## Televisions Greatest Year 1954:

*Television's Greatest Year--1954* Richard D. Heldenfels, 1994 An analysis of TV in the year that saw it emerge from the realm of experiment to the dizzy heights of popularity and influence As well as covering successes of the time such as I Love Lucy and Dragnet the author examines the opportunities generated by advertising to captive audiences **Television** Toby Miller, 2003 Television Program Master Index Charles V. Dintrone, 2014-02-11 This work indexes books dissertations and journal articles that mention television shows Memoirs autobiographies biographies and some popular works meant for fans are also indexed The major focus is on service to researchers in the history of television Listings are keyed to an annotated bibliography Appendices include a list of websites an index of groups or classes of people on television and a list of programs by genre Changes from the second edition include more than 300 new shows airing on a wider variety of networks 2000 plus references more than double the second edition and a large increase in scholarly articles The book provides access to materials on almost 2300 shows including groundbreaking ones like All in the Family almost 200 entries cult favorites like Buffy The Vampire Slayer 200 plus entries and a classic franchise Star Trek more than 400 entries for all the shows The shows covered range from the late 1940s to 2010 The Walking Dead References range from 1956 to 2013 *The Columbia History of American Television* Gary Edgerton, 2007-10-12 Television is a form of media without equal It has revolutionized the way we learn about and communicate with the world and has reinvented the way we experience ourselves and others More than just cheap entertainment TV is an undeniable component of our culture and contains many clues to who we are what we value and where we might be headed in the future Media historian Gary R Edgerton follows the technological developments and increasing cultural relevance of TV from its prehistory before 1947 to the Network Era 1948 1975 and the Cable Era 1976 1994 He begins with the laying of the first telegraph line in 1844 which gave rise to the idea that images and sounds could be transmitted over long distances He then considers the remodeling of television's look and purpose during World War II the gender racial and ethnic components of its early broadcasts and audiences its transformation of postwar America and its function in the political life of the country He talks of the birth of prime time and cable the influence of innovators like Sylvester Pat Weaver Boone Arledge and Ted Turner as well as television's entrance into the international market describing the ascent of such programs as Dallas and The Cosby Show and the impact these exports have had on transmitting American culture abroad Edgerton concludes with a discerning look at our current Digital Era 1995 present and the new forms of instantaneous communication that continue to change America's social political and economic landscape Richly researched and engaging Edgerton's history tracks television's growth into a convergent technology a global industry a social catalyst a viable art form and a complex and dynamic reflection of the American mind and character It took only ten years for television to penetrate thirty five million households and by 1983 the average home kept their set on for more than seven hours a day The Columbia History of American Television illuminates our complex relationship with this singular

medium and provides historical and critical knowledge for understanding TV as a technology an industry an art form and an institutional force     Television's Second Golden Age Robert J. Thompson,1997-10-01 This is an insider s tour touching on the network s dizzying decision making process and the artists who have revolutionized the medium     It's the Pictures That Got Small Christine Becker,2008 An original study of Hollywood film stars and 1950s television     The Daytime Serials of Television, 1946-1960 Jim Cox,2024-10-16 The popularity of soap operas on radio made them a natural for the new medium of television where soaps quickly became an audience favorite As television soap operas developed so did the level of sophistication in delivery writing and production This history of television s golden age soaps begins with an overview of earlier serialized entertainments An analysis of early TV soap stars personnel and production follows taking 40 programs into account Ensuing chapters offer in depth treatments of the serials Search for Tomorrow Love of Life The Guiding Light The Secret Storm As the World Turns and The Edge of Night Appendices include chronological and alphabetical directories of period daytime serials and rankings of the durability of programs actors and actresses announcers and sponsors     *The Big Screen Comedies of Mel Brooks* Robert Alan Crick,2015-06-14 Mel Brooks is often regarded as one of Hollywood s funniest men thanks to such highly successful films as The Producers Blazing Saddles and Young Frankenstein His films do have a tendency to turn out much like the jokes that comprise them hit or miss one minute shoot the moon brilliant and the next minute well short of laughs This work provides a thorough synopsis and thematic analysis for each of his twelve films along with complete cast and production credits The Producers 1968 The Twelve Chairs 1970 Blazing Saddles 1974 Young Frankenstein 1974 Silent Movie 1976 High Anxiety 1977 History of the World Part 1 1981 To Be or Not to Be 1983 Spaceballs 1987 Life Stinks 1991 Robin Hood Men in Tights 1993 and Dracula Dead and Loving It 1995     James Edwards Pamala S. Deane,2014-10-01 One of Hollywood s most heralded postwar African American movie stars James Edwards catapulted to stardom following his breakout role in Stanley Kramer s Home of the Brave In his groundbreaking performance as a U S soldier experiencing racial prejudice during combat in the South Pacific Edwards proved that African American actors could handle serious film roles Edwards performed on radio television and theatre and appeared in two dozen or more films including Stanley Kubrick s breakthrough indie The Killing John Frankenheimer s The Manchurian Candidate and Franklin J Schaffner s Patton This book tells the story of Edwards life and career describing his unlikely climb to fame following a serious wartime injury and detailing how this native of Muncie Indiana paved the way for the careers of Sidney Poitier Harry Belafonte and other African American stars to follow     *Science on the Air* Marcel Chotkowski LaFollette,2009-08-01 Mr Wizard s World Bill Nye the Science Guy NPR s Science Friday These popular television and radio programs broadcast science into the homes of millions of viewers and listeners But these modern series owe much of their success to the pioneering efforts of early twentieth century science shows like Adventures in Science and Our Friend the Atom Science on the Air is the fascinating history of the evolution of popular science in the first decades of the broadcasting

era Marcel Chotkowski LaFollette transports readers to the early days of radio when the new medium allowed innovative and optimistic scientists the opportunity to broadcast serious and dignified presentations over the airwaves But the exponential growth of listenership in the 1920s from thousands to millions and the networks recognition that each listener represented a potential consumer turned science on the radio into an opportunity to entertain not just educate Science on the Air chronicles the efforts of science popularizers from 1923 until the mid 1950s as they negotiated topic content and tone in order to gain precious time on the air Offering a new perspective on the collision between science s idealistic and elitist view of public communication and the unbending economics of broadcasting LaFollette rewrites the history of the public reception of science in the twentieth century and the role that scientists and their institutions have played in both encouraging and inhibiting popularization By looking at the broadcasting of the past Science on the Air raises issues of concern to all those who seek to cultivate a scientifically literate society today     *The Fifties Spiritual Marketplace* Robert S. Ellwood,1997 Ellwood frames his detailed and lively account with the provocative idea of the fifties as a supply side free enterprise spiritual marketplace with heady competition between religious groups and leaders and with church attendance at a record high

contributed to a general sense that the country was morally adrift and ripe for communist takeover Five often censored subjects advertising language and depictions of sex violence and race are explored in detail exposing the surprising complexity and nuance of early media censorship Questions of whether too many sadistic westerns would coarsen America s children how to talk about homosexuality without using the word homosexuality and how best to advertise toilet paper without offending people were on Helffrich s mind his answers to these questions helped shape the broadcast media we know today 1950s American Style: A Reference Guide (soft cover) Daniel Niemeyer,2013 Facets of the Fifties A reference guide to an iconic Decade of Movie Palaces Television Classic Cars Sports Department Stores Trains Music Food Fashion and more

**Hawthorne to the Screen** Laurence Raw,2008 Raw explains how some filmmakers have tackled the difficulty of Hawthorne s material by treating it as being firmly situated in American life of the mid nineteenth century while others have used Hawthorne s work to comment on various aspects of twentieth century American life This latter device is particularly evident in the many versions of The Scarlet Letter including a 1950 television broadcast that aired two months after senator Joseph McCarthy s speech about card carrying members of the Communist Party and 1960s and early 70s versions supporting countercultural values **Science on American Television** Marcel Chotkowski,2024-05-31 As television emerged as a

major cultural and economic force many imagined that the medium would enhance civic education for topics like science And indeed television soon offered a breathtaking banquet of scientific images and ideas both factual and fictional Mr Wizard performed experiments with milk bottles Viewers watched live coverage of solar eclipses and atomic bomb blasts Television cameras followed astronauts to the moon Carl Sagan through the Cosmos and Jane Goodall into the jungle Via electrons and embryos blood testing and blasting caps fictional Frankensteins and chatty Nobel laureates television opened windows onto the world of science But what promised to be a wonderful way of presenting science to huge audiences turned out to be a disappointment argues historian Marcel Chotkowski LaFollette in Science on American Television LaFollette narrates the history of science on television from the 1940s to the turn of the twenty first century to demonstrate how disagreements between scientists and television executives inhibited the medium s potential to engage in meaningful science education In addition to examining the content of shows she also explores audience and advertiser responses the role of news in engaging the public in science and the making of scientific celebrities Lively and provocative Science on American Television

establishes a new approach to grappling with the popularization of science in the television age when the medium's ubiquity and influence shaped how science was presented and the scientific community had increasingly less control over what appeared on the air

*Perpetually Cool* Anthony B. Chan, 2007-02-08 Anna May Wong was an extraordinary Asian American woman who became the country's most famous film actress of Chinese descent. From small parts in silent films to starring roles in Hollywood and across the Atlantic, Wong made an impression on audiences of all persuasions. In *Perpetually Cool*, Anthony Chan takes the reader on a compelling journey through Wong's early years in Los Angeles and her first Hollywood pictures. Chan also examines the scope and nature of race, gender, and power and their impact on Wong's personal growth as a Chinese American. *Perpetually Cool* is not only the captivating story of a cinematic career but also of roots and identity as it recounts Wong's desire to connect with her heritage in the United States and in China. Chan provides extensive textual analyses of Wong's signature films, especially *The Toll of the Sea* (1922), *The Thief of Bagdad* (1924) with Douglas Fairbanks, and her most famous role as Hui Fei in *Shanghai Express* (1932) opposite Marlene Dietrich. *Perpetually Cool* is a fitting tribute to the influence of this Chinese American icon.
