the world's vernacular building traditions. Indicating geographical patterns, developments, lacunae, and anomalies, it gives rise to new insights and understandings, stimulating new hypotheses, questions, and research efforts. Augmenting the award-winning *Encyclopedia of Vernacular Architecture of the World*, the *Atlas of Vernacular Architecture of the World* constitutes a unique and unparalleled resource for anyone involved in the growing field of vernacular architecture studies, including architects, geographers, art historians, planners, folklorists, conservationists, builders, and anthropologists, as well as being of use to all those working in the fields of heritage conservation, architecture, regeneration, energy-efficient building, resources management, development, and sustainability.

**Material Culture in America** Helen Sheumaker, Shirley Wajda, 2007-11-07

The first encyclopedia to look at the study of material culture, objects, images, spaces, technology, production, and consumption, and what it reveals about historical and contemporary life in the United States. Reaching back 400 years, *Material Life in America: An Encyclopedia* is the first reference showing what the study of material culture reveals about American society, revelations not accessible through traditional sources and methods. In nearly 200 entries, the encyclopedia traces the history of artifacts, concepts, and ideas, industries, peoples, and cultures, cultural productions, historical forces, periods, and styles, religious and secular rituals and traditions, and much more. Everyone, from researchers and curators to students and general readers, will find example after example of how the objects and environments created or altered by humans reveal as much about American life as diaries, documents, and texts.

[Tennessee Log Buildings](#) John B. Rehder, 2012-12-30

Drawing on more than four decades of research, *Tennessee Log Buildings* examines one of the Volunteer State's most precious and fast-disappearing traditions. From the pioneer era through the mid-twentieth century, folk builders in Tennessee used logs to construct cabins, barns, other outbuildings, schools, and churches. In warm, accessible prose that often makes this deeply researched work read like a guidebook, John Rehder explores the varied styles and architectural characteristics of these fascinating structures, including their floor plans, the types of timber used, and the different notches that were cut into the logs to secure the structures. Profusely illustrated with over one hundred images, *Tennessee Log Houses* traces the evolution of log houses from one room or single pen dwellings to more elaborate homes of various types, such as saddlebags, Cumberland houses, dogtrotts, and two-story I houses. Rehder discusses the historic settlement patterns and building traditions that led to this variety of house types and identifies their particular occurrences throughout the state by drawing on surveys conducted in forty-two counties by teams working for the Tennessee Historical Commission (THC). Similarly, he explores disparate barn and outbuilding types, including the distinctive cantilever barns that are found predominantly in East Tennessee. Sprinkled throughout the book are engaging anecdotes that convey just what it is like to conduct field research in remote rural areas. Rehder also describes in detail a number of the state's exceptional log places, among them Wynnewood, an enormous structure in Middle Tennessee which dates back to the early nineteenth century and which suffered severe tornado damage in 2008. As the author notes, many of the buildings originally identified in the THC investigations have now vanished.

completely while others are in serious disrepair Thus this book not only offers an instructive and delightful look at a key part of Tennessee s heritage but also makes an eloquent plea for its preservation Until his death in 2011 JOHN B REHDER was a professor of geography at the University of Tennessee Knoxville He first joined the UT faculty in 1967 He was the author of *Appalachian Folkways* which won the Pioneer America Society s Fred B Kniffen Book Award in 2004 and *Delta Sugar Louisiana s Vanishing Plantation Landscape* which won the Vernacular Architecture Forum s 2000 Abbott Lowell Cummings Award
