Egypt, the Light of the World Gerald Massey, 1992 Gerald Massey was one of the first Egyptologists in modern times to realize that with the final eclipse of the incredibly old Land of Kam a light had been extinguished in world civilization. He was a man of protean interests and concerns at once a poet, socialist, Shakespearean scholar, mythographer, and Egyptologist. Part of his genius was the ability to look truth in the face and not flinch. Massey did in the cultural domain what modern paleontologists have done in the anthropological: pinpoint Africa as the crucible of humanity's story. In the first volume of *Ancient Egypt* Massey was primarily concerned with elaborating how the first humans emerged in Africa, created thought. What had been evident to him from the outset was that the myths, rituals, and religions of ancient Egypt or Old Kam had preserved virtually intact a record of the psychomythic evolution of humanity. In the second volume Massey examines the celestial phenomenon known as the Precession of the Equinoxes. He believed only by understanding this phenomenon was it possible to fathom Nile Valley history. He provides the reader with extensive detail on the interconnection of the two. The last half of the second volume is devoted to the Kamite sources of Christianity. Massey demonstrated the manner in which New Testament Christianity evolved directly out of the Osirian mysteries. Massey pioneered the effort to connect Old Kamite thought to its origin in Africa's antiquity. His conclusions, which are constantly being verified, showed that Kamite thought was the direct progenitor to the philosophy, metaphysics, religion, and science that eventually shaped Western civilization from back cover.

The great sermons of the great preachers, ancient and modern Great sermons, 1858 **Yoga Consciousness in Ancient Mystery Religions** Tony Butcher, 2006 *Yoga Consciousness in Ancient Mystery Religions* provides a fascinating new perspective on some traditional fairy tales that we all thought we knew. We are taught from an early age that these stories can give us useful guidance for life even if they seem obscure. Tony Butcher shows us how to unravel the meanings, drawing on the ancient teachings of the mystery schools and in particular the teaching of Maharishi Mahesh Yogi. The first section of the book takes us through the philosophy behind it all, originating in the writings of Thoth, also known as Hermes, upon which ancient Egyptian teaching was based. Transcendental states of consciousness and the Yoga Sutras all pave the way towards enlightenment and freedom from the bonds of the material, earthly world. **Secret of Regeneration**

No one ever understood the mythology and ritual of Ancient Egypt so well as Gerald Massey since the time of the Ancient Philosophers of Egypt. This book is one of the best of its kind and a must have for every student of Egyptian mythology and history. **The Cyclopædia, Or, Universal Dictionary of Arts, Sciences, and Literature** Abraham Rees, 1819
