The Old Country Store Revised:

Old Country Stores of New Hampshire Bruce D. Heald, 2013-04-09 Often hidden on the back roads and byways of the Granite State country stores are an essential and beloved part of the state's character. Developed from trading posts as travelers settled throughout the state, they are recognizable for their vast array of merchandise and a fragrant blend of tobacco, spices, and coffee. The country store became the center of the community where residents could play checkers, mail letters, attend town meetings, and shop. They are still fixtures in many towns today, including the Brick Country Store in Bath, considered to be the oldest in the United States, dating back to 1790. Fadden's General Store and Sugarhouse in North Woodstock, which produces award-winning maple syrup, and the Old Country Store in Moultonborough, which had its beginnings as a tavern. Historian Bruce D. Heald, PhD, chronicles New Hampshire's historic country stores and the keepers behind these unique local landmarks.

New England's General Stores Ted Reinstein, 2017-10-13 Explore the fabric of America over hot coffee and penny candy. Step through the wooden doors of a New England general store and step back in time into a Norman Rockwell painting and into the heart of America. New England's General Stores offers a nostalgic picture of this colonial staple and fortunately steadfast institution of small towns from Connecticut to Maine. This is where children of each generation take their first allowance to buy their very own penny candy. Locals have swapped stories at these counters from gossip to whispers of revolution. In tough times, the general store treated customers like family, extending credit when no one else would. Stubborn as New Englanders themselves, the general store has refused to become a mere sentimental relic of an earlier age.

White, 2014-09-10 This volume reports in detail how a particular portion of the American wilderness developed into a settled farming community To fully comprehend the history of the American people in the early national period an understanding of

this transformation from forest to community and the pattern of life within such communities where the vast majority of the people live is essential Three major conclusions emerge from Philip L White s study of Beekmantown New York First the economic advantages of the frontier attracted a first generation of settlers relatively high in social and economic status but the disappearance of frontier conditions brought a second generation of settlers appreciably lower in status Second White rejects the romantic notion that the frontier fostered equality and argues instead that the frontier s economic opportunities fostered inequality Finally in contrast to revisionist arguments he affirms that in Beekmantown the Jacksonian period does indeed warrant characterization as the era of the common man This book represents a model in community history the narrative is full of human interest the scholarship is prodigious the applications are universal *A New Nation of Goods* David Jaffee,2010 *A New Nation of Goods* highlights the significant role of provincial artisans in four crafts in the northeastern United States chairmaking clockmaking portrait painting and book publishing to explain the shift from preindustrial society to an entirely new configuration of work commodities and culture *Making Whiteness* Grace Elizabeth Hale,2010-08-25 *Making Whiteness* is a profoundly important work that explains how and why whiteness came to be such a crucial embattled and distorting component of twentieth century American identity In intricately textured detail and with passionately mastered analysis Grace Elizabeth Hale shows how when faced with the active citizenship of their ex slaves after the Civil War white southerners re established their dominance through a cultural system based on violence and physical separation And in a bold and transformative analysis of the meaning of segregation for the nation as a whole she explains how white southerners creation of modern whiteness was beginning in the 1920s taken up by the rest of the nation as a way of enforcing a new social hierarchy while at the same time creating the illusion of a national egalitarian consumerist democracy By showing the very recent historical making of contemporary American whiteness and by examining how the culture of segregation in all its murderous contradictions was lived Hale makes it possible to imagine a future outside it Her vision holds out the difficult promise of a truly democratic American identity whose possibilities are no longer limited and disfigured by race **Bicycling Southern New Hampshire** Linda Chestney,2000-07 This updated and expanded second edition of this book offers the best cycling routes in southern New Hampshire **The Old Merchants of New York City** Joseph Alfred Scoville,1870 **The New Encyclopedia of Southern Culture** Melissa Walker,James C. Cobb,Charles Reagan Wilson,2014-02-01 Volume 11 of *The New Encyclopedia of Southern Culture* examines the economic culture of the South by pairing two categories that account for the ways many southerners have made their living In the antebellum period the wealth of southern whites came largely from agriculture that relied on the forced labor of enslaved blacks After Reconstruction the South became attractive to new industries lured by the region s ongoing commitment to low wage labor and management friendly economic policies Throughout the volume articles reflect the breadth and variety of southern life paying particular attention to the region s profound economic transformation in recent decades The agricultural section

consists of 25 thematic entries that explore issues such as Native American agricultural practices plantations and sustainable agriculture Thirty eight shorter pieces cover key crops of the region from tobacco to Christmas trees as well as issues of historic and emerging interest from insects and insecticides to migrant labor The section on industry and commerce contains 13 thematic entries in which contributors address topics such as the economic impact of military bases resistance to industrialization and black business Thirty six topical entries explore particular industries such as textiles timber automobiles and banking as well as individuals including Henry W Grady and Sam M Walton whose ideas and enterprises have helped shape the modern South
