The Old Man And The Astronauts:

Chenoo Joseph Bruchac, 2016-04-21 Jacob Neptune a wise cracking two fisted Penacook private investigator with a checkered past lives in upstate New York four hundred miles from his tribal community on Abenaki Island Then one night the phone rings We got trouble Neptune s cousin Dennis says from the other end And trouble is where it all starts in this brilliant often hilarious novel by acclaimed Abenaki storyteller Joseph Bruchac Attacked by bikers before he can even board his plane Neptune Podjo to his friends quickly begins to realize just how much trouble surrounds his people s ancestral home Guided by his sense of duty to his homeland he agrees to help protect Dennis and other Penacooks as they stage a takeover of a state campground on land that should have reverted to their tribe But encroaching developers government operators and even fellow Penacooks eager to build a casino each pose a threat to the Abenaki lands and all have reasons to want Neptune out of the picture Podjo greets each challenge with self deprecating humor but it s difficult to shake his increasingly disturbing dreams and an unsettled feeling when his return leads to a reunion with a long ago love interest As he and Dennis contend with hired guns police and security a far greater threat appears someone or something is brutally killing people in the woods It will take all of Neptune s skills as a martial artist and the wisdom gained from tribal elders to battle the forces that threaten the sacred land and his and his people s lives Bruchac ratchets the tension from the first page to the last in this detective novel that pairs comedy and action with serious consideration of corporate greed environmental destruction cultural erosion and other modern day issues pressing Native peoples

Environmentalism in Popular Culture Noël Sturgeon, 2022-04-12 In this thoughtful and highly readable book No 1 Sturgeon illustrates the myriad and insidious ways in which American popular culture depicts social inequities as natural and how our images of nature interfere with creating solutions to environmental problems that are just and fair for all Why is it she wonders that environmentalist messages in popular culture so often naturalize themes of heroic male violence suburban nuclear family structures and U S dominance in the world And what do these patterns of thought mean for how we envision environmental solutions like green businesses recycling programs and the protection of threatened species Although there are other books that examine questions of culture and environment this is the first book to employ a global feminist environmental justice analysis to focus on how racial inequality gendered patterns of work and heteronormative ideas about the family relate to environmental questions Beginning in the late 1980s and moving to the present day Sturgeon unpacks a variety of cultural tropes including ideas about Mother Nature the purity of the natural and the allegedly close relationships of indigenous people with the natural world She investigates the persistence of the myth of the frontier and its extension to the frontier of space exploration She ponders the popularity and occasional controversy of penguins and penguin family values and questions assumptions about human warfare as natural The book is intended to provoke debates among college students and graduate students among their professors among environmental activists and among all citizens who are concerned with issues of environmental quality and social equality
