Short Guide on Understanding and Parenting Teenagers emmln,2024-06-25 No matter what happens teenagers will always act like teenagers No matter how prepared we think we are or how much we ve planned teenagers often find ways to rebel Their attitudes can change drastically especially when they hit puberty Even if they were well behaved as children they can become quite different when they embrace the teen lifestyle We ve all been through it ourselves and in some way or another we caused our parents headaches and heartaches just as teenagers do now Adolescence is a time of immense change in every person s life It involves rapid physical emotional and mental development Teenagers embark on a journey of self discovery forming their identities and seeking independence Parenting during this period requires patience understanding and flexible strategies to support their growth and well being Teenagers undergo significant developmental changes that shape their behaviors and perspectives Physically puberty brings hormonal shifts and growth spurts affecting their appearance and bodily functions Emotionally they experience heightened sensitivity mood swings and a desire for independence Their brains also undergo important rewiring improving their ability to think critically while they are still learning to control impulses and make decisions Think back to when we were teenagers and struggled to understand our feelings felt misunderstood by our families and dealt with skin issues at the worst times Today s teenagers face similar challenges often feeling overwhelmed by their changing bodies and emotions Like a virus teenage issues can change over time Effective parenting is crucial during this period though there s no perfect approach It involves finding a balance between providing guidance and allowing independence Open Communication Open communication is key Click as it sounds but it is the key and also one of the hardest thing to do As parents especially those who work full time we may not always have the time or energy to communicate everything to our teenagers We may lose our patience or be dealing with unresolved childhood issues that cloud our judgment However breaking this cycle is essential for becoming better parents Open communication creates a safe space for teenagers to express their thoughts feelings and concerns without fear of judgment We may become upset about what our teenagers post on social media but we should step back control our reactions and

learn to express our views without being prejudiced or authoritarian. Instead, we must listen actively and accept their emotions even when we don't necessarily agree with their ideas. Else, they will block you and you wouldn't know what's going on anymore.

Setting Boundaries Setting clear boundaries while promoting independence helps teenagers understand the expectations and consequences of their actions. Collaborating with them to establish rules respects their growing autonomy while ensuring mutual respect and responsibility. For example, my ninth-grade son attends one of the prestigious science schools in the Philippines. When he asked to join the volleyball club, I agreed under the condition that it wouldn't affect his academics. I also made it clear that he couldn't use tiredness from practices as an excuse to skip classes.

Another practice I follow is recognizing and celebrating my teen's unique interests, strengths, and preferences. Despite my preference for him to choose the ABM (Accountancy, Business, and Management) strand, I fully supported his decision to pursue STEM (Science, Technology, Engineering, and Mathematics). In ninth grade, we discovered his strength in research, so we supported him throughout his experiments in tenth grade. We also discuss his plans for college, and I've encouraged him to pursue any field that involves Tech, such as Biotech or Agritech.

Respect Their Individuality Even when he was young, I always involved my son in decisions that impacted his life. In sixth grade, I encouraged him to consider attending my old high school, which was within walking distance and offered an advanced science program through DOST. However, he expressed a preference for Quezon City Science High School, so we had him take the entrance exam, which he successfully passed.

Empower Decision Making By eighth grade, he started feeling the pressure and jokingly remarked that he should have followed our advice. He found his classmates highly competitive and superior. I reminded him that attending that school had been his dream, and he needed to persevere. Together, we discussed his priorities, what adjustments he needed to make, and how to manage his time effectively for academics. We also talked about handling peer pressure and maintaining his composure.

Parenting during this challenging time was tough because teenagers, as mentioned earlier, often find ways to rebel and may not always be receptive. However, through patience and consistency, I was able to share my experiences and knowledge with him.

Model Positive Behavior I strongly believe in leading by example. My understanding of my teenager's behavior is influenced by my experience managing younger staff at work, where I encounter various attitudes. This prepared me well for puberty, as I've practiced active listening and developed patience. When it comes to expressing my feelings, I ensure I don't react during his tantrums. Instead, I give him space to express his emotions. There have been moments when I felt like reacting impulsively, but I've chosen to remain silent. I wait a day or two before discussing my thoughts with him, explaining how his tantrums affected me. Over time, I've observed that he has started apologizing on his own and explaining why he acted out. This is the behavior I encourage him to adopt in his interactions at school. I consistently emphasize to him the importance of avoiding unnecessary conflicts and asserting his rights at the right time. I stress that not every situation needs to be resolved through argumentation.

Encourage Independence Having experienced smart-shaming myself, I understand the importance of

equipping my teenager with skills beyond academics I firmly believe in household chores as a foundation for developing mental and emotional readiness Chores can be a challenge for teens especially boys While I might ask him to do the dishes I give him the flexibility to choose when he completes them Over time he has taken the initiative without needing reminders whether it s doing laundry or cleaning his room The one area we re still working on is establishing a bedtime routine He struggles to go to bed early but I emphasize the importance of waking up on time for class regardless of how much sleep he gets I prioritize attendance over sleep believing it s a necessary trade off for staying up late

Promote Healthy Habits

Encouraging healthy habits is challenging for us due to our night shift work schedule and the resulting lack of adequate sleep Nevertheless I consistently remind my teenager to take his vitamins ensure he drinks sterilized milk and prioritize sleep Lately I ve been making an effort to engage in small conversations with him encourage volleyball setting drills and discuss topics related to volleyball players I also encourage him to spend time outdoors with his friends or participate in volleyball practice games to prevent him from being glued to screens at home

Stay Informed and Involved

Lastly it s crucial to stay informed and engaged Fortunately I have a good memory for names so when my son shares stories about his activities I can always recall the people he mentions This shows him that I care and pay attention which encourages him to share more enthusiastically Research is a topic we delve into extensively He often asks me to review his projects and we discuss his coaches teammates and strategies for presenting his ideas in a constructive and impactful manner Whenever I inquire about his day and he mentions I do not know the people involved I ensure not to press further unless he chooses to share more willingly Indeed parenting teenagers is a dynamic journey that requires adaptability patience and unconditional love By understanding their developmental needs and fostering a supportive environment parents can empower teenagers to navigate adolescence with confidence and resilience Effective parenting during this transformative phase lays the foundation for healthy relationships personal growth and future success In essence parenting teenagers is about being a guiding presence offering support and nurturing their journey toward adulthood with understanding and respect for their evolving identities and aspirations Teenagers will always be teenagers and someday they will become parents or educators themselves Let s remind them that they once experienced the challenges of adolescence and we were there to support them through it

Parenting beyond the Rules Connie Albers,2019-04-02 Parenting teens is one of the most challenging seasons of parenting isn t it While this can be a difficult time of transition for parents and teens there is hope You can parent well and build a stronger relationship even through the teen years After 30 years of parenting five children and 20 years of working with teens Connie Albers has witnessed the negative impact of well intentioned but misguided parenting styles all focused on managing teens rather than guiding them But through learning to focus on the hearts of your teens you can avoid those pitfalls and build relationships that last beyond the transition years as you intentionally learn about connect with and listen to your teens In a world filled with distractions and devices it is possible to guide their hearts and remain the primary influence

Positive Parenting for Teens: Empowering Your Teen to Thrive and Succeed

Amanda Fireball, As a parent of a teenager, I know firsthand the challenges that come with parenting a teen. It can be difficult to navigate the changing dynamics of our relationship with our children as they begin to assert their independence and push back against our authority. But I also know that parenting a teenager can be incredibly rewarding as we watch them grow into confident, capable young adults. And that's why I wrote *Positive Parenting for Teens: Empowering Your Teen to Thrive and Succeed*. This book is a comprehensive guide to positive parenting for teens, designed to help parents like me navigate the ups and downs of raising a teenager. It covers everything from building a positive relationship with your teen to setting boundaries and consequences, and from supporting your teen's emotional health to preparing them for independence and adulthood. Throughout the book, I draw on my own experiences as a parent, as well as the latest research in adolescent development and positive psychology. I also share stories and insights from other parents and teens, offering a diverse range of perspectives on the challenges and joys of parenting a teenager. One of the key themes of the book is the importance of positive communication with your teen. As they begin to assert their independence, it can be easy to fall into patterns of conflict and negativity. But by using positive communication strategies like active listening and empathy, we can build a stronger, more trusting relationship with our teen. Another important aspect of positive parenting for teens is setting clear boundaries and consequences. This can be challenging, as we want to give our teens the freedom to make their own choices and learn from their mistakes. But by establishing clear rules and consequences, we can help our teens develop a sense of responsibility and accountability while also keeping them safe and healthy. In addition to these core themes, the book covers a wide range of topics related to parenting a teenager. This includes supporting your teen's academic success, navigating social challenges like peer pressure and bullying, and dealing with special circumstances like mental health challenges and disabilities. Throughout the book, I provide practical tips and strategies for applying positive parenting principles in real-life situations. I also include exercises and activities to help parents and teens work together to build stronger relationships and foster greater independence and responsibility. Ultimately, my goal with *Positive Parenting for*
