Committee on Governmental Affairs, 2003     **Cultivating Victory** Cecilia Gowdy-Wygant, 2013-04-20 During the First and Second World Wars food shortages reached critical levels in the Allied nations The situation in England which relied heavily on imports and faced German naval blockades was particularly dire Government campaigns were introduced in both Britain and the United States to recruit individuals to work on rural farms and to raise gardens in urban areas These recruits were primarily women who readily volunteered in what came to be known as Women s Land Armies Stirred by national propaganda campaigns and a sense of adventure these women eager to help in any way possible worked tirelessly to help their nations grow victory gardens to win the war against hunger and fascism In vacant lots parks backyards between row houses in flowerboxes and on farms groups of primarily urban middle class women cultivated vegetables along with a sense of personal pride and achievement In *Cultivating Victory* Cecilia Gowdy Wygant presents a compelling study of the sea change brought about in politics society and gender roles by these wartime campaigns As she demonstrates the seeds of this transformation were sown years before the First World War by women suffragists and international women s organizations Gowdy Wygant profiles the foundational organizations and significant individuals in Britain and America such as Lady Gertrude Denman and Harriet Stanton Blatch who directed the Women s Land Armies and fought to leverage the wartime efforts of women to eventually win voting rights and garner new positions in the workforce and politics In her original transnational history Gowdy Wygant compares and contrasts the outcomes of war in both nations as seen through changing gender roles and women s ties to labor agriculture the home and the environment She sheds new light on the cultural legacies left by the Women s Land Armies and their major role in shaping national and personal identities     Hearings Before the Committee on Agriculture, House of Representatives, Seventy-ninth Congress, First-second Session United States. Congress. House. Committee on Agriculture, 1945     City Bountiful Laura J. Lawson, 2005-05-30 The social history of American cities would not be complete without a full account of the rise of community open spaces Lawson does exactly this by providing a compelling and poetic account of the history and making of urban gardens Combining solid scholarship with engaging images of the gardens and stories of their makers this book sheds new light on the value of urban open space More important it explains why community gardens need to stand alongside city parks as permanent open spaces Essential reading for community developers and landscape architects as well as anyone who ventures outside enthusiasm and shovel in hand to improve their local environment Mark Francis author of *Urban Open Space and Village Homes* The definitive history of the past hundred years of America s experience with community gardens A labor of love by a garden activist the book appears at a most appropriate time today our city dwellers and suburbanites are retreating onto carpets of passive open space tended by homeowner associations and lawn care outfits Lawson thoughtfully analyzes the weaknesses of community gardens when used as a response to social crises and by contrast investigates community gardens as an alternative to today s managed care

as characterized by stronger communities and a more prosperous middle class This sets the stage for a discussion of the factors that have contributed to the decline of the middle class such as Reaganomics corporate greed and the erosion of unions The author then explores various strategies for rebuilding the middle class and restoring community values These include supporting local businesses promoting vocational education revitalizing main streets embracing sustainable practices and fostering civic engagement Throughout the document the author emphasizes the importance of individual action and collective responsibility in achieving these goals While the document touches upon various subtopics such as the rise of corporate landlords the gig economy and the impact of the COVID 19 pandemic these are all connected to the central theme of rebuilding the middle class and restoring community The author effectively links these seemingly disparate topics by highlighting their impact on the economic and social well being of individuals and communities The document s continuity is further enhanced by the author s consistent use of language and tone The writing style is personal and conversational drawing the reader in with anecdotes and relatable experiences The author s passion for the subject matter is evident throughout creating a sense of urgency and inspiring readers to take action In conclusion *Whatever Happened to the White Picket Fences Restoring the Middle Class by Rebuilding Community* demonstrates strong thematic continuity effectively weaving together personal experiences historical context and social commentary to present a compelling argument for the need to rebuild the middle class and restore community values
