and critical books and articles to define the role of television in the American consciousness She examines early TV advertising to show how the industry tried to position the new device as not just a gadget but a prestigious new piece of furniture a highly prized addition to the home The television set she writes has emerged as a new electronic hearth the center of family activity John Updike described this primitive appeal of the hearth in Roger's Version Television is its irresistible charm a fire Entering an empty room we turn it on and a talking face flares into being Sitting in front of the TV Americans exist in a safety zone free from the hostility and violence of the outside world She also discusses long standing suspicions of TV viewing its often solitary almost autoerotic character its supposed numbing of the minds and imagination of children and assertions that watching television drugs the minds of Americans Television has been seen as treacherous territory for public figures from generals to presidents where satire and broadcast journalism often deflate their authority And the print culture of journalism and book publishing has waged a decades long war of survival against it only to see new TV generations embrace both the box and the book as a part of their cultural world In today's culture she writes we have become teleconscious seeing for example real life being certified through television as seen on TV and television constantly ratified through its universal presence in art movies music comic strips fabric prints and even references to TV on TV Ranging far beyond the bounds of the broadcast industry Tichi provides a history of contemporary American culture a culture defined by the television environment Intensively researched and insightfully written The Electronic Hearth offers a new understanding of a critical but much maligned aspect of modern life

Inventing Television Culture Janet Thumim, 2004-12-16 During the fertile decade 1955-65 the television institution emerged in a form which would be familiar for the next half century this book attends to two aspects of its formation The first entails the production strategies programmes schedules and emergent generic modes as these were invented through a process of trial and error allied to a

close attention to building the mass audience in short the question of how television invented itself The second aspect concerns the place of women and the concept feminine in the new institution Television offered women access to the public sphere in ways that were potentially disruptive of the order prevailing in mid 1950s Britain Apart from new employment opportunities images of women and definitions of the feminine were purveyed nightly to an heterogeneous audience of millions an audience that was itself under construction throughout the period Through close attention to three discrete areas of programming women s programmes news and current affairs and popular drama the book aims to convey a sense of the excitement entailed in establishing the institution and to ask where and how it may have posed challenges to the prevailing patriarchal hegemony Hence the productive interplay of two terms television and the feminine both of which were evolving rapidly during the period is explored in the context of the contemporary discursive climate

images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel s Johnny Yuma reincarnating Southern values and Bonanza s Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation s mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands *Time on TV* Lorna Jowett, Kevin Robinson, David Simmons, 2016-06-22 From early examples such as Star Trek and Sapphire and Steel to more contemporary shows including Life on Mars and The Vampire Diaries time has frequently been used as a device to allow programme makers to experiment stylistically and challenge established ways of thinking Time on TV provides a range of exciting accessible yet intellectually rigorous essays that consider the many and varied ways in which telefantasy shows have explored this subject providing the reader with a greater understanding of the importance of time to the success of genre on the small screen *Elvis Culture* Erika Doss, 1999 Doss fine arts and American studies U of Colorado Boulder examines the image of Elvis from a number of perspectives including as a religious icon honored in household shrines as a sexual fantasy for women and men as an inspiration for impersonators as a not altogether positive emblem of whiteness for many blacks and as a commodity to be protected by Elvis Presley Enterprises Bandw illustrations Annotation copyrighted by Book News Inc Portland OR
