The Open Circle Confessional Method In Theology:

The Open Circle Martin L. Cook,1991 **New & Enlarged Handbook of Christian Theology** Donald W.

Musser, Joseph Price, 2011-09-01 This handbook provides thorough introductory articles on important themes in Christian theology Along with cross references and select bibliographies it is an indispensable reference source The Handbook consists of 148 topical entries arranged alphabetically Instead of a Table of Contents a Routes For Reading page suggests related entries and cross referencing makes surfing this volume easier than ever *To Teach, To Delight, and To Move* David S. Cunningham, 2004-10-22 This book initiates a new conversation about how theological education might be re envisioned for the twenty first century church The prevailing curricular structure in today s seminaries and divinity schools was fashioned in a very different era one that assumed the continued cultural dominance of Christianity and the continued academic dominance of the canons of Enlightenment reason Neither assumption is viable in today s post Christian world hence our new circumstances demand a new vision for theological education The authors of this volume offer an important resource for this project through their creative appropriation of the classical rhetorical tradition particularly as it has been rehabilitated in the contemporary context Like St Augustine they believe that the chief goals of Christian theology are similar to those of classical rhetoric to teach to delight and to move And the authors are united in their conviction that these must also be the goals of theological education in a post Christian era This volume arises out of a passionate commitment to the cause of theological education The authors hail from a wide range of denominational traditions and have taught in numerous seminaries and divinity schools They have also studied the classical and postmodern rhetorical traditions in both theory and practice They met as a group on numerous occasions to read one another s contributions to the volume and to offer guidance for the process of rewriting As a result this book is much more than a mere collection of essays it is a jointly authored work and one which presents an integrated vision for the future of theological education *Scripture in the Theologies of W. Pannenberg and D.G. Bloesch* Frank M. Hasel, 2004-03-01 Scripture has always played an important role in Christian theology This study provides an issue oriented overview of the concepts of Scripture in Protestant theology from the 16th century Reformation onward It then sets forth the concepts of Scripture in the theologies of two contemporary systematic theologians W Pannenberg and D G Bloesch It analyzes compares and evaluates the theological and anthropological presuppositions that have influenced their concept of Scripture Despite fundamentally different starting points and other significant distinctions Pannenberg and Bloesch reveal surprising similarities This seems to suggest that for both the concept of Scripture is determined ultimately by presuppositions that are derived and shaped extra scripturam *The Oxford Handbook of Theological Ethics* Gilbert Meilaender, William Werpehowski, 2007-08-09 Annotation What are the practical and theoretical issues that concern and shape theological ethics This handbook offers a guide to the discipline Written by an international group of 30 scholars the book is aimed at all students and academics who want to explore more fully essential

topics in Christian ethics Hermeneutics of Doctrine in a Learning Church Gregory A. Ryan, 2020-08-10 In *Hermeneutics of Doctrine in a Learning Church* Gregory A. Ryan offers an account of the dynamic multi dimensional task of interpreting Christian tradition. He integrates doctrinal hermeneutics, the pastorality of doctrine exemplified by Pope Francis, and a systematic appraisal of Receptive Ecumenism to provide an original perspective on this task. The book focuses on three contemporary Catholic theologians: Francis Schüssler Fiorenza, Ormond Rush, and Paul D. Murray, highlighting how each recognises the dynamic interaction of multiple perspectives involved in authentic ecclesial interpretation. Christian tradition, whether passed on in teaching, scripture, practices, or structures, needs to be continually received and interpreted. This book offers theologians, ecumenists, and church workers a fresh model for receptive ecclesial learning in which doctrinal hermeneutics and pastoral realities are dynamically integrated.

In Face of Reality Thomas A. James, 2011-04-01 This study of the work of noted liberal theologian Gordon Kaufman tracks his career from his first published book *Relativism, Knowledge and Faith* (1960) through his 2006 book *Jesus and Creativity* in light of recent conversations about divine action and modern scientific knowledge. James interprets Kaufman's mature position as a sophisticated reconstruction of divine activity that makes use of recent scientific theory and its naturalistic assumptions in order to revitalize a theocentric frame of reference rooted in classical theological tradition. Though there are costs to be paid in the construction of a theology of radical naturalism, particularly with respect to the relation between divine action and the human good, Kaufman's program offers a distinctive way forward. After developing a critical analysis of the limitations and possibilities of Kaufman's mature position, James suggests that a christological reconsideration of the meaning of human flourishing offers the prospect of an even more radically naturalistic and theocentric theology.

Theology of Culture in a Japanese Context Atsuyoshi Fujiwara, 2012-07-01 The Christian faith has always stood in a place of tension between its transcendent nature and the surrounding culture. On the one hand, Christian faith claims to originate in the revelation of God which transforms culture itself. On the other hand, all such revelation is inevitably received and interpreted by humans in concrete situations. It is no exaggeration to say that two millennia of church history have continually demonstrated the struggle between Christian faith and culture. In an effort to address this struggle, this book explores relevant issues pertinent to the relationship between faith and culture in the particular context of Japan. In this unique work, the context of Japan, well known as a desolate swamp for Christian missions, provides the setting for a re-exploration of issues pertaining to the theology of culture. As such, Japan provides both a concrete and challenging context to work out a theology of culture. This book also helpfully illuminates for Western readers some key problems that may not have appeared fully in their contexts yet but will do so as the post-Christendom era continues.

A Theology for the Twenty-First Century Douglas F. Ottati, 2020-10-15 Christianity in the United States is in crisis. Liberalism is declining, evangelicalism is splintering, increasing numbers of Christians are slipping away from churches, and more and more young people are, for various reasons, finding Christianity as they conceive it a metaphysical thought.

system or society of science deniers or an ideology for oppressors not just implausible but repellent At the same time Christians across denominational and ideological divides are rediscovering a moral core especially in the Jesus of the Gospels that reactivates and unites them and this kind of faith appeals to many who consider themselves averse to all traditional organized religion But any revitalized Christian faith is going to need to understand its rootedness in and interpretation of Christianity's foundational texts and traditions Noted theologian Douglas F Ottati steps in to offer a theology for this new era Combining deep learning in texts and traditions with astute awareness of contemporary questions and patterns of thought and life he asks what does it mean in our time to understand the God of the Bible as Creator and Redeemer Distilling the content of Christian faith into seventy concise propositions he explains each in lucid cogent prose A Theology for the Twenty First Century will be an essential textbook for those training for ministry in our current climate a wise guide for contemporary believers who wonder how best to understand and communicate their faith and an inviting and intelligent resource for serious inquirers who wonder whether the way of Jesus might help them grasp the real world while remaining open to the transcendent

A Philosophy of Christian Materialism Christopher Baker, Thomas A. James, John Reader, 2016-03-09 A Philosophy of Christian Materialism offers a new religious engagement with the public sphere via means of interdisciplinary analysis and empirical examples developing what the authors call a Relational Christian Realism building upon interaction with contemporary Philosophy of Religion The book argues that the current discourse on public religion is inadequate in addressing the issues now to be faced including material religious practice in the sphere of education the growth of alternative political movements and the developing awareness of environmental concerns and urban social justice Key concepts that support this strategic analysis are entangled fidelities the form of a materialist religious practice the possibility of a relational Christian realism including new developments in how we interpret key categories of doctrine including God and creation salvation and humanity and the post secular public sphere including the emerging phenomenon of postsecular rapprochement namely the coming together of both religious and secular actors in methodologies and politics of pragmatism as well as ethical discourse for the sake of the public commons Co authored by theologians in both the USA and the UK this book represents an exciting contribution to philosophy and practice of religion on both sides of the Atlantic and aspires to be sufficiently interdisciplinary to also appeal to readerships engaged in the study of modern political and social trends

Theology for Liberal Protestants Douglas F. Ottati, 2013-09-06 A two volume work by Douglas Ottati Theology for Liberal Protestants presents a comprehensive theology for Christians who are willing to rethink and revise traditional doctrines in face of contemporary challenges It is Augustinian claiming that we belong to the God of grace who creates judges and renews It is Protestant affirming the priority of the Bible and the fallibility of church teaching It is liberal recognizing the importance of critical arguments and scientific inquiries a deeply historical consciousness and a commitment to social criticism and engagement This first volume contains sections on method and creation Ottati's method envisions the

world and ourselves in relation to God as Creator Judge and Redeemer The bulk of the book offers an in depth discussion of God as Creator the world as creation and humans as good capable and limited creatures *Missional Ecclesiologies in Creative Tension* Joon-Sik Park,2007 In this masterful study of the critical issues in missional ecclesiology Joon Sik Park reflects on two prominent twentieth century theologians H Richard Niebuhr 1894 1962 and John Howard Yoder 1927 1997 and integrates the insights of their respective traditions Although ecclesiology was a major concern to both Niebuhr and Yoder their views on the nature and calling of the church were distinct Whereas Niebuhr a theologian in the Evangelical and Reformed tradition was concerned with defining the church in relation to a universal community Yoder standing within the Mennonite tradition was interested in representing the church as an alternative community Although Niebuhr was reluctant to distinguish the church sharply from the world Yoder stressed the distinctiveness of the church from the world and considered the Christian faith a decisive difference between believing and unbelieving communities Seeking to construct an integral missional ecclesiology Joon Sik Park carefully engages Niebuhr and Yoder and proposes a critical synthesis of their strengths He holds in creative tension the contradistinctive ecclesiologies of Niebuhr and Yoder by means of Lesslie Newbigin s logic of election providing a way to overcome an impasse between the two theologians **Kierkegaard and the Concept of Religious Authorship** Keith H. Lane,2010 Keith H Lane examines Soren Kierkegaard s concept of religious authorship and argues for Kierkegaard s status as a religious author He elucidates how such authorship may have similarities to philosophical authorship particularly philosophy as envisioned by Ludwig Wittgenstein and wherein the two differ Starting with Kierkegaard s Concluding Unscientific Postscript and giving special attention to The Point of View and other later writings Lane investigates aspects of thought and expression that may be unique to religious authorship and explores the particular constraints challenges and opportunities for one who writes from within a framework of religious belief and commitment including such issues as protectionism apologetics persuasion and the tension between certainty and uncertainty that attends religious authorship *Hopeful Realism* Douglas F. Ottati,2009-09-01 For those in the church and alongside it who remain dissatisfied with simplistic language and shallow spirituality Hopeful Realism reclaims the poetry of theology while skillfully addressing the religious and social concerns of the Christian faith **Ethics Across the Curriculum** Michael Boylan,James A. Donahue,2003-01-01 Philosopher Michael Boylan and theologian James A Donahue provide a framework _compatible with humanist and theist beliefs_ that will enable college and university professors to address a full range of ethical issues as they arise in classroom discussion both in the academic disciplines and in professional education **Transforming Faith** Joshua Leonard Daniel,2015-09-09 In the face of apparently rampant individualism there has been a steady call for a return to community and tradition particularly in religious communities and in recent Christian theology and ethics The form of contemporary life upheld by modern ideals like freedom and universalism the story goes turns out to divide people from each other and from the communal sources of our traditionally moral values

But the call to community too often confuses individualism with individuality assuming that any appeal to individuality as a value or ideal is a rejection of communal goods rather than a mode of promoting those goods What s necessary now is a recovery of the individual that understands individuality to serve community even in resistance to it In *Transforming Faith* Joshua Daniel offers a fresh reading of H Richard Niebuhr s theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community What is theologically at stake in Daniel s reconstructive interpretation is the human s existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity

Christian Faith as Religion Paul E. Capetz, 2011-05-26 *Christian Faith as Religion* investigates the theologies of John Calvin and Friedrich Schleiermacher with respect to the questions What is Religion and What is Christian Religion The author argues that the classical and liberal exemplars of Protestant theology are best compared when these two questions are thoroughly examined and calls into question the contention of neo orthodox theologians Karl Barth and Emil Brunner that Schleiermacher s theological use of the category religion signifies a departure from the tradition of the Reformation He offers a revised comparative framework that discloses the material and formal similarities between Calvin and Schleiermacher with respect to their employment of the categories religion and revelation and allows the historical theologian to delineate the trajectory that accounts for both continuity and discontinuity in the transition from classical to modern Protestant theology This allows the systematic hermeneutical question of a contemporary Protestant theology informed by the historical and philosophical study of religion to be taken up anew

Suffering, Death, and Identity, 2021-11-08 This book explores many of the issues that arise when we consider persons who are in pain who are suffering and who are nearing the end of life Suffering provokes us into a journey toward discovering who we are and forces us to rethink many of the views we hold about ourselves
