The Of Life The Spiritual And Physical Const:

International Law and Society Laura A. Dickinson, 2017-11-30 Scholars of international human rights law are largely unfamiliar with law and society scholarship while the study of international human rights has remained at the margins of the law and society movement International Law and Society Empirical Approaches to Human Rights seeks to bridge this gap by presenting the work of a growing number of academics who are adopting a range of empirical approaches to international human rights Drawn from the fields of anthropology sociology political science and law the studies featured in this volume use a variety of qualitative and quantitative methods to analyze core issues of international law and human rights such as compliance the development of norms and the role of social movements **Theology as Construction of Piety** David T. Ngong, 2013-12-10 This book argues that a primary purpose of theological discourses is to construct piety or spirituality If this is the case theologians need to constantly inquire into the kind of piety or spirituality which their work may construct Drawing from some important moments in the development of Christian theology such as the development of the Christian doctrine of God in the early church the role of material things in the Christianity of medieval Europe some elements of contemporary postliberal theology and the theology of inculturation in Africa the book argues that theological discourses that appear to be orthodox and innocuous may actually construct forms of piety that may diminish human flourishing The book therefore calls for an ethics of theology intended to ensure that the theologies we construct help in developing a piety that is conducive to human flourishing in the modern world especially for Africans who have suffered and continue to suffer unspeakable dehumanization The book proposes that a theology that may contribute to the flourishing of Africans in the modern world is one that constructs an interdisciplinary spirituality that takes both the spiritual and the scientific seriously

The Constant Fire Adam Frank, 2009-01-06 Eloquent urgent and inspiring The Constant Fire tackles the acrimonious debate between science and religion taking us beyond its stagnant parameters into the wider domain of human spiritual experience From a Neolithic archaeological site in Ireland to modern theories of star formation Adam Frank traverses a wide terrain broadening our sights and allowing us to imagine an alternative perspective Drawing from his experience as a practicing astrophysicist and from the writings of the great scholars of religion philosophy and mythology Frank locates the connective tissue linking science and religion their commonality as sacred pursuits and finds their shared aspiration in pursuit of the True and the Real Taking us from the burning of Giordano Bruno in 1600 to Einstein and on to today's pressing issues of global warming and resource depletion The Constant Fire shows us how to move beyond this stale debate into a more profound experience of the world as sacred a world that embraces science without renouncing human spirituality

Christian Worldview and the Academic Disciplines

Deane E. D. Downey, Stanley E. Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful
