Television Ratings System United States. Congress. Senate. Committee on Commerce, Science, and Transportation, 1997

The Alphabet Soup of Television Program Ratings Bradley S. Greenberg, Lynn Ann Rampoldi Hnilo, Dana Mastro, 2001

This volume contains the responses of thousands of parents and young people to the age based and content based television ratings. It reports on the analyses of ratings from several thousand television shows. It identifies the process by which these ratings came into being and compares them with parallel content rating systems in other countries. In addition to examining related experimental studies, also included are interviews with a chief rater at a broadcast network and a member of the national ratings oversight body.

What Parents Want in a Television Rating System Joanne Cantor, 1996

The Rating System Ethan Parker, AI, 2025-02-24. The Rating System explores the intricate world of motion picture ratings, examining how these classifications shape audience choices and impact the film industry. It delves into the evolution of rating systems, revealing how social and cultural values influence content regulation. Did you know that the criteria raters use include assessments of violence, language, and sexual content, balanced against artistic expression? The book uncovers the decision-making processes and the consequences of extreme ratings for filmmakers and viewers. The book begins by introducing film ratings and their purpose, then traces their historical development from censorship boards to age-based classifications. Chapters detail the contemporary rating process, the criteria used, and the appeals process. It highlights how ratings can shape public discourse and influence creative choices, also noting the consideration of community standards and commercial interests. Understanding the rating system can lead to more informed perspectives on the films we consume and the messages they convey.

The Gatekeeper Alfred R. Schneider, 2001-03-01. From 1960 to 1990, Alfred R. Schneider served as head of standards and practices or chief censors for the ABC television network. From his unique vantage point, Schneider managed issues of taste and morality that determined what millions of U.S. viewers watched. During his tenure, the nation's attitudes changed drastically as did the content shown on American airwaves. Controversies arose about TV's influence on children, its portrayal of violence, and its introduction of once-taboo subjects.

Vision, Technology, and Subjectivity in Mexican Cyberpunk Literature Stephen C. Tobin, 2023-07-06 Vision Technology and Subjectivity in Mexican Cyberpunk Literature interrogates an array of cyberpunk and post cyberpunk science fiction novels and short stories from Mexico whose themes engage directly with visual technologies and the subjectivities they help produce all published during and influenced by the country s neoliberal era This book argues that television computers and smartphones and the literary narratives that treat them all correspond to separate yet overlapping scopic regimes within the country today Amidst the shifts occurring in the country s field of vision during this period the authors of these cyberpunk and post cyberpunk narratives imagine how these devices contribute to producing specular subjects or subjects who are constituted in large measure by their use and interaction with visual technologies In doing so they repeatedly recur to the posthuman figure of the cyborg in order to articulate these changes Stephen C Tobin therefore contends that the literary cyborg becomes a discursive site for working through the problematics of sight in Mexico during the globalized era In all these specular fictions represent an exceptional tendency within literary expression especially within the cyberpunk genre that grapples with themes and issues regarding the nature of vision being increasingly mediated by technology
