The Other European Community:

The Nordic Countries and the European Union Anders Wivel, Caroline Howard Grøn, Peter Nedergaard, 2016-10-05 In European policy making the Nordic countries are often viewed as a relatively coherent bloc in international and European affairs the Nordic position has traditionally been conditioned on being different from and better than Europe This book offers a coherent original and systematic comparative analysis of the relationship between the Nordic countries and the European Union over the past two decades It looks at the historical frame institutions and policy areas addressing both traditional EU areas such as agriculture and more nascent areas affecting the domestic and foreign policies of the Nordic countries In doing so it examines how the Nordic approach to European policy making has developed and explains why the Nordic countries are similar in some respects while differing in others when engaging with EU institutions In highlighting the similarities and differences between the Nordic countries it explores what lessons positive and negative may be drawn from this approach for the Nordic countries and other small states This book will be of interest to scholars students and practitioners engaged with the Nordic Countries EU politics and policy making European politics and comparative politics

Britain and European Community Miriam Camps, 2015-12-08 The author surveys the negotiations between Britain and the European Economic Community analyzing official and public attitudes toward the British accession and the influence of public opinion throughout the negotiations She carefully examines the British search for entry the development of the Community and the member nations discussions on political union Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Integration of the European Community and Third States in Europe Andrew Evans, 1996 This book examines the legal frameworks for integration provided by the EC Treaty the Free Trade Agreement between Sweden and the EC concluded in 1972 the European Agreement between Poland and the Community and the European Economic Areas EEA The book not only compares the operation of four types of legal framework for integration but also with the assistance of comparisons explores underlying problems in the integration of the European Community and Third States in Europe In the case of many countries of the former Soviet Union notably Russia membership of the Union does not appear to offer a feasible basis for their participation in the European integration process and so the construction of a mutually acceptable legal framework for close relations between such countries and the Community arguably constitutes one of the most serious and pressing problems to be tackled by Union Integration Law The book is written for teachers and students of advanced courses in EU Law as well as for policy makers officials and practitioners in the private sector whose work concerns relations between the

Community and Third states American Interest in the European Community United States. Congress. House. Foreign Affairs Committee,1974 **The History and Politics of Free Movement within the European Union** Salla

Heinikoski,2020-11-26 The right to free movement is the one privilege that EU citizens value the most in the Union but one that has also created much political controversy in recent years as the debates preceding the 2016 Brexit referendum aptly illustrate This book examines how European politicians have justified and criticized free movement from the commencement of the first Commission of the EU 25 in November 2004 to the Brexit referendum in June 2016 The analysis takes into account the discourses of Heads of State Governments and Ministers of the Interior or Home Secretaries of six major European states the UK Germany France Italy Spain and Romania In addition to these national leaders the speeches of European Commissioners responsible for free movement matters are also considered The book introduces a new conceptual framework for analysing practical reasoning in political discourses and applies it in the analysis of national free movement debates contextualised in respective migration histories In addition to results related to political discourses the study unearths wider problems related to free movement including the diversified and variegated approaches towards different groups of movers as well as the exclusive attitudes apparent in both discourses and policies The History and Politics of Free Movement within the European Union is of interest to anyone studying national and European politics and ideologies contemporary history migration policies and political argumentation *National Parliaments and the European Union* Philip Norton,2012-12-06 This guide is intended for busy legal practitioners and all other professionals who are involved in the criminal justice system and who require quick reference to the provisions of the 1994 Act **The Ecumenical Movement**

& the Making of the European Community Lucian Leustean,2014-07-31 The European Community has largely been considered a predominantly secular project bringing together the economic and political realms while failing to mobilise the public voice and imagination of churchmen and the faithful Drawing on a wide range of archival sources this is the first study to assess the political history of religious dialogue in the European Community It challenges the widespread perception that churches started to engage with European institutions only after the 1979 elections to the European Parliament by detailing close relations between churchmen and high ranking officials in European institutions immediately after the 1950 Schuman Declaration Lucian N Leustean demonstrates that Cold War divisions between East and West and the very nature of the ecumenical movement had a direct impact on the ways in which churches approached the European Community He brings to light events and issues which have not previously been examined such as the response of churches to the Schuman Plan and the political mobilisation of church representations in Brussels Strasbourg and Luxembourg Leustean argues that the concept of a united Europe has been impeded by competing national differences between religious and political institutions having a long standing legacy on the making of a fragmented European Community **The European Union Since 1945**

Alasdair Blair,2014-05-12 The European Union faces a crossroads in the twenty first century While there is evidence of

declining enthusiasm for European integration the EU plays an increasingly vital role in tackling problems that can no longer be dealt with at member state level In recent years the EU has developed a stronger foreign security and defence policy and has had to face up to the challenges of tackling organised crime human trafficking and drug smuggling In this fully updated new edition Alasdair Blair examines the economic political social and personal factors that have shaped the process of European integration from the end of the Second World War until the Lisbon Treaty in 2009 Written in a clear and jargon free style the book explores The context of European integration and expansion The relations between the European Union and its member states The institutional evolution of the European Union Methods of decision making Key policies of the European Union The future direction of the European Union Comprehensive and accessible this book is an essential guide to understanding the relevance of the European Union in the twenty first century **Proposed European Community**

Internal Tax on the Consumption of All Fats and Oils Except Butter United States. Congress. House. Committee on Agriculture. Subcommittee on Wheat, Soybeans, and Feed Grains,1984 *Sporting Nationality in the Context of European Union Law* Jan Exner,2019-01-29 This book strikes a balance between international sporting governing bodies interests and values enshrined in rules regarding sporting nationality on one hand and athletes rights under EU law on the other It argues that some rules governing athletes eligibility in national teams in their current form notably certain waiting periods quotas for naturalised athletes or athletes having previously played for another country and rules prohibiting the change of sporting nationality constitute a disproportionate restriction on athletes rights under EU citizenship free movement of persons competition law or fundamental rights Accordingly the book subsequently presents concrete recommendations for international sporting governing bodies on how to reconcile their interests and values with the rights that athletes enjoy under EU law As such it offers an essential guide for these bodies and their representatives as well as for athletes academics and practitioners in the fields of law and sports
