Television on Your Doorstep Bernat López,Miquel de Moragas Spa,1999 This work brings together 14 national reports and a detailed account of television in the European Union It provides data on the contradictory processes of media globalization and decentralization and offers an optimistic approach to the future of television in the new era of digital broadcasting *Televisión y política* Fernando Huertas,1994 Los medios de comunicación se han convertido en una pieza clave para el funcionamiento de una sociedad moderna y democrática como la actual Hasta el punto de que conforman la realidad social y el hecho político Lo que se muestra en televisión aparece en la prensa o se oye en la radio emerge como una realidad incuestionable aunque haya sido reconstruida por los medios o constituya un puro acontecimiento mediático Todo lo demás se desvanece o aparece diluido en pequeñas realidades (Multi) Media Translation Yves Gambier,Henrik Gottlieb,2001-09-06 The globalisation of communication networks has increased the domains of translation and is challenging ever more the translator's role This volume is a collection of contributions from two different conferences Misano 1997 and Berlin 1998 Multi Media translation especially screen translation TV cinema video has made more explicit the complexities of any communication and has led us to take a fresh look at the translator's strategies and behaviours Several papers ponder the concepts of media and multimedia the necessity of interdisciplinarity the polysemiotic dimension of audiovisual media Quite a few discuss the current transformations in audiovisual media policy A great many deal with practices mainly in subtitling but also in interpreting for TV and surtitling what are the quality parameters and the conditions to meet audience's expectations Finally some show the cultural and linguistic implications of screen translation Digitalisation is changing production and broadcasting and speeding up convergence between media telecommunications and information and communication technology Is multi media translation a new field of study or an umbrella framework for scholars from various disciplines Is it a trick to overcome the absence of prestige in Translation Studies Or is it just a buzz word which gives rise to confusion These questions remain open the 26 contributions are partial answers *Media Influence on Opinion Change and Democracy* Manuel Goyanes,Azahara Cañedo,2024-10-30 This book reviews and advances the theoretical and empirical knowledge at the intersection of opinion change and democracy Specifically the volume addresses how opinion change and political persuasion unfold in three main domains of media effects private media i e news organizations public service media state own media services and social media platforms Divided in these three different sections the volume serves as a venue to discuss and further advance the most recent theoretical assumptions and empirical findings that underpin our current understanding on how media influence public opinion and shape liberal democracies The book also explores how media literacy and critical thinking can mitigate the effects of misinformation and propaganda emphasizing the importance of educating the public to discern credible information from deceptive content Furthermore it discusses the ethical implications of media practices and the responsibilities of media producers in maintaining the integrity of democratic

discourse By highlighting these aspects the book provides a comprehensive understanding of the complex interplay between media public opinion and democracy offering valuable insights for scholars policymakers and anyone interested in the role of media in shaping public opinion **Communicating Science and Technology Through Online Video** Bienvenido

tiene que ser un aliado de las cadenas y no un competidor Probablemente la crisis ha propiciado la aparición y consolidación de nuevas fórmulas de financiación y como contar las mismas historias de siempre pero de forma diferente El valor de la creatividad los contenidos audiovisuales a través de la red y la emergencia de las redes sociales o los dispositivos móviles son aspectos a considerar en el nuevo paradigma de la producción audiovisual para la multidifusión digital

Saiz,Stefan Rinke,2024-12-30 In Latin America the production of telenovelas and TV series about the region's recent and traumatic past has grown considerably in the last 20 years affecting societal perceptions of the past historical consciousness and political culture While these TV products are usually perceived as trivial they do provide a historical framework to a wide audience which finds it easier to relate to the national past through fiction than through history books journalistic articles or documentaries Latin America's Contested Pasts in Telenovelas and TV Series analyzes the historical culture of Latin American society embodied in telenovelas and TV series from the 1960s to this day It compiles regional case studies on the televised representation of 20th century dictatorships in Chile Argentina and Brazil as well as the war against drug trafficking and the armed conflict in Colombia Highlighting the political and social relevance of fictional television the contributions offer interdisciplinary insights into its discourses and narratives from the heroization of criminals to the search for reconciliation and the construction of a historical memory [Sátira televisiva y democracia en España](#) José Luis

Valhondo Crego,2011 De manera cada vez más frecuente el sistema político y mediático español emplea el humor y la sátira en su comunicación con el gran público Se trata de una tendencia global que en países como España se ha intensificado tras la liberalización económica de los medios en la última década del siglo XX A primera vista podemos afirmar que este proceso está contribuyendo a la democratización de la sociedad a través de facilitar su acceso a la información política Desde otra perspectiva cabe pensar que los contenidos satíricos han fomentado el cinismo político de la ciudadanía hacia las instituciones democráticas sobre todo entre el segmento más joven y han supuesto un paso más allá en la espectacularización de la comunicación política Este libro aborda el debate sobre los posibles efectos de la sátira televisiva española en periodistas políticos y audiencias presentando ejemplos significativos de momentos claves en la esfera pública desde la guerra de Irak hasta las Elecciones Generales que otorgaron el poder a los socialistas en 2004 [Management and Economics of Communication](#) M. Ética en los medios de comunicación

López Talavera, María del Mar, 2016-11-08
Hablar de ética en los medios de comunicación en un momento histórico de crisis moral de valores no resulta tarea sencilla por lo que es imprescindible subrayar la importancia y actualidad de una deontología en este ámbito. Hoy en día tanto estudiantes como profesionales de las ciencias de la información se enfrentan con problemas éticos que exigen tomar decisiones desde el punto de vista moral. Es lo que los anglosajones denominan making ethical decisions. A tal efecto este libro aporta fundamentales contenidos y reflexiones para una correcta resolución de los dilemas éticos en el ejercicio profesional del periodismo y de la comunicación audiovisual. Se abordan temas de actualidad y aplicación práctica como son entre otros el tratamiento ético de informaciones sobre violencia y terrorismo, la publicidad engañosa e información subliminal, la ética de los anuncios televisivos, la influencia de la televisión en los niños, la ética del fotógrafo en prensa y los paparazzi, la deontología del comentarista radiofónico, la importancia de la calidad de los contenidos en televisión, la telebasura y la responsabilidad social del cineasta.
