyconius's theology of church Lynskey demonstrates how Tyconius ecclesiology shaped his hermeneutical enterprise Through careful readings and close analysis of *Liber regularum* this study seeks to describe Tyconius exegesis on its own terms reflecting on notable historical theological formational and missiological implications of his ecclesial exegesis as it concerns the ancient and contemporary church

**Revelation 19-21 in the Exegesis of Early Christian Roman Africa** Martina Vercesi , 2025-02-17 Martina Vercesi explores the history of interpretation of one of the most disputed passages of the Book of Revelation chapters 19-21 within the early Christian communities of Roman Africa from the second to the end of the fourth century Analysing the reception and exegesis of these chapters the author examines a variety of sources including letters treatises commentaries and martyrological texts addressing historical theological and textual questions Beginning with the analysis of the *Acta Martyrum*

Scillitanorum she provides a comprehensive account of the exegesis of Revelation 19 21 offering insights into how early Christians actively engaged with the Book of Revelation and how these chapters influenced the eschatological thoughts of the early Christian communities

**The Westminster Handbook to Patristic Theology** John Anthony McGuckin, 2004-01-01

The early centuries of the Christian era were marked by a variety of theological ideas in differing stages of development Numerous theologians emerged with proposals about what the Christian church should believe and how theological ideas related to each other Some of these theologians gained more prominent status and their ideas became sources on which others built Patristic theology is thus a formative period a yeasty time in which theological doctrines took on many stages of complexity This outstanding handbook by a leading specialist in Patristic Theology provides students and scholars with easy access to key terms figures socio cultural developments and controversies of this period extending to the ninth century McGuckin s introductory essay outlines the main intellectual issues in the early church His concluding Bibliographic Guide Essay and General Bibliography also features a Website Resources Guide to assist readers with additional ways to study this period The entries are written to help those with no previous theological knowledge understand the major dimensions of each topic The result is an eminently useful reliable and unique resource

*The Book of Revelation and Its Interpreters* Ian Boxall, Richard Tresley, 2015-11-25

The Book of Revelation has fired the imaginations of theologians preachers artists and ordinary Christians across the centuries The resulting number of commentaries on the book is enormous and most studies can only touch upon at most a representative sample of this vast literature As a consequence many focus largely on the interpretation of the Apocalypse only within specific periods such as the patristic period or during the Reformation One result of this severe limitation given the vast literary corpus is how historical interpretations in critical commentaries of the Book of Revelations tend to prioritize authors from the modern period In *The Book of Revelation and Its Interpreters* Short Studies and an Annotated Bibliography editors Richard Tresley and Ian Boxall fill a significant gap in the scholarly literature At its heart is an extensive annotated bibliography covering commentaries on the book up to 1700 including most of the early illuminated Apocalypses Supporting the presentation of this survey of the historical interpretations of the Book of Revelation is an extended overview of Revelation s often colorful reception history by Christopher Rowland together with a number of short studies on various aspects of the book These include discussions of specific commentators such as Sean Michael Ryan s look at Tyconius and Francis X Gumerlock exploration of Chromatius of Aquileia alongside a more general treatment of Revelation s impact on the figure of John of Patmos in an essay by Ian Boxall and the visual reception of Revelation in Natasha O Hear s article *The Book of Revelation and Its Interpreters* provides a valuable bibliographical resource for those working in the field of Biblical Studies history of Christianity eschatology and apocalyptic studies The accompanying essays orient the authors recorded in the bibliography within a larger context offering specific examples of the Apocalypse s capacity to speak in fresh and often surprising ways to diverse audiences throughout history

Reception of 2 Thessalonians 2:3-12 Karol Piotr Kulpa, 2022-09-14 In this volume Karol Piotr Kulpa offers a coherent analysis of the reception of 2 Thess 2 3 12 by Tyconius in his *Liber Regularum* and his reconstructed *Expositio Apocalypseos* The author proposes and applies his own method for a reception history composed of historical literary and theological levels which is constructive as well as analytical In this way he writes a history of reception that not only finds its anchor in the past but also builds bridges to theological questions of the present In particular the author identifies that motifs of *homo peccati* *mysterium facinoris* and *discessio* drawn from 2 Thess 2 3 and 2 7 become Tyconius world constructing verses in his understanding of Scripture and of the bipartition in the church's reality in human nature and in eschatological temporality As a result he offers a refreshingly ecumenical reading of Tyconius refusing to reduce his significance to that of a heretical voice but re-envisaging him as a potentially authoritative theologian and exegete The Donatist Church in an Apocalyptic Age

Jesse A. Hoover, 2018-05-25 The Donatist Church in an Apocalyptic Age examines an apocalypse that never happened seen through the eyes of a dissident church that no longer exists Jesse A Hoover considers Donatists members of an ecclesiastical communion that for a brief moment formed the majority church in Roman North Africa modern Tunisia Algeria and Libya before fading away sometime between the fifth and seventh centuries Hoover studies how Donatists perceived the end of the world to offer a glimpse into the inner life of the dissident communion what it valued whom it feared and how it defined its place in history while on the cusp of history's end By recovering these appeals to apocalyptic themes in surviving Donatist writings this study uncovers a significant element within the dissident movement's self-perception that has so far gone unexamined In contrast to previous assessments it argues that such eschatological expectations are not out of sync with the wider world of Latin Christianity in late antiquity and that they functioned as an effective polemical strategy designed to counter their opponents' claim to be the true church in North Africa **Augustine on Memory** Kevin G. Grove, 2021-09-28

Augustine of Hippo indisputably one of the most important figures for the study of memory is credited with establishing memory as the inner source of selfhood and locus of the search for God Yet those who study memory in Augustine have never before taken into account his preaching His sermons are the sources of memory's greatest development for Augustine In Augustine's preaching especially on the Psalms the interior gives way to communal exterior Both the self and search for God are re-established in shared identity and the communal labor of remembering and forgetting Augustine on Memory presents this new paradigm not only for Augustinian studies but also for theologians philosophers ethicists and interdisciplinary scholars of memory *Géographie linguistique et biologie du langage: Autour de Jules Gilliéron* Elizabeth A.

Livingstone, 1993 Papers presented at the Eleventh International Conference on Patristic Studies held in Oxford 1991 see also *Studia Patristica* 24 25 26 and 28 The successive sets of *Studia Patristica* contain papers delivered at the International Conferences on Patristic Studies which meet for a week once every four years in Oxford they are held under the aegis of the Theology Faculty of the University Members of these conferences come from all over the world and most offer papers These

range over the whole field both East and West from the second century to a section on the *Nachleben* of the Fathers The majority are short papers dealing with some small and manageable point they raise and sometimes resolve questions about the authenticity of documents dates of events and such like and some unveil new texts The smaller number of longer papers put such matters into context and indicate wider trends The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject

***Recruiting the Ancients for the Creation Debate*** Andrew J. Brown, 2023-10-05 A careful and unbiased analysis of how thinkers from church history interpreted the creation narrative in Genesis How literally are we meant to take the creation week of Genesis 1 In this polarizing debate contemporary interpreters invoke great theologians from history to support their own side whether that be a young Earth theistic evolution or any other view The problem lies in trying to force ancient authors into contemporary boxes as Andrew J Brown shows in this thought provoking volume Covering Philo Basil Augustine Thomas Aquinas Martin Luther John Calvin John Wesley and more Brown carefully interprets great thinkers readings of Genesis 1 in their intellectual contexts He then assesses how these authors have been subject to cherry picking and misappropriation in the trenches of the modern creation debate By studying the intellectual history of the church in this way to revisit rather than recruit the ancients we can enrich our own biblical interpretation Irenic and magisterial Brown's guide will interest both scholars of historical theology and anyone invested in the creation debate
