

The background of the cover is a high-contrast, red-tinted image. It depicts a woman in a dark business suit running towards the viewer, carrying a briefcase in her left hand. She is holding the hand of a small child who is also running. The child is wearing a dark shirt and light-colored pants. The background is a textured, almost painterly red with darker, swirling patterns. The overall mood is one of urgency and struggle.

The Harsh Truth About Public Schools:

The Harsh Truth about Public Schools Bruce N. Shortt, 2004-01-01 Bruce Shortt's book *The Harsh Truth about Public Schools* combines a sound Biblical basis, rigorous research, straightforward, easily read language, and eminently sound reasoning. Whether one is a parent or parent to be, pastor, church staff member, or educator, this book has much to offer. It is based first of all upon a clear understanding of God's educational mandate to parents. Its second foundation is a thoroughly documented description of the inescapably anti-Christian thrust of any governmental school system and the inevitable results: moral relativism, no fixed standards, academic dumbing down, far-left programs, near absence of discipline, and the persistent but pitiable rationalizations offered by government education professionals. Foreword

The Turner Report Randy Turner, 2007-08 Each day Missouri reporters and politicians and many in our nation's capital read THE TURNER REPORT to get their first glimpse at stories that later appear in the traditional media. In his first non-fiction book, Randy Turner offers a collection of some of his favorite stories, old and new. Combine those stories with Turner's examination of the effect lobbyists and special interests are having on Missouri and Washington, and you have a must-read book as the nation prepares for the 2008 elections.

The Hard Truth Sean B. Yisrael, 2012-05-04 *The Hard Truth* is a book written for principals and school administrators who want to implement effective change. The topics of the book candidly discuss the problems, people, and issues that get in the way of true school reform and what building-level principals can personally do to attain the best possible outcomes.

Critical Issues in Education Jack L. Nelson, Stuart B. Palonsky, Mary Rose McCarthy, 2017-07-27 Few subjects engender more strongly held beliefs and contrary views than education. The outcomes of debates over education and educational reform impact all citizens. Media coverage of these controversies is sometimes shallow and one-sided, fostering the need to develop critical thinking skills. These skills, in turn, open opportunities for personal growth, joining the public debate, and helping others participate in critical discussions. The authors of *Critical Issues in Education* present two opposing positions for each of sixteen different hot-button issues, including multiculturalism, school finance, charter schools, teacher evaluation, cyberbullying, and gender equity. Prospective teachers will find the authors' approach eye-opening and stimulating. Ideally, they will teach these valuable skills to their students, who will prosper academically and personally from understanding and considering diverse viewpoints.

Why We Homeschool Adam T. Calvert,2018-07-19 When the topic of homeschooling comes up there often seem to be various assumptions as to why we homeschool our children which are simply wrong or at the most inadequate Yes the government schools have bullies yes the government schools might be bigger targets for armed shootings and yes the government schools even the ones in good school districts have kids or teachers who will teach our children language or experiences that we would rather them not learn that early in life or at all And while all those things are true and good reasons to educate our children at home even if those problems were corrected we and many other parents would still be committed to homeschooling our children Why The purpose of this book is to answer that question and to answer it from the Scriptures

The Dissenting Tradition in American Education James C. Carper,Thomas C. Hunt,2007 During the mid nineteenth century Americans created the functional equivalent of earlier state religious establishments Supported by mandatory taxation purportedly inclusive and vested with messianic promise public schooling like the earlier established churches was touted as a bulwark of the Republic and as an essential agent of moral and civic virtue As was the case with dissenters from early American established churches some citizens and religious minorities have dissented from the public school system what historian Sidney Mead calls the country s

established church They have objected to the orthodoxy of the public school compulsory taxation and attempts to abolish their schools or bring them into conformity with the state school paradigm The Dissenting Tradition in American Education recounts episodes of Catholic and Protestant nonconformity since the inception of public education including the creation of Catholic and Protestant schools homeschooling conflicts regarding regulation of nonconforming schools and controversy about the propositions of knowledge and dispositions of belief and value sanctioned by the state school Such dissent suggests that Americans consider disestablishing the public school and ponder means of education more suited to their confessional pluralism and commitments to freedom of conscience parental liberty and educational justice

Spatial Theories of Education Kalervo N. Gulson, Colin Symes, 2007-11-21 This collection of original work within the sociology of education draws on the spatial turn in contemporary social theory The premise of this book is that drawing on theories of space allows for a more sophisticated understanding of the competing rationalities underlying educational policy change social inequality and cultural practices The contributors work a spatial dimension into the consideration of educational phenomena and illustrate its explanatory potential in a range of domains urban renewal globalisation race markets and school choice suburbanisation regional and rural settings and youth and student culture
