The Origins And Properties Of The Human Aura:

The Origin and Properties of the Human Aura Oscar Bagnall,1975 Both scientific and occult groups are investigating the aura which has been described as a radiation or emanation surrounding the physical body Interest in this phenomenon has grown tremendously since Dr Walter J Kilner first published the results of his scientific investigations over sixty three years ago in the Human Atmosphere Kilner found a worthy successor in Oscar Bagnall who devoted his own life s worth to continuing this research into the Origin and Properties of the Human Aura He provides a detailed description of the properties of the aura and produces experimental evidence to support his claim to have discovered the particular tissues from which the component parts of the aura have their origin The effects of disease on the inside aura and of nervous and sexual disorders on the outer haze beyond it are described and the question of heredity is discussed Instructions are given for the preparation of screens through which it is possible to see the aura together with a clear account of the physical problems in connection with it such as wave length etc **The Origin and Properties of the Human Aura ... The Sacred Network Chris H. Hardy,2011-02-23 How sacred sites amplify the energies of consciousness the earth and the universe Examines the web of geometrical patterns linking sacred sites worldwide with special focus on the sacred network of ley lines in Paris Unveils the coming state of shared consciousness for humanity fueled by the sacred network Reveals how consciousness is a tangible form of energy First marked by the standing stones of our megalithic ancestors the world s sacred sites are not only places of spiritual energy but also hubs of cosmic energy and earthly energy Generation upon generation has recognized the power of these sites with the result that each dominant culture builds their religious structures on the same spots the Cathedral of Notre Dame in Paris for example was constructed over a Temple to Diana that in turn had been built over a stone pillar worshipped by the Gauls In The Sacred Network Chris Hardy shows how the world s sacred sites coincide with the intersections of energetic waves from the earth s geomagnetic field and how via their megaliths temples and steeples these sites act as antennae for the energies of the cosmos Delving deeply in to Paris s sacred network she also explores the intricate geometrical patterns created by the alignments of churches and monuments such as pentagrams and Stars of David Revealing that consciousness is a tangible energy she explains how the sacred network is fueling an 8 000 year evolutionary cycle initiated by our megalithic ancestors that will soon culminate in a new state of shared consciousness for humanity
