The New Testament Donald A. Hagner,2012-11-15 This capstone work from widely respected senior evangelical scholar Donald Hagner offers a substantial introduction to the New Testament Hagner deals with the New Testament both historically and theologically employing the framework of salvation history He treats the New Testament as a coherent body of texts and stresses the unity of the New Testament without neglecting its variety Although the volume covers typical questions of introduction such as author date background and sources it focuses primarily on understanding the theological content and meaning of the texts putting students in a position to understand the origins of Christianity and its canonical writings Throughout Hagner delivers balanced conclusions in conversation with classic and current scholarship The book includes summary tables diagrams maps and extensive bibliographies 2 Corinthians, Volume 40 Ralph P.

Martin,2017-10-10 Pastors and students will appreciate this new edition with its up to date bibliography and discussion of pertinent issues In this full revision and update of the book of Second Corinthians Dr Ralph P Martin addresses the scholarly questions about the text of the epistle and the significance of Paul s thought for Christian living and ministry In a penetrating analysis of Paul s responses to the various crises within the Corinthian congregation Dr Martin gives insight into the particular problems of Christianity as expressed in the hedonistic cosmopolitan setting of Corinth He shows how Paul s attempt to clearly distinguish the gospel from Hellenistic Judaism and Hellenistic Jewish Christian ideology results in a moving statement of the Christian message Rather than the theology of glory prevalent in Corinth Paul articulates his theology of the Cross as a theology of weakness of servanthood and ministry What was at stake at Corinth says Dr Martin was nothing less than the essence of the kerygma as in expressed in the way of the cross for proclamation and daily living New sections on the Collection and Rhetoric have been added and the issues of Composition and Social Setting of the letter have been included along with topics such as the Spirit the Opponents Paul s Theology and the Resurrection in this epistle The Word Biblical Commentary series offers the best in critical scholarship firmly committed to the authority of Scripture as divine revelation It is perfect for scholars students of the Bible ministers and anyone who wants a theological understanding of Scripture

*The Origin of the Greek Alphabet: A New Perspective* YAN Pui-chi (顏佩慈),IP Lup-ng (IP 盧榮),2022-03-11 This book offers a whole new perspective on the history of the birth of the Greek alphabet It also aims to give a clear account of how ancient Greek alphabetic writing could naturally evolve into the world s first segmental writing system in which vowel and consonant letters are used to represent vowels and consonants respectively This book should be of great interest to linguists and phoneticians especially those taking an interest in the world s writing systems General readers who are curious about the genesis of the Greek alphabet are also likely to find the subject of the book interesting

**The Educated Elite in 1 Corinthians** Robert Dutch,2005-06-20 This book examines the educated elite in 1 Corinthians through the development

and application of an ancient education model The research reads Paul's text within the social world of early Christianity and uses social scientific criticism in reconstructing a model that is appropriate for first century Corinth Pauline scholars have used models to reconstruct elite education but this study highlights their oversight in recognising the relevancy of the Greek Gymnasium for education Topics are examined in 1 Corinthians to demonstrate where the model advances an understanding of Paul's interaction with the elite Corinthian Christians in the context of community conflict This study demonstrates the important contribution that this ancient education model makes in interpreting 1 Corinthians in a Graeco Roman context This is Volume 271 of JSNTS

**2 Corinthians** David E. Garland, 1999-11-01 One in an ongoing series of esteemed and popular Bible commentary volumes based on the New International Version text **Rediscovering the Wisdom of the Corinthians** Timothy A. Brookins, 2024-03-05 A bold new reading of 1 Corinthians in light of Greco Roman philosophy The First Letter to the Corinthians begins with Paul admonishing his addressees over their internal division and reliance on human wisdom But what exactly occasioned Paul's warning Many New Testament scholars have asserted that Paul disapproved of the Corinthians' infatuation with rhetoric Yet careful exegesis of the epistle problematizes this consensus Timothy A Brookins unsettles common assumptions about the Corinthian conflict in this innovative monograph His close reading of 1 Corinthians 1-4 presents evidence that the Corinthian problem had roots in Stoicism The wisdom that Paul deprecates is not sophistry he argues but a Stoic inspired understanding of natural hierarchy in which the wise put themselves above believers they considered spiritually underdeveloped In effect Paul's followers saw themselves as a philosophical school in rivalry with other Christians engendering divisions in the church Combining scriptural exegesis and investigation of Greco Roman philosophical culture Brookins reconstructs the social sphere of Corinth that Paul addresses in his letter His skillful analysis provides much needed clarity on the context of a major epistle and on Pauline theology more broadly

Origins and Method--Towards a New Understanding of Judaism and Christianity Bradley H. McLean, 1993-09-01 This collection of essays is presented in honour of John C Hurd on the occasion of his retirement as Professor of New Testament at Trinity College Toronto and in recognition of a distinguished career in the fields of Pauline studies and computing in the humanities Given Professor Hurd's interest in Christian origins and methodology it is appropriate that the contributors to this volume deal with the origin and development of various aspects of Judaism and Christianity In particular they highlight how a greater attentiveness to method has resulted in a reshaping of our understanding of Christianity or Judaism The volume is divided into three parts New Understandings of Paul New Understandings of the New Testament and New Understandings of the Relationship between Judaism and Christianity Contributors include Walter Aufrecht Karl Donfried Robert Grant John Kloppenborg Gerd Ludemann and Wayne McCready **Mercer Dictionary of the Bible** Watson E. Mills, Roger Aubrey Bullard, 1990 Jesus Christ in History and Scripture highlights two related bases for the current revolution in Jesus studies 1 a critically chastened world view that is satisfied with provisional results and 2 a creative or

poetic use of the sources of study of Jesus      The Origin of Heresy Robert M. Royalty, 2013 Heresy is a central concept in the formation of Orthodox Christianity Where does this notion come from This book traces the construction of the idea of heresy in the rhetoric of ideological disagreements in Second Temple Jewish and early Christian texts and in the development of the polemical rhetoric against heretics called heresiology Here author Robert Royalty argues one finds the origin of what comes to be labelled heresy in the second century In other words there was such a thing as heresy in ancient Jewish and Christian discourse before it was called heresy And by the end of the first century the notion of heresy was integral to the political positioning of the early orthodox Christian party within the Roman Empire and the range of other Christian communities This book is an original contribution to the field of Early Christian studies Recent treatments of the origins of heresy and Christian identity have focused on the second century rather than on the earlier texts including the New Testament The book further makes a methodological contribution by blurring the line between New Testament Studies and Early Christian studies employing ideological and post colonial critical methods      Rhetorical Interaction in 1 Corinthians 8 and 10 Yeo, 2021-09-06 Rhetorical Interaction in 1 Corinthians 8 and 10 is a formal analysis of Paul's rhetorical interaction with the Corinthians over the issues of participation in the cultic meal 1 Cor 10 1 22 and the eating of idol food 1 Cor 8 1 13 10 23 11 1 The thesis is that Paul's theology and rhetoric are predicated on knowledge and love Major portions of the book employ rhetorical sociological archaeological and historical critical approaches to examine the triangular interaction between Paul the Corinthians and the biblical texts paying particular attention to the complex configuration of the Corinthian congregation including the influence of proto Gnosticism as well as the ways Paul responded to the shifting situation and different issues The two chapters on rhetorical hermeneutical theory and criticism are especially creative as the author suggests a Chinese hermeneutic for cross cultural dialogues the issue of ancestor worship being a specific example      1 Corinthians B. J. Oropeza, 2017-10-27 This compact commentary on 1 Corinthians is both readable and full of insights that will engage students ministers and scholars alike The Apostle Paul writes to a relatively new church in which members are failing to maintain solidarity with other members They struggle to find their unique place in Roman society as Gentile followers of Jewish leaders that proclaim Christ as Lord Their many problems include competition over leadership and social prestige sexual impropriety household conflicts idol foods table fellowship protocols on gender and the use of spiritual gifts and confusion about death immortality and Christ's return Oropeza addresses Paul's response to these and other issues as he engages ancient biblical Jewish and Greco Roman sources along with recent scholarship This is a must read for those who want to understand the Corinthian situation and Paul's response in a new way      Paul and the Corinthians: Studies on a Community in Conflict Trevor J. Burke, Keith Elliott, 2014-04-09 This volume has 1 and 2 Corinthians as its main focus where the various contributors address significant aspects of text language background theology and exegesis The first part of the volume deals with the issues of textual criticism and traditions available to Paul while the second section is interdisciplinary

in nature and integrates different methodologies such as social scientific and rhetorical criticism in order to provide new insights into the text The third and longest section addresses the varied theological problems which the community raised with Paul including sexual matters the timing of the resurrection the resurrection body authority and headship soteriology and the question of Paul's faithfulness and integrity The final section concentrates on the identity of Paul's opponents his visions and apologetics

Structure, Image, Ornament Ralf Von den Hoff, 2014-05-31 This volume presents the proceedings of a conference hosted by the American School of Classical Studies Athens and the Deutsches Arch ologisches Institut Athens in 2004 There are additional contributions from Patricia Butz Robin Osborne Katherine Schwab Justin St P Walsh Hilda Westervelt and Lorenz Winkler Horacek The contents are divided into four sections I Structure and Ornament II Technique and Agency III Myth and Narrative and IV Diffusion and Influence Highlights include Robin Osbornes discussion of What you can do with a chariot but cant do with a satyr on a Greek temple Ralf von den Hoff's consideration of the Athenian treasury at Delphi and Katherine Schwab's presentation of New evidence for Parthenon east metope 14 The papers not only cover a great variety of issues in architectural sculpture but also present a range of case studies from all over the Greek world The result is an important collection of current research

**First, Second Corinthians** Robert E. Picirilli, 1987

**Paul, the Founder of Christianity** Yoseop Ra, 2021-12-01 Although many scholars have studied Paul's theology they have not provided satisfactory interpretation This is because his genuine epistles were studied as they have been left in the New Testament Rather from a redactional point of view Paul the Founder of Christianity approaches Paul's seven epistles Romans 1 Corinthians 2 Corinthians Galatians Philippians 1 Thessalonians and Philemon The book reconstructs his life and uncovers the compilation of sixteen short letters into seven epistles Accordingly these can be divided according to the chronological order of composition When the transformation of Paul's theology is traced one can see a progressive development of Christology the death of Jesus Christ redemption and salvation the Law the end of world the spirit of God and the church of God As a result it can be argued that after the Antioch incident Paul had conflict with the apostles of Jerusalem and founded Christianity for gentiles an argument that is presented in detail based on the evidence found in Paul's sixteen letters

**1 Corinthians 1-4** Oh-Young Kwon, 2010-08-01 This book investigates 1 Corinthians 1-4 from a rhetorical and social perspective and explores that a divisive culture of rhetorical and paternal elitism lies behind the schisms and problems identified in the letter This culture appears to have been shaped to some extent by the legacy of Cicero Paul's references to boasting and imitation

indicate both his subversive use and his critique of this Greco Roman wisdom In the final chapter this analysis of wisdom traditions and their social consequences among first century Corinthians leads to a critical reflection on similar dynamics among Korean Christians in twenty first century Korean Confucian culture In particular Korean Protestants are encouraged to take a more positive stance towards Confucian wisdom traditions as exemplified by T oegye s legacy and some insights are suggested into the ethics of imperial worship ancestral veneration and ethnic exclusivity
