Handbook of Family and Marital Therapy Sharon A. Shueman, Benjamin B. Wolman, 2012-12-06 Family and marital therapies are rapidly becoming highly used methods of treatment of mental disorders and are no longer ancillary methods to individual psychotherapy The last few decades have brought about an increasing awareness of the fact that excluding organic etiology practically all mental disorders are caused fostered and or related to faulty interpersonal relations As a rule the earlier in life one is exposed to noxious factors the more severe is the damage Thus early child parents and child siblings interactions are highly relevant determinants of mental health and mental disorder Moreover parents themselves do not live in a vacuum Their marital interaction significantly contributes to their own mental health or to its decline and parent child relationships are greatly influenced by the nature of intraparental relationships Parental discord conflicts and abandonment affect the child s personality development Thus family and marital therapy is more than therapy it is an important contribution to the prevention of mental disorder The present volume is comprised of three parts The first primarily theoretical analyzes the fundamental aspects of marital and family therapy The second part describes the various therapeutic techniques and the last deals with several specific issues It gives me great pleasure to acknowledge my gratitude to my coeditor Dr George Stricker Without his thorough and devoted efforts this volume could not have come into being I am also profoundly indebted to our consulting editors Dr James Framo Dr Handbook of Family Therapy Training and Supervision Howard A. and skills Yet until now few books have been devoted to it and no single volume has attempted to relate the full breadth of this growing field in terms of its conceptual and theoretical expansion as well as its practical application HANDBOOK OF FAMILY THERAPY TRAINING AND SUPERVISION fills this need by presenting a truly comprehensive view of this dynamic area To accomplish this broad yet in depth scope editors Liddle Breunlin and Schwartz have assembled 30 highly acclaimed authorities to author chapters in their respective areas of expertise For further clarification the editors have included segues that introduce and analyze each of the book's four major sections providing the reader with an overview of the section highlights of themes that run through it and discussion of the issues raised in a way that ties the chapters together The book opens with a presentation of the unique and innovative approaches to training and supervision that have evolved in each separate school of family therapy Offering a panoramic view of the entire field of family therapy these seven chapters allow for fascinating comparisons among the different schools regarding the process by which ideas about therapy evolve into training techniques and philosophies Section II follows with an explication of the pragmatics of family therapy supervision Helping family therapy trainers avoid and anticipate the common mistakes involved with supervision the skills described in this section create an atmosphere conducive to learning and maintaining a working trainer trainee relationship and finally for training of supervisors Practical guidelines for using live and video supervision are included Section III features family therapy trainers in such diverse fields as psychiatry psychology family medicine social work nursing free standing and academic family therapy programs who describe the problems and advantages they encounter teaching these new ideas within their idiosyncratic contexts The book closes with a section that includes reflections on the field by such innovative and respected leaders as Cloe Madanes and Jay Haley Among topics covered are perspectives and recommendations for researchers evaluating family therapy practical advice for incorporating a cultural perspective into training programs feedback on the experience of live supervision from trainees perspectives An appendix follows that provides over 400 references organized by subject for easy reference Given the level and scope of this extraordinary text FAMILY THERAPY TRAINING AND SUPERVISION is an invaluable resource for anyone interested in teaching learning or simply appreciating family therapy
