Woodward, 2017-04-03 Contests to reorganize the international system after the Cold War agree on the security threat of failed states this book asks why **House documents** , 1892 **State of Illinois V. Holmes** , 2009 Claiming the State Gabrielle Kruks-Wisner, 2018-08-16 Explores the conditions that shape whether and how citizens in rural India make claims on the state for social welfare **Documents of the Senate of the State of New York** New York (State). Legislature. Senate, 1911 **People of the State of Illinois V. De Filippo** , 2009 The United Nations Convention on Jurisdictional Immunities of States and Their Property Roger O'Keefe, Christian J. Tams, Antonios Tzanakopoulos, 2013-03-21 State immunity the idea that a state including its individual organs officials and other emanations may not be proceeded against in the courts of another state in certain instances has long been and remains a source of international controversy Although customary international law no longer recognizes the absolute immunity of states from foreign judicial process the evolution of the contemporary notion of restrictive state immunity over the past fifty years has been an uncoordinated and contested process leading to disputes between states The adoption in 2004 of the United Nations Convention on Jurisdictional Immunities of States and Their Property has significantly contributed to reaching consensus among states on this fundamental question of international law This book provides article by article commentary on the text of the Convention complemented by a small number of cross cutting chapters highlighting general issues beyond the scope of any single provision such as the theoretical underpinnings of state immunity the distinction between immunity from suit and immunity from execution the process leading to the adoption of the Convention and the general understanding that the Convention does not extend to criminal matters It presents a systematic analysis of the Convention taking into account its drafting history relevant state practice including the considerable number of national statutes and judicial decisions on state immunity and any international judicial

or arbitral decisions on point Activism, NGOs and the State Melissa Schnyder, 2015-07-30 Many NGOs are mobilizing transnationally in order to form new social networks that enable them to better interact with nation state policies on migrant and refugee inclusion This book empirically investigates the rich varieties of cooperative cross border activity and compares how the same groups behave at both the national and transnational levels It uses an original survey the Survey of European Migrant Inclusion NGOs to document four types of cooperative political tactics used by NGOs cross the European Union information sharing technical expertise sharing resource sharing and coordination of common projects It also looks across the current EU member states to analyze how differences in the national policy context specific to migrants issues facilitate and constrain these varied forms of transnational cooperation In doing so the book argues that to understand the overall prevalence of transnational mobilization and the extent to which it represents the emergence of a global civil society we need to expand the focus of social movement studies beyond just visible public displays of contentious activity **Field Hearing on the State of VA Care in Hawaii** United States. Congress. Senate. Committee on Veterans' Affairs, 2006 **People of the State of Illinois V. Beaman** , 2007 Best Interest Attorneys in the State of Maryland Marsha Russell, 2014-07-02 This book is a labor of love born from adversity It is the author s Master s Thesis written as a result of her experiences with the Montgomery County Maryland legal system and the attorneys who work that system It is written to provide information to women who face the difficult challenge of having the Maryland legal system micro manage the rearing of their children via custody support and visitation It is not meant to provide legal advice but rather to inform women about the law as it relates to child custody visitation issues and the utilization of the so called Best Interest Attorney or BIA Although this treatise was written in 2009 it continues to be relevant today Having gone through the experience twice the author has learned that mothers must be aware of the parameters of the BIA s activities and the possibility that their recommendations may be skewed by racial sexual or ethnic bias or even influence from the presiding judge with no recourse available Presently there are no laws in place to adequately monitor BIA activities As a result too many children are allowed visitation with fathers who the mothers warn are abusive or have mental health issues Yet time and time again the court continues to ignore the warnings due to something the author refers to as the Daddy Rule When the mother raises concerns she is viewed by the court as being vindictive rather than trying to protect her children Subsequently the only possibility for change depends on how quickly advocacy groups form tenacious coalitions to bring about needed change in the domestic relations family law area of the Maryland judicial system Such action will take a massive effort due to the utter entrenchment of the courts in the state s flawed legal system a system which allows manipulation by the fathers to the detriment of the children and the anguish of the mothers **Thinking Beyond the State** Johanna O Zulueta, 2018-09-01 Human mobility has been a widely examined phenomenon in the social sciences and in this increasingly globalized world migration continues to be of significant concern The chapters comprising this volume on Thinking Beyond the State address the need to think beyond prevailing

state discourses in problematizing human movements between Japan and the Philippines by focusing on the presence of other actors involved in these processes This collection investigates a range of issues that are part and parcel of the migration experience citizenship and nationality migrant incorporation and integration human security migrant welfare philanthropy identity and multiculturalism The editor and contributors aim to inform the larger public of the realities that are embedded in this particular phenomenon as well as engage academics involved in migration studies The book will be a valuable resource to those with professional interests in the East Asian region most particularly in Japan and the Philippines
