Trewby, Sabina Goodchild, 1993      Painting light I. Schaefer, 2009      **How to Paint Like the Impressionists** Susie Hodge, 2004-08-17 Impressionism has captured the imagination of people the world over since its first exhibition in Paris in 1874 People have long sought to understand how and why the Impressionists created their paintings and how their techniques might be replicated Susie Hodge reveals the answers to these questions by assessing the techniques and styles of the great masters of Impressionism and showing how artists today can use their methods An informative introduction explains how the Impressionist movement came about explores its historical context and defines the style and inspiration of the artists involved The heart of the book however focuses on eight major Impressionist painters Monet Pissarro Renoir Cassatt Degas Cezanne Seurat and Van Gogh revealing how they worked and analyzing their well known paintings Each case includes step by step demonstrations that show the reader exactly how to re create Impressionist painting details in appropriate style      **Impressionism** John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes

**The Impressionists at First Hand** Bernard Denvir, 2023-09-07 The Impressionists Monet Manet Degas Morisot Pissarro Renoir Sisley and others are probably the most popular of all artistic schools Their struggle to impose a new vision is one of the most absorbing in the whole history of art With imagination and insight art historian Bernard Denvir brings Impressionism into focus by showing it through the eyes of the artists themselves and their contemporaries against the background of the time Through letters critical reviews statements and reminiscences whether explosive or appreciative blinkered or perceptive of the people who were there the story of this ground breaking art movement comes alive This was the age of innovation political liberalization emergent photography and modern ideas about perception The Impressionists had new ways of painting but they also had a new world to paint This revised edition now features full colour reproductions of art throughout and an updated bibliography      *Color in the Age of Impressionism* Laura Anne Kalba, 2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumi re brothers perfection of the autochrome color photography process

Focusing on Impressionist art Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas Pierre Auguste Renoir and Claude Monet The proliferation of vibrant new colors in France during this time challenged popular understandings of realism abstraction and fantasy in the realms of fine art and popular culture More than simply adding a touch of spectacle to everyday life Kalba shows these bright varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color Impressionism emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification mirrored and mediated this change shaping the ways in which people made sense of both modern life and modern art Demonstrating the central importance of color history and technologies to the study of visuality *Color in the Age of Impressionism* adds a dynamic new layer to our understanding of visual and material culture

*Exploring the Frontiers of Fiction: Humour, Modernism and Narrative Form in Virginia Woolf's "Jacob's Room" (1922)* Lindy van Rooyen, 2012-02-15 Inhaltsangabe Introduction Virginia Woolf is not a popular writer Despite a fierce pride in her work it was never her ambition to be one Most people have heard of her work vaguely associating it with the second wave of the women's liberation movement in the 1970s and the type of fiction that is commonly called difficult and few people unfamiliar with her work would associate her reputation with humour These are some of the first impressions of a writer who is now hailed by scholars of English literature as one of the icons of modernism To speak of first impressions of Virginia Woolf's work is not as fatuous as it may seem After all Woolf's fiction was initially founded on impressions and I hope to show that one of the distinctive characteristics of her oeuvre compared to other modernists like T S Eliot W B Yeats or James Joyce is the intensely visual nature of her art Furthermore she is often associated with a movement of modern painting in the early twentieth century known as Post Impressionism including painters like Cezanne Picasso and Georges Braque Finally laughter in all its registers whether merry cruel or parodic runs like a golden thread throughout the texture of her essays short stories and novels as satire does more generally throughout modernism I have chosen Virginia Woolf's third novel *Jacob's Room* 1922 as the focus of my study of Woolf's modernism It is not her best known novel as most critical acclaim is reserved for *Mrs Dalloway* 1925 or *To the Lighthouse* 1927 She started writing fiction in 1915 just as the First World War started and for four reasons I believe that *Jacob's Room* is the perfect starting point from which to survey Woolf's particular contribution to the Modernist Movement Firstly the social catastrophe associated with the First World War is widely considered to be the decisive historic event in the collective consciousness of early twentieth century Europe its effects reverberating throughout the literary and visual arts in the 1920s Secondly *Jacob's Room* was published in a year which falls nicely within the boundaries of the period of High Modernism which culminated in the decades between 1910 and 1930 Indeed the year of 1922 marks the publication of two other seminal modernist works T S Eliot's *Waste Land* and James Joyce's *Ulysses* Thirdly *Jacob's Room* is commonly regarded as Virginia Woolf's first
