## Technology In America A History Of Individuals And Ideas:

**Technology in America**, 1982      *Technology in America* Carroll W. Pursell, 1984      **Technology in America, third edition** Carroll Pursell, 2018-11-13 The new edition of a popular collection that traces the history of American invention from the age of the artisan to the era of Silicon Valley This volume traces the history of American technology its inventions and inventors from the age of the artisan to the era of Silicon Valley The focus on inventors acknowledges that technology is a fundamental form of human behavior and that ultimately it is people who have the ideas design the machines and build the institutions These accessible and succinct essays chronicle the work of the famous among them Thomas Jefferson Eli Whitney and Thomas Alva Edison and of the sometimes forgotten including Ellen Swallow Richards the founder of the home economics movement One illuminating essay shows how Buster Keaton and Charlie Chaplin helped Americans confront the modern technological age This third edition retains the content of the first two editions and adds three new essays on Rachel Carson and the rise of the environmental movement on A C Gilbert and the development of an American toy industry and on Lewis Latimer and the struggle of African Americans to gain recognition as professional inventors and engineers Contributors Lawrence Badash George Basalla Robert V Bruce Jean Christie Gail Cooper Ruth Schwartz Cowan James J Flink Barton C Hacker Samuel P Hays Brooke Hindle Thomas Parke Hughes Reese V Jenkins John A Kouwenhoven Edwin T Layton Jr W David Lewis Hugo A Meier Carroll Pursell Adam Rome Bruce Sinclair Merritt Roe Smith Darwin H Stapleton John William Ward James C Williams      *American Technology* Carroll Pursell, 2001-02-08 American Technology brings together ten fascinating and important stories of the ways in which Americans from colonial times to the present have embraced rejected interacted with and understood the technologies with which they have lived and worked Topics include the colonial home the shop floor the doctor's office and the telephone exchange as well as New England mill sites nuclear power and the Internet Each scholarly account is accompanied by primary documents and a list of further readings      *William Barton Rogers and the Idea of MIT* A. J. Angulo, 2009-01-26 Winner 2009 Outstanding Book Award History of Education Society Winner 2009 Richard Slatten Prize for Excellence in Virginia Biography Virginia Historical Society Conceptual founder of the Massachusetts Institute of Technology William Barton Rogers was a highly influential scientific mind and educational reformer of the nineteenth century A J Angulo recounts the largely unknown story of one man's ideas and how they gave way to the creation of one of America's premier institutions of higher learning MIT's long tradition of teaching research and technological innovation for real world applications is inexorably linked to Rogers' educational philosophy Emphasizing the useful arts a curriculum of specialized scientific study stressing theory and practice innovation and functionality Rogers sought to revolutionize standard educational practices of the day Controversial in an era typified by a generalist approach to teaching the sciences Rogers' model is now widely emulated by institutions throughout the world Exploring the intersection of Rogers' educational philosophy and the rise of technical institutes in America this biography

offers a long overdue account of the man behind MIT      **Encyclopedia of Historians and Historical Writing** Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

*Reader's Guide to American History* Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history      **Nursing History Review, Volume 11, 2003** Patricia D'Antonio, RN, PhD, FAAN, Barbra Mann Wall, Book Rev Editor, 2002-09-26 Nursing History Review an annual peer reviewed publication of the American Association for the History of Nursing is a showcase for the most significant current research on nursing history Regular sections include scholarly articles over a dozen book reviews of the best publications on nursing and health care history that have appeared in the past year and a section abstracting new doctoral dissertations on nursing history Historians researchers and individuals fascinated with the rich field of nursing will find this an important resource      **The Machine in America** Carroll W. Pursell, 1995 From the medieval farm implements brought by the first colonists to the invisible links of the Internet the history of technology in America is a history of our society as well Arguing that the tools and processes we use are a part of our lives not simply instruments of our purpose historian Carroll Pursell analyzes technology's impact upon the lives of women and men their work politics and social relationships and in turn their influence upon technological development Pursell shows how both the idea of progress and the mechanical means to harness the forces of nature developed and changed as they were brought from the Old World to the New He describes the ways in which American industrial and agricultural technology began to take on a distinctive shape as it adapted and extended the technical base of the industrial revolution He discusses the innovation of an American System of Manufactures and the mechanization of agriculture new systems of mining lumbering and farming which helped conquer and define the West and the technologies that shaped the

rise of cities And he shows how the export of technology helped to foster American hegemony both in the Western Hemisphere and elsewhere in the world Pursell also argues that American technology has created a social hegemony not only over the way we live but also over how we evaluate that life He shows that such developments as scientific management techniques and industrial research changed Americans lives as much as the mass production of such durable consumer goods as radios and automobiles In many ways he concludes today s military industrial complex is the legacy of the intense cooperation between science and technology during World War II     *A Companion to American Technology* Carroll Pursell, 2008-06-09 *A Companion to American Technology* is a groundbreaking collection of original essays that analyze the hard to define phenomenon of technology in America 22 original essays by expert scholars cover the most important features of American technology including developments in automobiles television and computing Analyzes the ways in which technologies are organized such as in the engineering profession government medicine and agriculture Includes discussions of how technologies interact with race gender class and other organizing structures in American society     **The American Historical Association's Guide to Historical Literature** American Historical Association, 1995 Contains nearly 2 000 annotated citations primarily English language works divided into forth eight sections citations refer chiefly to works published between 1961 and 1992     *A History of Cancer Control in the United States, 1946-1971: Introductory materials* History of Cancer Control Project, 1979     **A History of Cancer Control in the United States, 1946-1971** History of Cancer Control Project, 1979     The History of Civil Engineering Since 1600 Darwin H.
