Michael D. Oblath, 2004 The Israelite exodus from Egypt forms the foundational national origin narrative in the Hebrew Bible Although it is a compelling and popular tale only minimal supportive circumstantial evidence exists beyond the Bible In this book Michael D Oblath details the geographical context within which the Hebrew Bible was written With this backdrop he presents the geographical conceptualization of the exodus as described by the biblical sources Within their references to the various exodus itinerary sites these sources consistently locate the sites in proximity to known geographical locations Oblath indicates that within the geographical memory of the biblical sources the presupposition of an exodus from Egypt is incorrect Rather the narrative describes events originating in the southern region of ancient Israel between the Negeb and the Gulf of Elath

**Glory, Grace, and Truth** Alexander Tsutserov, 2009-02-24 In *Glory Grace and Truth* Alexander Tsutserov argues that three concepts of the revelation of God as Jesus are unfolded throughout the Gospel of John in terms of a ratification of the covenant of the presence of God The covenantal aspects of glory confirming the presence of God are evident in Jesus the visible appearance of God the intrinsic character of God the miraculous splendor of God in Jesus's incomparable signs deeds wonders and marvelous acts and the divine honor of God in the Son glorified by the Father Grace upon grace alludes to the requests to confirm the presence of God All believers gained the grace of the presence of God in Jesus rather than Moses alone encountering the grace of the presence at Sinai The Gospel of John depicts ratification of the covenant of the presence of God in Jesus according with the covenantal articles Grace and truth alludes to Exodus 34:6 Each allusion in John depicts the full graciousness and integrity of God's character The Son possesses and bestows the Father's character onto believers by means of the Holy Spirit who is full of grace and truth The divine character and the divine Law complement each other in believers thus fulfilling the Scripture In essence the revelations of God at Sinai and in Jesus are the same In quality the latter surpasses the former in all three aspects glory grace and truth

This book explores the story of the Israelites' worship of the Golden Calf in its Jewish, Christian, and Muslim contexts from ancient Israel to the emergence of Islam. It focuses in particular on the Qur'an's presentation of the narrative and its background in Jewish and Christian retellings of the episode from Late Antiquity. Across the centuries, the interpretation of the Calf episode underwent major changes reflecting the varying cultural, religious, and ideological contexts in which various communities used the story to legitimate their own tradition, challenge the claims of others, and delineate the boundaries between self and other. The book contributes to the ongoing reevaluation of the relationship between Bible and Qur'an, arguing for the necessity of understanding the Qur'an and Islamic interpretations of the history and narratives of ancient Israel as part of the broader biblical tradition. The Calf narrative in the Qur'an is central to the Qur'anic conception of the legacy of Israel and the status of the Jews of its own time. It reflects a profound engagement with the biblical account in Exodus as well as being informed by exegetical and parascriptural traditions in circulation in the Qur'an's milieu in Late Antiquity. The book also addresses the issue of Western approaches to the Qur'an, arguing that the historical reliance of scholars and translators on classical Muslim exegesis of scripture has led to misleading conclusions about the meaning of Qur'anic episodes.

Deuteronomy and the Hermeneutics of Legal Innovation Bernard M. Levinson, 2002. Positioned at the boundary of traditional biblical studies, legal history, and literary theory, *Deuteronomy and the Hermeneutics of Legal Innovation* shows how the legislation of Deuteronomy reflects the struggle of its authors to renew late seventh-century Judean society. Seeking to defend their revolutionary vision during the Neo-Assyrian crisis, the reformers turned to earlier laws even when they disagreed with them and revised them in such a way as to lend authority to their new understanding of God's will. Passages that other scholars have long viewed as redundant, contradictory, or displaced actually reflect the attempt by Deuteronomy's authors to sanction their new religious aims before the legacy of the past. Drawing on ancient Near Eastern law and informed by the rich insights of classical and medieval Jewish commentary, Levinson provides an extended study of three key passages in the legal corpus: the unprecedented requirement for the centralization of worship, the law transforming the old Passover into a pilgrimage festival, and the unit replacing traditional village justice with a professionalized judiciary. He demonstrates the profound impact of centralization upon the structure and arrangement of the legal corpus while providing a theoretical analysis of religious change and cultural renewal in ancient Israel. The book's conclusion shows how the techniques of authorship developed in Deuteronomy provided a model for later Israelite and post-biblical literature. Integrating the most recent European research on the redaction of Deuteronomy with current American and Israeli scholarship, Levinson argues

that biblical interpretation must attend to both the diachronic and the synchronic dimensions of the text His study which provides a new perspective on intertextuality the history of authorship and techniques of legal innovation in the ancient world will engage pentateuchal critics and historians of Israelite religion while reaching out toward current issues in literary theory and Critical Legal Studies
