**The Other Hong Kong Report 1997** Joseph Y. S. Cheng, 1997 A Localized Culture of Welfare

Kwok-shing Chan, 2012-10-25 Hong Kong has undergone rapid and substantial social economic political and demographic changes since the 1970s This book examines critically the real impact of these changes on a single surname village in rural Hong Kong It draws on anthropological fieldwork conducted during the late 1990s and the early 2000s This ethnographic study demonstrates that kinship particularly agnatic kinship has remained a valuable resource for Pang villagers enabling them to acquire key welfare entitlements and to secure a good measure of economic and social well being Kinship affiliation has provided and still provides admittedly differential access to political patronage and legal entitlements financial assistance and the substantial benefits of corporate property holding physical protection and political leadership employment care giving and support networks housing needs old age security a ritually imagined community with a sense of spiritual well being Agnatic kinship has been organized as a corporate institution and as a quasi religious community through which substantial support protection and privileged access is provided for villagers At the same time reliance on this elaborate localized culture of welfare has maintained or reinforced the contours of stratification and inequality among Pang villagers even as lineage identity has remained largely intact in the face of changing external circumstances

**Contingent States** William A. Callahan, 2004 In the 1990s Greater China became the subject of debate as the site of either the danger of the China threat or the promise of Confucian capitalism William A Callahan argues that Greater China presents challenges not only to economic and political order but also to international relations theory In fact Greater China though absent from geopolitical maps and international law is very much present in economic and cultural exchange and exemplifies the contingent state of international politics Callahan deconstructs the mainstream geopolitical and political economic understandings of Greater China tracing its emergence through an ethnographic analysis of four political problems in East Asia the South China Sea disputes Sino Korean relations the return of Hong Kong and cross straits relations Callahan shows how bureaucrats outlaws tycoons

academics workers politicians and hooligans alike produce Greater China through networks of relations in local national regional global and transnational space Finally Contingent States reveals how each of the problems provoked theoretical innovations that depart from standard conceptions of sovereignty democracy and the nation state William A Callahan is senior lecturer of international politics and deputy director of the Center for Contemporary Chinese Studies at the University of Durham England and the author of Imagining Democracy Reading The Events of May in Thailand and Pollwatching Elections and Civil Society in Southeast Asia **Hong Kong's Transition to Chinese Rule** Ralf Horlemann,2003-09-02 Examining developments following Hong Kong's return to Chinese sovereignty this book argues that genuine autonomy from the central government in Beijing is impossible without a democratic system in Hong Kong Corruption Prevention and Governance in Hong Kong Ian Scott,Ting Gong,2018-12-07 This book analyses central questions in the continuing debate about success factors in corruption prevention and the efficacy and value of anti corruption agencies ACAs How do ACAs become valued within a polity What challenges must they overcome What conditions account for their success and failure What contributions can corruption prevention make to good governance And in what areas might they have little or no effect on the quality of governance With these questions in mind the authors examine the experience of Hong Kong's Independent Commission Against Corruption ICAC widely regarded as one of the few successful examples of an ACA The book is grounded in an analysis of ICAC documents and surveys the authors survey of social attitudes towards corruption in Hong Kong and interviews with former officials *Censorship* Derek Jones,2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression

Colonialism and Welfare James Midgley,David Piachaud,2011-01-01 The British Empire is part covered three centuries five continents and onequarter of the world's population Its legacy continues shaping the societies and welfare policies of much of the modern world In this book for the first time this legacy is explored and analysed Colonialism and Welfare reveals that social welfare policies often discriminatory and challenging to those colonised were introduced and imposed by the mother country It highlights that there was great diversity in rationales and impacts across the empire but past developments had a major impact on the development of much of the world's population Contributions from every continent explore both the diversity and the common themes in the imperial experience They examine the legacy of colonial welfare a subject largely neglected by both historians of empire and social policy analysts This original book shows that social welfare

today cannot be understood without understanding the legacy of the British Empire Academics specialised students with an interest in comparative social policy history of social policy imperial history colonialism and contemporary third world social policy will find this book invaluable to their studies      **Labour Migration and the Recent Financial Crisis in Asia**

OECD,2000-01-20 This series of reports identifies the impact of the Asian financial crisis on labour migration and the conditions of migrant workers in the region      Health Insurance Reforms in Asia Sabrina Ching Yuen Luk,2014-03-26 This book empirically examines health care financing reforms and popular responses in three major cities in East Asia Shanghai Singapore and Hong Kong It adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades It also examines forces that propel institutional change The book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them It shows that health care systems in Shanghai Singapore and Hong Kong were the products of Western presence in the nineteenth century It illustrates how greater attention is paid to the roles played by ideas actors and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms It shows that health care financing reform is shaped by a complex interplay of forces over time It also provides the most updated material about health care financing reforms in Shanghai Singapore and Hong Kong The central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process revealing an intricate interplay of power relationships and diverse interests It shows that institutional changes in health care financing system can be incremental but transformative in nature It argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs This book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change      *China's Geography* Gregory Veeck,Clifton W.
