Evening Worship in the Orthodox Church N. Uspenskii, 1985 In this study on evening worship in the Orthodox Church Nicholas Uspensky reveals the true purpose for which the service of Vespers came into existence the ancient Christian tradition of giving thanks for the evening light and the faith which this tradition implies concerning the presence of Christ in the midst of those gathered in His name While tracing the evolution of the rites of Vespers and the Liturgy of the Presanctified Gifts from their Old Testamental antecedents to their present forms today he calls upon liturgical commentators to stand closer to the meaning attached to the service of evening worship by the ancient Church This valuable historical liturgical study also discusses the Communion which is added to the Vespers in the midst of the Fast and the differences that exist between the Greek and Russian orders of service for the sacraments of penance and the Eucharist

The ^AOxford Handbook of Ritual and Worship in the Hebrew Bible Samuel E. Balentine, 2020-09-16 Ritual has a primal connection to the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished This Handbook

provides a compendium of the information essential for constructing a comprehensive and integrated account of ritual and worship in the ancient world

Political Construction Sites Pal Kolsto, 2018-02-19 The dissolution of the Soviet Union has provided scholars with tremendously rich material for the study of comparative nation building Not since the decolonization of Africa in the 1960s have so many new states been established in one stroke in one region The post Soviet states moreover have all the necessary prerequisites for fruitful comparison a number of similarities but also

significant differences in terms of size culture and recent history In order to survive in the long run modern states normally must have a population that possesses some sense of unity Its citizens must adhere to some common values and common allegiance towards the same state institutions and symbols This does not mean that all inhabitants must necessarily share the same culture but they should at least regard themselves as members of the same nation Strategies to foster this kind of common nationhood in a population are usually referred to as nation building After a decade of post Soviet nation building certain patterns are emerging and not always the most obvious ones Some states seem to manage well against high odds while others appear to be disintegrating or sinking slowly into oblivion To a remarkable degree the former Soviet republics have chosen different models for their nation building This book examines the preconditions for these endeavors the goals the state leaders are aiming at and the means they employ to reach them *Eucharistic Sacramentality in an Ecumenical Context* David J. Kennedy, 2016-04-22 This book explores the epiclesis or invocation of the Holy Spirit in the Eucharistic Prayer using the Anglican tradition as an historical model of a communion of churches in conscious theological and liturgical dialogue with Christian antiquity Incorporating major studies of England North America and the Indian sub Continent the author includes an exposition of Inter Church ecumenical dialogue and the historic divisions between western and eastern Eucharistic traditions and twentieth century ecumenical endeavour This unique study of the relationship between theology and liturgical text commends a theology and spirituality which celebrates the presence of the Holy Spirit in the Eucharist as present and eschatological gift It thus sets historic contemporary and ecumenical divisions in a new theological context
