The Art of the Hekatompedon Inscription and the Birth of the Stoichedon Style Patricia A. Butz, 2010-07-26 The purpose of this book is to present the Hekatompedon Inscription at Athens IG I3 4 as a major monument of Greek art legitimately on a par with more famous landmarks of the Greek aesthetic tradition like the Parthenon Frieze Inscribed most probably in the middle of the decade that saw the Greek response to the Persian invasion the Hekatompedon Inscription has long been recognized for its historical and religious importance This study looks at the inscription on its own terms the unique fusion of its visual and textual content in that most Greek of epigraphical layouts the stoichedon style Such an approach leads to the question of origins where and why was the stoichedon style formulated and where does the Hekatompedon Inscription stand in that development Egypt's influential system of proportions and use of grids will be considered determinative for the very first time

The Legibility of Serif and Sans Serif Typefaces John T. E. Richardson, 2022-02-15 This open access book provides a detailed and up to date account of the relevant literature on the legibility of different kinds of typefaces which goes back over 140 years in the case of reading from paper and more than 50 years in the case of reading from screens It describes the origins of serif and sans serif styles in ancient inscriptions their adoption in modern printing techniques and their legibility in different situations and in different populations of readers It also examines recent research on the legibility of serif and sans serif typefaces when used with internet browsers smartphones and other hand held devices The book investigates the difference in the legibility of serif typefaces and sans serif typefaces when they are used to produce printed material or when they are used to present material on computer monitors or other screens and it explores the differences in readers preferences among typefaces The book's main focus is on the psychology of reading but there are clear implications for education and publishing Indeed the book can be read with benefit by anyone concerned with communicating with others through written text whether

it is printed on paper or displayed on computer screens **The Typographic Medium** Kate Brideau, 2021-10-19 An innovative examination of typography as a medium of communication rather than part of print or digital media Typography is everywhere and yet widely unnoticed When we read type we fail to see type In this book Kate Brideau considers typography not as part of print media or digital media but as a medium of communication itself able to transcend the life and death of particular technologies Examining the contradiction between typographic form often overlooked and function often overpowering Brideau argues that typography is made up not of letters but of shapes and that shape is existentially and technologically central to the typographic medium After considering what constitutes typographic form Brideau turns to typographic function and how it relates to form Examining typography's role in both the neurological and psychological aspects of reading she argues that typography's functions exceed reading typographic forms communicate but that communication is not limited to the content they carry To understand to what extent the design and operations of the typographic medium affect the way we perceive information Brideau warns we must understand the medium's own operational logic embodied in the full diversity of typographic forms Brideau discusses a range of topics from intellectual property protection for typefaces to Renaissance and Enlightenment ideal letterforms and draws on a wide variety of theoretical work including phenomenological ideas about comprehension German media archaeology and the media and communication theories of Vilém Flusser and others Hand drawn illustrations of typographic forms accompany the text

The Golden Thread Ewan Clayton, 2015-01-20 From the simple representative shapes used to record transactions of goods and services in ancient Mesopotamia to the sophisticated typographical resources available to the twenty first century users of desktop computers the story of writing is the story of human civilization itself Calligraphy expert Ewan Clayton traces the history of an invention which ever since our ancestors made the transition from a nomadic to an agrarian way of life in the eighth century BC has been the method of codification and dissemination of ideas in every field of human endeavour and a motor of cultural scientific and political progress He explores the social and cultural impact of among other stages the invention of the alphabet the replacement of the papyrus scroll with the codex in the late Roman period the perfecting of printing using moveable type in the fifteenth century and the ensuing spread of literacy the industrialization of printing during the Industrial Revolution the impact of artistic Modernism on the written word in the early twentieth century and of the digital switchover at the century's close The Golden Thread also raises issues of urgent interest for a society living in an era of unprecedented change to the tools and technologies of written communication Chief among these is the fundamental question What does it mean to be literate in the early twenty first century The book belongs on the bookshelves of anyone who is inquisitive not just about the centrality of writing in the history of humanity but also about its future it is sure to appeal to lovers of language books and cultural history **The Language of the English Street Sign** Vivian Cook, 2022-03-21 This book opens readers eyes to something they see all the time but take for granted street signs It is a

portrait of the signs on modern English streets what they look like who and what they are for how they link to English history and how they form part of life in multilingual England today It describes how their shapes materials letters vocabulary and grammar differ from other forms of written English using a framework based on linguistics typography and writing systems research It provides readable and entertaining insights into an important use of written English illustrated with over 400 examples of street signs The book represents a starting point for the study of street signs as an academic area in its own right

Comparative Textual Media N. Katherine Hayles, Jessica Pressman, 2013-12-01 For the past few hundred years Western cultures have relied on print When writing was accomplished by a quill pen inkpot and paper it was easy to imagine that writing was nothing more than a means by which writers could transfer their thoughts to readers The proliferation of technical media in the latter half of the twentieth century has revealed that the relationship between writer and reader is not so simple From telegraphs and typewriters to wire recorders and a sweeping array of digital computing devices the complexities of communications technology have made mediality a central concern of the twenty first century Despite the attention given to the development of the media landscape relatively little is being done in our academic institutions to adjust In *Comparative Textual Media* editors N Katherine Hayles and Jessica Pressman bring together an impressive range of essays from leading scholars to address the issue among them Matthew Kirschenbaum on archiving in the digital era Patricia Crain on the connection between a child's formation of self and the possession of a book and Mark Marino exploring how to read a digital text not for content but for traces of its underlying

code Primarily arguing for seeing print as a medium along with the scroll electronic literature and computer games this volume examines the potential transformations if academic departments embraced a media framework Ultimately Comparative Textual Media offers new insights that allow us to understand more deeply the implications of the choices we and our institutions are making Contributors Stephanie Boluk Vassar College Jessica Brantley Yale U Patricia Crain NYU Adriana de Souza e Silva North Carolina State U Johanna Drucker UCLA Thomas Fulton Rutgers U Lisa Gitelman New York U William A Johnson Duke U Matthew G Kirschenbaum U of Maryland Patrick LeMieux Mark C Marino U of Southern California Rita Raley U of California Santa Barbara John David Zuern U of Hawai i at M noa *The Dictionary of the Book* Sidney E. Measured Words Arielle Saiber, 2017-11-29 *Measured Words* explores the rich commerce between computation and writing that proliferated in fifteenth and sixteenth century Italy In this captivating and generously illustrated work Arielle Saiber studies the relationship between number shape and the written word in the works of four exceptional thinkers of the time Leon Battista Alberti Luca Pacioli Niccol Tartaglia and Giambattista Della Porta Although these Renaissance humanists came from different social classes and practised the mathematical and literary arts at varying levels of sophistication they were all guided by a sense that there exist deep ontological and epistemological bonds between computational and verbal thinking and production Their shared view that a network or continuity exists between the literary arts and mathematics yielded extraordinary results from Alberti's treatise on cryptography and Pacioli's design calculations for the Roman alphabet to Tartaglia's poetic solutions of cubic equations and Della Porta's dramatic applications of geometry Through lively cogent analysis of these and other related texts of the period *Measured Words* presents literally and figuratively brilliant examples of what interdisciplinary work can offer us
