Critique of Forms of Life Rahel Jaeggi, 2018-12-28 For many liberals the question Do others live rightly feels inappropriate Liberalism seems to demand a follow up question Who am I to judge Peaceful coexistence in this view is predicated on restraint from morally evaluating our peers But Rahel Jaeggi sees the situation differently Criticizing is not only valid but also useful she argues Moral judgment is no error the error lies in how we go about judging One way to judge is external based on universal standards derived from ideas about God or human nature The other is internal relying on standards peculiar to a given society Both approaches have serious flaws and detractors In Critique of Forms of Life Jaeggi offers a third way which she calls immanent critique Inspired by Hegelian social philosophy and engaged with Anglo American theorists such as John Dewey Michael Walzer and Alasdair MacIntyre immanent critique begins with the recognition that ways of life are inherently normative because they assert their own goodness and rightness They also have a consistent purpose to solve basic social problems and advance social goods most of which are common across cultures Jaeggi argues that we can judge the validity of a society's moral claims by evaluating how well the society adapts to crisis whether it is able to overcome contradictions that arise from within and continue to fulfill its purpose Jaeggi enlivens her ideas through concrete contemporary examples Against both relativistic and absolutist accounts she shows that rational social critique is possible

Charles Gray Shaw,1919 Race, Time, and Utopia William M. Paris,2024 Racial injustice at its core is the domination of time Utopia has been one response to this domination The racially dominated are not free to define what counts as progress they are not free from the accumulation of past injustices and most importantly they are not free from the arbitrary organization of work in capitalist labor markets Racially unjust societies are forms of life where the justifications for how to organize time around life labor and leisure are out of the hands of the dominated In Race Time and Utopia William Paris provides a theoretical account of utopia as the critical analysis of the sources of time domination and the struggle to create emancipatory forms of life Rather than focusing on inclusion and equality before the law as found in liberal theories of racial injustice Paris analyses the neglected utopian tradition of justice in black political thought that insists justice can only be secured through the transformation of society as a whole This transformation is nothing less than the democratic transformation of how organize and narrate our shared time Bringing into conversation the work W E B Du Bois Martin Delany Marcus Garvey Frantz Fanon and James Boggs with the critical theory of Karl Marx Ernst Bloch Rahel Jaeggi and Rainer Forst Paris reconstructs a social theory and normative account of forms of life as the struggle over how time will be organized asking Can there be freedom without a new order of time **Well-being In Later Life** Linda J. Garcia,Louise Bélanger-Hardy,Jeffrey W. Jutai,Maria Łuszczynska,2022-12-30 Advancing the notion of connected autonomy and highlighting the importance of interdisciplinary research in the development of this novel concept this volume explores the possibility of maintaining the freedom to make one s own decisions in later life while also remaining connected to others as well as to things services places and events Through a series of case studies the book examines the importance of preserving self determination as health environmental and social circumstances render autonomy more difficult showing that innovations in social interaction and technology have the capacity to enhance older persons connectedness to their environment while at the same time offering opportunities for self governance As such it will appeal to scholars across the social sciences with interests in ageing and the life course the sociology of science and technology and research methods
