Telepathy And Manifestations At Great Distances:

Future Life in the Light of Ancient Wisdom and Modern Science Louis-Lucien Baclé,1906 *New York Journal of Homœopathy* ,1904 **Practical Druggist and Pharmaceutical Review of Reviews** Benjamin Lillard,1906 *Personality and Telepathy* Frank Challice Constable,1911 *Mysterious Psychic Forces* Camille Flammarion,2020-08-01 Reproduction of the original *Mysterious Psychic Forces* by Camille Flammarion **Medical Times** ,1904 **More Than Meets the Eye** Hanna Zacks,2011-04-12 In the book *More than Meets the Eye A Journey into the Mysteries of Psychic Phenomena* I invite the reader to join me in a fascinating trip to the field known as parapsychology Parapsychology or psi phenomena are psychic events which do not lend themselves to regular explanation based on evidence provided by the senses they are said to be extrasensory These phenomena are telepathy clairvoyance psychokinesis and precognition Our communication is based ordinarily on hearing or reading the others words but in telepathic communication we are said to know the others thoughts directly without the mediation of the senses In clairvoyance known also as remote viewing we are said to see remote places without using the eyes In psychokinesis we are said to be able to bend push or break objects without touching them and in precognition we have direct glimpses of the future Are telepathy clairvoyance and other kinds of psychic phenomena real or are they figments of an overly active imagination And what about phenomena such as out of body experiences apparitions of dead people and reincarnation Are such phenomena real On the basis of my own experience of the experiences of people I had interviewed and of information I had gleaned from books by credible authors I reach certain interesting conclusions which I share with the reader *Telepathy and Manifestations at Great Distances* Louis Elbe,2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **Light** ,1928 **The World's Best Orations** David Josiah Brewer,1923 **Investigating the Supernatural** Sofie Lachapelle,2022-02-03 A convincing account of science s flirtation with the marginal and the marvelous from the author of *Conjuring Science Journal of the History of the Behavioral Sciences* S ances were wildly popular in France between 1850 and 1930 when members of the general public and scholars alike turned to the wondrous as a means of understanding and explaining the world Sofie Lachapelle explores how five distinct groups attempted to use and legitimize s ances spiritists who tried to create a new science concerned with the spiritual realm and the afterlife occultists who hoped to connect ancient revelations with contemporary science physicians psychiatrists and psychologists who developed a pathology of supernatural experiences psychical researchers who drew on the unexplained experiences of the public to create a new field of research and metapsychists who attempted to develop a new science of yet to be understood natural forces An enlightening and entertaining narrative that includes colorful people like Allan Kardec a

pseudonymous former mathematics teacher from Lyon who wrote successful works on the science of the s ance and what happened after death Investigating the Supernatural reveals the rich and vibrant diversity of unorthodox beliefs and practices that existed at the borders of the French scientific culture in the late nineteenth and early twentieth centuries What is science In her engaging book Sophie Lachapelle probes for an answer by looking at the liminal realm between science and superstition and the attempt to render the supernatural explicable in naturalistic terms Isis A welcome addition to the growing literature on spiritism occultism and physical research in modern France French History Crowned Masterpiecaes of Eloquence Respresenting the Advance of Civilization David Josiah Brewer,1914 *Psychic Research Quarterly*,1921 **The Psychic Research Quarterly** ,1921 Includes section Current literature *The Newer Spiritualism* Frank Podmore,1911 **Poetics of the Paranormal** Kevin Chabot,2024-10-15 The appearance of ghosts in art and popular culture has transformed throughout history From the undead corpse of the medieval tradition to the transparent forms of photographic film to the infrared and thermal images that now populate reality television the paranormal has literally changed shape over the centuries In Poetics of the Paranormal Kevin Chabot articulates the idea of spectrality demonstrating how the paranormal is far from a stable metaphysical category it is a dynamic and historically contingent discourse the contours of which shift over time Specific media Chabot argues present the ghost in distinct ways that emphasize the ghostly qualities of the medium and conversely the technological qualities of the ghost Through detailed analyses of nineteenth century spirit photography horror films ghost hunting reality television and the viral internet phenomenon Slender Man Chabot shows how the paranormal both shapes and is shaped by media Exploring key historical shifts in contemporary media while providing a rich and novel theoretical framework Poetics of the Paranormal addresses with renewed rigour the relationships between media perception temporality and the elusive concept of the evidential *Spiritism and Psychology* Théodore Flournoy,1911 *Soft Diamond Light* Anatole Petrovich Kononewsky,2012-09-27 This eBook was created to make the vision of Soft Diamond Light more accessible to a global audience and more importantly to add the powerful energy of Soft Diamond Light to the online consciousness of the internet It is based on Part two of the hardcover full color book Soft Diamond Light Only love matters included in the limited edition artwork production Soft Diamond Light along with a sacred music CD More info www.2OrderNow.com The response to Soft Diamond Light has been that it raises the vibratory atmosphere of wherever it resides It uplifts everyone who comes within its field of influence It emanates a powerful electromagnetic field It seems to activate and clean the inner superphysical atmosphere of your home or office space The eBook emerged as a selection of my meditations dating back to my teenage years in 1965 plus the inclusion of more recent meditations from deep inner experiences while living in ashrams around the world The powerful energy of Soft Diamond Light is featured in the book via a specific sequential radiating cycle of images throughout the book The Insights on the opposite page of each Meditation were also written specifically for the book and were inspired by each of the specific
