The Origins Of The Center For Hellenic Studies:

The Origins of the Center for Hellenic Studies Eric N. Lindquist, 2014-07-14 A case study in American philanthropy this book describes the beginnings of the Center for Hellenic Studies a research institute established in 1961 in Washington D C as an outpost of Harvard University Each year eight post doctoral fellows come from all over the world to live at the center and do research in ancient Greek literature philosophy or history The idea behind this arrangement began with the preeminent philanthropist Paul Mellon s interest in finding a project to advance the humanities Eric Lindquist traces the ten year evolution of the center from Mellon s first general notion In the process he portrays some of the hopes and fears for the humanities especially the classics in America during the period following World War II and the climate of opinion that led to the establishment of the center The study concludes with a short account of the subsequent development of the center This is the first published account of the origins of the center Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

ANNUAL EGYPTOLOGICAL BIBLIOGRAPHY 1977 Jac. J. Janssen, 1977 **The Origin of the History of Science in Classical Antiquity** Leonid I. A. Kovlevich Zhmud', 2006 This volume is the first comprehensive study of the content form and goal of the Peripatetic historiography of science The book first analyses similar trends in Presocratic Sophistic and Platonic thought and then focuses on Aristotle s student *Annual Egyptological Bibliography, Volume 27*, 2023-09-25 **The Oxford Critical Guide to Homer's Iliad**, 2024-06-24 The Oxford Critical Guide to Homer s Iliad investigates each of the Iliad s twenty four books proceeding in order from book 1 to book 24 and devoting one chapter to each one Contributors summarize the plot of a book and then explore its themes and poetics providing both close readings of individual passages and synthetic reviews of current scholarship This format allows readers to study the poem in the same manner in which they read it book by book Differing from other introductions to the Iliad that comprise chapters on specific topics and themes the volume offers accessible and actionable discussions of concepts pertinent to each book of the poem Differing from other introductory volumes that are written by a single author this volume allows for a polyphony of critical voices and showcases the diversity of approaches to the Iliad Finally differing from commentaries keyed to the Greek text this volume is completely accessible to those who do not read Homeric Greek These features make the volume an essential resource for those studying the Iliad in translation and in the original Greek for those in classical studies and in other disciplines and for teachers and students both those at the undergraduate level and those at the graduate level [Alexander of Aphrodisias: On Aristotle Metaphysics 4](#) Arthur Madigan, 2014-04-10 In *Metaphysics 4* Aristotle discusses the nature of metaphysics the basic laws of

logic the falsity of subjectivism and the different types of ambiguity The full clear commentary of Alexander of Aphrodisias on this important book is here translated into English by Arthur Madigan Alexander goes through Aristotle s text practically line by line attending to the logical sequence of the arguments noting places where Aristotle s words will bear more than one interpretation and marking variant readings He repeatedly cross refers to the De Interpretatione Analytics Physics and other works of Aristotle thus placing Metaphysics 4 in the content of Aristotle s philosophy as a whole *The Origin of Sin* David Konstan,2022-02-10 Where did the idea of sin arise from In this meticulously argued book David Konstan takes a close look at classical Greek and Roman texts as well as the Bible and early Judaic and Christian writings and argues that the fundamental idea of sin arose in the Hebrew Bible and the New Testament although this original meaning was obscured in later Jewish and Christian interpretations Through close philological examination of the words for sin in particular the Hebrew hata and the Greek hamartia he traces their uses over the centuries in four chapters and concludes that the common modern definition of sin as a violation of divine law indeed has antecedents in classical Greco Roman conceptions but acquired a wholly different sense in the Hebrew Bible and New Testament *Vyāsa Redux* Kevin McGrath,2019-06-20 Vy sa is the primary creative poet of the Sanskrit epic Mah bh rata and Vy sa Redux examines the many paradoxical dimensions of his narrative virtuosity in the poem where the poet is both the creator of the work and a character within it The book also studies elements in the poem which have been received by the late Bronze Age poets who composed the figure of Vy sa elements that reflect kinship polity and modes of mnemonic inspiration Three paired concepts function within the poem s narrative process first the central approach of the book is founded upon the distinction between plot and story that is the causal relation of events as opposed to the temporal relation of events Second much of the argument then engages with how this distinction relates to the difference between the preliterate and literate phases of our present text Third the nature of how inspiration functions and how edition operates becomes another vital component in our analytic process explaining how Vy sa becomes a dramatic causal and at times prophetic character in the poem s narration as well as its originator *The Cambridge World History of Genocide: Volume 1, Genocide in the Ancient, Medieval and Premodern Worlds* Ben Kiernan,T. M. Lemos,Tristan S. Taylor,2023-05-04 Volume I offers an introductory survey of the phenomenon of genocide The first five chapters examine its major recurring themes while the further nineteen are specific case studies The combination of thematic and empirical approaches illuminates the origins and long history of genocide its causes consistent characteristics and the connections linking various cases from earliest times to the early modern era The themes examined include the roles of racism the state religion gender prejudice famine and climate crises as well as the role of human decision making in the causation of genocide The case studies cover events on four continents ranging from prehistoric Europe and the Andes to ancient Israel Mesopotamia the early Greek world Rome Carthage and the Mediterranean It continues with the Norman Conquest of England s North the Crusades the Mongol Conquests medieval India and Viet Nam and a panoramic study of pre modern

Identities in Antiquity Joseph Skinner, Vicky Manolopoulou, Christina Tsouparopoulou, 2025-06-30 *Identities in Antiquity* is a multi disciplinary platform for the synthetic study of ancient identities set in a more rounded and inclusive notion of antiquity The volume showcases methodological and theoretical approaches to the study of ancient identities by scholars from different disciplinary backgrounds and career stages In doing so it promotes a more holistic approach to the study of ancient identities facilitating comparisons between different periods and disciplines and generating new knowledge in the process Chapters illustrating the intersecting multifaceted and mutable or else highly immutable nature of ancient identities address themes such as ethnicity race gender mobility religion and elite and sub elite identities most notably that of the enslaved in case studies spanning the ancient Mediterranean world and beyond from the third millennium BCE until the early Middle Ages The volume is suitable for students and scholars working on the Ancient Near East the Graeco Roman Worlds Late Antiquity and Byzantium offering a valuable contribution to the study of past identities and the internal workings of ancient societies

Ethnicity and Identity in Herodotus Thomas Figueira, Carmen Soares, 2020-01-16 Herodotus is the epochal authority who inaugurated the European and Western consciousness of collective identity whether in an awareness of other societies and of the nature of cultural variation itself or in the fashioning of Greek self awareness and necessarily that of later civilizations influenced by the ancient Greeks which was perpetually in dialogue and tension with other ways of living in groups In this book 14 contributors explore ethnicity the very self understanding of belonging to a separate body of human beings and how it evolves and consolidates or ethnogenesis This inquiry is focussed through the lens of Herodotus as our earliest master of ethnography in this instance not only as the stylized portrayal of other societies but also as an exegesis on how ethnocultural differentiation may affect the lives and even the very existence of one's own people Ethnicity and Identity in Herodotus is one facet of a project that intends to bring Portuguese and English speaking scholars of antiquity into closer cooperation It has united a cross section of North American classicists with a distinguished cohort of Portuguese and Brazilian experts on Greek literature and history writing in English

The Reception of Philo of Alexandria Courtney J. P. Friesen, David Lincicum, David T. Runia, 2025-01-12 Philo of Alexandria was a Jewish statesman philosopher and religious thinker A significant amount of his literary corpus was preserved by Christian hands and thereby came to resource numerous theologians in the Christian tradition After passing into obscurity in Jewish circles in antiquity Philo was rediscovered in the Italian Renaissance and came to feature in Jewish tradition once again Philo's works straddle an interest in exegesis and philosophy and the multi faceted contents of his thought ensured a long history of reception among readers with their own agendas This authoritative and systematic collection of essays by an international team of experts surveys Philo's reception from the time of his immediate contemporaries to the present day The book unfolds over six sections the first centuries late antiquity the middle ages the renaissance and early modern period from the eighteenth to the twentieth centuries and

contemporary perspectives **The Cambridge Guide to Homer** Corinne Ondine Pache, Casey Dué, Susan Lupack, Robert Lamberton, 2020-03-05 From its ancient incarnation as a song to recent translations in modern languages Homeric epic remains an abiding source of inspiration for both scholars and artists that transcends temporal and linguistic boundaries The Cambridge Guide to Homer examines the influence and meaning of Homeric poetry from its earliest form as ancient Greek song to its current status in world literature presenting the information in a synthetic manner that allows the reader to gain an understanding of the different strands of Homeric studies The volume is structured around three main themes Homeric Song and Text the Homeric World and Homer in the World Each section starts with a series of macropedia essays arranged thematically that are accompanied by shorter complementary micropedia articles The Cambridge Guide to Homer thus traces the many routes taken by Homeric epic in the ancient world and its continuing relevance in different periods and cultures

A Companion to Ethnicity in the Ancient Mediterranean Jeremy McInerney, 2014-06-13 A Companion to Ethnicity in the Ancient Mediterranean presents a comprehensive collection of essays contributed by Classical Studies scholars that explore questions relating to ethnicity in the ancient Mediterranean world Covers topics of ethnicity in civilizations ranging from ancient Egypt and Israel to Greece and Rome and into Late Antiquity Features cutting edge research on ethnicity relating to Philistine Etruscan and Phoenician identities Reveals the explicit relationships between ancient and modern ethnicities Introduces an interpretation of ethnicity as an active component of social identity Represents a fundamental questioning of formally accepted and fixed categories in the field

Sources for Byzantine Art History: Volume 3, The Visual Culture of Later Byzantium (1081-c.1350) Foteini Spingou, 2022-04-21 In this book the beauty and meaning of Byzantine art and its aesthetics are for the first time made accessible through the original sources More than 150 medieval texts are translated from nine medieval languages into English with commentaries from over seventy leading scholars These include theories of art discussions of patronage and understandings of iconography practical recipes for artistic supplies expressions of devotion and descriptions of cities The volume reveals the cultural plurality and the interconnectivity of medieval Europe and the Mediterranean from the late eleventh to the early fourteenth centuries The first part uncovers salient aspects of Byzantine artistic production and its aesthetic reception while the second puts a spotlight on particular ways of expressing admiration and of interpreting of the visual

Herodotus in the Anthropocene Joel Alden Schlosser, 2020-07-15 We are living in the age of the Anthropocene in which human activities are recognized for effecting potentially catastrophic environmental change In this book Joel Alden Schlosser argues that our current state of affairs calls for a creative political response and he finds inspiration in an unexpected source the ancient writings of the Greek historian Herodotus Focusing on the Histories written in the fifth century BCE Schlosser identifies a cluster of concepts that allow us to better grasp the dynamic complexity of a world in flux Schlosser shows that the Histories which chronicle the interactions among the Greek city states and their neighbors that culminated in the Persian Wars illuminate a telling paradox at those

times when humans appear capable of exerting more influence than ever before they must also assert collective agency to avoid their own downfall Here success depends on nomoi or the culture customs and laws that organize human communities and make them adaptable through cooperation Nomoi arise through sustained contact between humans and their surroundings and function best when practiced willingly and with the support of strong commitments to the equality of all participants Thus nomoi are the very substance of political agency and ultimately the key to freedom and ecological survival because they guide communities to work together to respond to challenges An ingenious contribution to political theory political philosophy and ecology Herodotus in the Anthropocene reminds us that the best perspective on the present can often be gained through the lens of the past

More Philip Coggan, 2020-03-24 A sweeping history that tracks the development of trade and industry across the world from Ancient Rome to today From the development of international trade fairs in the twelfth century to the innovations made in China India and the Arab world it turns out that historical economies were much more sophisticated than we might imagine tied together by webs of credit and financial instruments much like our modern economy Here Philip Coggan takes us from the ancient mountains of North Wales through Grand Central station and the great civilizations of Mesopotamia to the factories of Malaysia showing how changes in agriculture finance technology work and demographics have driven the progress of human civilization It is the story of how trade became broader and deeper over thousands of years how governments have influenced economies for good or ill and how societies have repeatedly tried to tame and harness finance More shows how at every step of our long journey it was the connection between people that resulted in more trade more specialization more freedom and ultimately more prosperity
