Color Victoria Finlay, 2007-12-18 In this vivid and captivating journey through the colors of an artist's palette Victoria Finlay takes us on an enthralling adventure around the world and through the ages illuminating how the colors we choose to value have determined the history of culture itself How did the most precious color blue travel all the way from remote lapis mines in Afghanistan to Michelangelo's brush What is the connection between brown paint and ancient Egyptian mummies Why did Robin Hood wear Lincoln green In Color Finlay explores the physical materials that color our world such as precious minerals and insect blood as well as the social and political meanings that color has carried through time Roman emperors used to wear togas dyed with a purple color that was made from an odorous Lebanese shellfish which probably meant their scent preceded them In the eighteenth century black dye was called logwood and grew along the Spanish Main Some of the first indigo plantations were started in America amazingly enough by a seventeen year old girl named Eliza And the popular van Gogh painting White Roses at Washington's National Gallery had to be renamed after a researcher discovered that the flowers were originally done in a pink paint that had faded nearly a century ago Color

is full of extraordinary people events and anecdotes painted all the more dazzling by Finlay's engaging style Embark upon a thrilling adventure with this intrepid journalist as she travels on a donkey along ancient silk trade routes with the Phoenicians sailing the Mediterranean in search of a special purple shell that garners wealth sustenance and prestige with modern Chilean farmers breeding and bleeding insects for their viscous red blood The colors that craft our world have never looked so bright The Great Painters: In Relation to the European Tradition Edith R. Abbot, 1927 **Organization and Teaching of Art** Leon Loyal Winslow, 1928 **Great Works of Art and what Makes Them Great** Fred Wellington Ruckstull, 1925 This is a book of combat in which little quarter will be given to certain tendencies in the art world and the pessimistic cynicism and childish hypocrisy by which they are pushed forward Ruckstull makes his point with 175 illustrations from the art world
