**Volume I-The Old Pagan Civilizations** John Lord,2012-11-27 From the Author s Preface It has been my object in these Lectures to give the substance of accepted knowledge pertaining to the leading events and characters of history and in treating such a variety of subjects extending over a period of more than six thousand years each of which might fill a volume I have sought to present what is true rather than what is new Although most of these Lectures have been delivered in some form during the last forty years in most of the cities and in many of the literary institutions of this country I have carefully revised them within the last few years in order to avail myself of the latest light shed on the topics and times of which they treat The revived and wide spread attention given to the study of the Bible under the stimulus of recent Oriental travels and investigations not only as a volume of religious guidance but as an authentic record of most interesting and important events has encouraged me to include a series of Lectures on some of the remarkable men identified with Jewish history Of course I have not aimed at an exhaustive criticism in these Biblical studies since the topics cannot be exhausted even by the most learned scholars but I have sought to interest intelligent Christians by a continuous narrative interweaving with it the latest accessible knowledge bearing on the main subjects If I have persisted in adhering to the truths that have been generally accepted for nearly two thousand years I have not disregarded the light which has been recently shed on important points by the great critics of the progressive schools I have not aimed to be exhaustive or to give minute criticism on comparatively unimportant points but the passions and interests which have agitated nations the ideas which great men have declared and the institutions which have grown out of them have not I trust been uncandidly described nor deductions from them illogically made
