A Guide for Parents of Teenagers

Dear Dr. Levine,  
Today is our 16-year-old daughter who  
suddenly announced to us that she wants  
to quit high school. It's true that her  
have never been anything to write home  
about. We never expected her to  
quit school. She hates school.  
I don't know what to do. I want her to go back to school.

*The Soul of Discipline* Kim John Payne,2015-06-02 In this groundbreaking book parenting expert and acclaimed author of the bestselling book Simplicity Parenting Kim John Payne M Ed flips the script on children s challenging or defiant behavior and lays out an elegantly simple plan to support parents in establishing loving age sensitive boundaries that help children feel safe and settled In short What looks like misbehavior is actually your children s signal that they re feeling lost that they are trying to find direction and looking to you to guide them back on course Payne gives parents heartwarming help and encouragement by combining astute observations with sensitive and often funny stories from his long career as a parent educator and a school and family counselor In accessible language he explains the relevance of current brain and child development studies to day to day parenting Breaking the continuum of childhood into three stages Payne says that parents need to play three different roles each corresponding to one of those stages to help steer children through their emotional growth and inevitable challenging times The Governor who is comfortably and firmly in charge setting limits and making decisions for the early years up to around the age of eight The Gardener who watches for emotional growth and makes decisions based on careful listening assisting tweens in making plans that take the whole family s needs into account The Guide who is both a sounding board and moral compass for emerging adults helping teens build a sense of

their life's direction as a way to influence healthy decision making Practical and rooted in common sense The Soul of Discipline gives parents permission to be warm and nurturing but also calm and firm not overreactive It gives clear doable strategies to get things back on track for parents who sense that their children's behavior has fallen into a troubling pattern And best of all it provides healthy direction to the entire family so parents can spend less time and energy on outmoded punitive discipline and more on connecting with and enjoying their kids Advance praise for The Soul of Discipline The Soul of Discipline offers practical tools for helping parents implement discipline that's respectful and effective but the book is so much more Kim John Payne offers a framework to guide parents in making decisions about why when and how to hold tighter reins as we build skills in our children and why when and how to loosen the reins as we scaffold freedom Tina Payne Bryson Ph D co author of No Drama Discipline This book gets deep inside the challenge of getting along with children and teens and thinks deeply about what they need from us to become strong and self managing It elevates discipline to what it should be a caring process of helping kids orient to the world and live in it happily and well Steve Biddulph author of The New Manhood Kim Payne provides a useful model for choosing our parenting stance Governor Gardener or Guide depending on the situation Most powerfully Payne begins with the radical view that children are not disobedient but rather disoriented The upshot of this shift in perspective is that discipline is about helping children orient themselves effectively not about controlling or chastising Lawrence J Cohen Ph D author of Playful Parenting

**Rethinking Your Teenager** Darby Fox, 2020-01-15 The teenage years parents fear this stage dreading it even while watching their adorable toddlers explore the world When it arrives they try to control their teenager in turn causing their teenager to push back more intensely It's a natural instinct on both sides teenagers are changing in every way while trying to assert their independence and parents are faced with the challenge of coming up with rules expectations and standards for behavior without a genuine understanding of what is happening But the result of this pattern is a parent child relationship defined by conflict and reactivity a breeding ground for stress anger and anxiety all of which reinforcing those same cultural stereotypes and worst fears But it doesn't have to be this way In this book family therapist Darby Fox challenges parents to redefine the goals of adolescence by reorienting their focus from what they want their child to be to on who they want their child to be Darby not only equips parents with the insight to understand the changes taking place in their child's brain and body and support their adolescent's bid for independence but also offers an approach that allows parents to engage their adolescent in a relationship instead of struggling in an endless battle for control The book is organized around a series of persistent myths about adolescence each of which the author tears down with a combination of cutting edge neuroscience research developmental psychology and her own mix of clinical observations and experience raising four children Darby offers a new model for the parent child relationship encouraging parents to let go of the attempt to control their teenager and focus instead on creating mutual respect providing structure and nurture and encouraging independence in their developing teenager She walks through the

keys to combining structure and nurture and teaches parents how to connect with their teen while holding them accountable for their behavior. If parents approach teen years with the same thoughtful preparation, sense of awe and wonder, and responsibility that they do the early childhood years, it can be an enjoyable and rewarding developmental stage that deepens rather than damages parent-child relationships.

**Establishing a Methodology to Evaluate Teen Driver-training Programs** Tammy E. Trimble, Stephanie Baker, William A. Schaudt, Taryn Schrader, 2013. The goal of this research project was to develop a methodology to assist the Wisconsin Department of Transportation (WisDOT) in the evaluation of effectiveness of teen driver education programs over the short and long terms. The research effort was divided into two phases. Phase I focused on the development of an evaluative methodology that was based upon a review of the relevant literature and Wisconsin-specific policies and available data sources. This review culminated in a program assessment tool focused on four contributing areas of teen driver training and education: 1. Guardian Involvement, 2. Driver Education and Training Curricula Requirements, 3. GDL Coordination, and 4. Instructor Qualifications. The proposed methodology was presented to the Project Oversight Committee and was validated through two rounds of pilot testing using materials provided by programs and schools under the oversight of both WisDOT and the Wisconsin Department of Public Instruction. The resulting methodology informed the Phase II implementation plan recommendations. Work products included within this report are an annotated bibliography, a knowledge base documenting best practices, and Wisconsin-specific data sources, a methodology that may be used to analyze and evaluate the effectiveness of driver training.
