debate about American grand strategy and the costs and benefits of American empire Layne urges the desirability of a strategy he calls offshore balancing rather than wield power to dominate other states the U S government should engage in diplomacy to balance large states against one another The United States should intervene Layne asserts only when another state threatens regionally or locally to destroy the established balance Drawing on extensive archival research Layne traces the form and aims of U S foreign policy since 1940 examining alternatives foregone and identifying the strategic aims of different administrations His offshore balancing notion if put into practice with the goal of extending the American Century would be a sea change in current strategy Layne has much to say about present day governmental decision making which he examines from the perspectives of both international relations theory and American diplomatic history Historical Dictionary of U.S. Diplomacy from World War I through World War II Martin Folly,Niall Palmer,2010-04-01 The period from the outset of World War I to the end of World War II was among the most significant in the history of the United States Twice it was drawn into foreign entanglements wars it initially thought were no concern of its own and of which it tried to steer clear only to realize that it could not stand aside With each one it geared up in record time entered the fray massively and was crucial to the outcome Each war tested the American people and their leaders and in each case the country came out of the conflagration stronger than before and even more important yet stronger relative to other countries than it had ever been This was the period when the United States became a world leader The Historical Dictionary of U S Diplomacy from World War I through World War II relates the events of this crucial period in U S history through a chronology an introductory essay and over 600 cross referenced dictionary entries on key persons places events institutions and organizations
