The Annual Register, Or, A View of the History and Politics of the Year ..., 1850 Continuation of the reference work that originated with Robert Dodsley written and published each year which records and analyzes the year s major events developments and trends in Great Britain and throughout the world After 1815 the usual form became a number of chapters on Great Britain paying particular attention to the proceedings of Parliament followed by chapters covering other countries in turn no longer limited to Europe The expansion of the History came at the expense of the sketches reviews and other essays so that the nineteenth century publication ceased to have the miscellaneous character of its eighteenth century forebear although poems continued to be included until 1862 and a small number of official papers and other important texts continue to be reproduced

The Struggle for a Democratic Austria Bruno Kreisky, 2000 His stature enabled him to play an active part in the promotion of the Arab Israeli dialogue and pave the way for President Jimmy Carter s mediation

of the Israeli Egypt peace accord through his close relationship with Sadat As a result of such activity Kreisky was respected and praised by every U S administration from Kennedy to Reagan and was on excellent terms with Khrushchev and Brezhnev despite his support for the containment of Soviet communism BOOK JACKET Austria Anton Pelinka,2019-04-11 This book compares contemporary Austria with other political systems and with the Austrias that existed in the past The dynamism of the changes taking place in Austria can be described and analyzed with this double focus of comparison Perspectives on Contemporary Literature David Hershberg,2014-07-15 In all parts of the world and in every age many of the greatest works of literature have been shaped or inspired by the swirl of historical events The wars holocausts and mushroom clouds of our own era haunt the pages of many twentieth century writers events of the past even the remote past also inspire many authors though their work is contemporary in every way And if we agree with the poet Czeslaw Milosz that historicity may reveal itself in a detail of architecture in the shaping of a landscape we come to recognize that our understanding of a given poem or novel can often be deepened by a reading from this point of view The essayists in Literature and the Historical Process explore the ways in which history and literature are intertwined in the works of a number of twentieth century writers These probing critical readings from the historical point of view not only enlighten us about the works under consideration but especially when taken together enrich our understanding of the literary impulse itself In Nature History and Art in Elizabeth Bishop s Brazil January 1 1502 for example Barbara Page shows how Bishop used and rearranged knowledge derived from her study of Brazil s history Page s somewhat feminist reading may surprise those who find Bishop s poetic persona hard to identify Among the other authors considered are Jorge Luis Borges Michel de Ghelderode Elizabeth Bowen Rose Macauley Anthony Burgess Hugo von Hofmannsthal Cesare Pavese and Czeslaw Milosz **Conference Proceeding. Randall Henning,Pier Carlo Padoan,2010-12-01 The European economic and monetary union has changed the structure of international monetary relations fundamentally In this book two experts one European the other American offer transatlantic perspectives on the ramifications of the monetary union and the launch of the euro C Randall Henning examines selected American views on Europe s monetary union and looks at the political economic and institutional interests of the United States as they are affected by the creation of the euro He examines the external monetary policymaking machinery of the union and discusses the relationship of the monetary union to international institutions particularly the meetings of the G 7 finance ministers and central bank governors and the International Monetary Fund Henning is generally sympathetic to European integration supportive of the monetary union and persuaded of the importance of international cooperation Pier Carlo Padoan presents a European view of the role of the euro in the international system He looks at the euro as a potential global currency and examines the transition phase between a regional currency and a global currency Central to this is an analysis of the appropriate exchange rate policy for the euro He also considers euro dollar relations and the prospects for transatlantic

cooperation C Randall Henning is a professor at The American University and a senior fellow at the Institute for International Economics Pier Carlo Padoan is a professor at the University of Rome and the College of Europe *Church, State and Community: Historical and Comparative Perspectives* Antony Black, 2024-10-28 Running through the papers collected here is the concern to try and understand the reasons which people thought they had for acting in a certain way and not always the same thing the reasons which they expressed for what they were doing The book's first section focuses on the theories of government in the late medieval Church especially the ideas of conciliarism the second is concerned with the study of medieval guild and city organisation and politics looking at the communal movement and at the impact of Christianity on the development of republican ideas In the papers in the final part Professor Black takes a comparative approach setting the political thought and traditions of the Islamic world in particular alongside those of Western Europe as part of an attempt to understand the origins of the modern state to know why this emerged in Europe he argues it is necessary to ask why it did not develop elsewhere and it is intellectual and cultural factors which provide the most obvious differentiating features
