 Rowland,2002-08-01 The Open Heaven offers a comprehensive discussion of Jewish apocalyptic literature and themes in the
 Second Temple period and in early Christianity In it there is a sustained challenge to the widespread view that
 apocalypticism is a form of eschatology and it has been widely recognised as a significant contribution to the discussion of
 apocalypticism in religion since it was first published twenty years ago By concentrating on the revelatory character of
 apocalyptic texts rather than their diverse contents the author suggests that it is this aspect of the literature which best
 enables us to understand their distinctive religion The book offers a sustained argument for the ieuw that apocalyptic
 literature is primarily about the disclosure of heavenly wisdom which offers recipients an understanding of life in the present
 He also suggests that there ma be some evidence to support the view that apocalypses include reports of visionary
 experience The approach to apocalypticism in early Christianity stresses the importance of the visionary element as a
 decisive element in the history of Christa origins
