Theobald, 1913    **Modernism and the Ideology of History** Louise Blakeney Williams, 2002-07-04 Louise Williams explores the nature of historical memory in the work of five major Modernists Yeats Pound Hulme Ford and Lawrence These Modernists Williams argues started their careers with historical assumptions derived from the nineteenth century But their views on the universal structure of history on the abandonment of progress and the adoption of a cyclical sense of the past were the result of important conflicts and changes within the Modernist period Williams focuses on the period immediately before World War I and shows in detail how Modernism developed and why it is considered a unique intellectual movement She also revisits the theory that the Edwardian age was a difficult period of transition to the modern world Finally she illuminates the contribution of non Western culture to the literature and thought of the period This wide ranging and inter disciplinary study is essential reading for literary and cultural historians of the modernist period    *The Expository Times* ,1914    *The Expository Times* James Hastings, Ann Wilson Hastings, Edward Hastings, 1914    **The Quest** ,1914    *Stephen Bar Sudhaili* Arthur Lincoln Frothingham (jr.), 1886    **The Johns Hopkins University Circular** Johns Hopkins University, 1886 Includes University catalogues President s report Financial report registers announcement material etc    *Current Discussions in Theology* ,1888    **The Expositor** ,1918    Stephen Bar Sudaili the Syrian Mystic and the Book of Hierotheos A. Frothingham, 2016-01-07 The pseudo Dionysius claims along with St Paul the illustrious master Hierotheos as his teacher and Professor Frothingham brings forward here a Syriac book entitled The Book of the Holy Hierotheos on the Hidden Mysteries of Divinity which exists in a unique MS preserved in the British Museum and the affiliation of which with the pseudo Dionysian writings is unassailable and points to it as the very book to which they appeal He proves the work to be the composition of the Syrian pantheist Stephen bar Sudaili and probably to have been written originally in Syriac although it professes doubtless as part of the forger s art to be a translation from the Greek The passages in the writings of the pseudo Dionysius which profess to be quoted from it are not actually found in the recovered volume and this raises the question whether Stephen may not be more naturally supposed to have forged his book on the hints of the pseudo Dionysius rather than the latter to have imitated him This question may be held in reserve until the full materials for an opinion are given to us in Professor Frothingham s promised edition of the Book of Hierotheos Meanwhile he warns the reader that he will prove his hypothesis that Stephen is the original writer in the prolegomena to that book In the present publication besides much that is interesting as to the life teachings and influence of Stephen in the Syrian Church we are given the text and a translation of two controversial letters against his heresies by Ms two greatest contemporaries Jacob of Serugh and Philoxenus of Mabbogh

which will well repay study for themselves and which serve to prepare us for the fuller knowledge of his teaching which the publication of his book will bring us *The Presbyterian Review* Volume 9      **The Occult Review** ,1911      **Ruysbroeck** Evelyn Underhill,1915      **Psychical Research and Survival** James Hervey Hyslop,1913      **Books Added** Chicago Public Library,1916      *Patrology* Otto Bardenhewer,1908 Otto Bardenhewer s *Patrology* is certainly not the most recent work in the field But sound judgment is never obsolete Bardenhewer s concise pellucid analysis of the church fathers is still valuable today over a century after it was published For generations his work has been treasured by experts and novices alike for its penetrating insight and easy accessibility Many fathers are given fuller treatment here than in any modern handbook And today every work cited in Bardenhewer s copious bibliographies has entered the public domain what a boon to researchers of the information age
