THE HIGH ROAD

- 
- A photograph of a man in a white tank top and brown pants walking away from a dark-colored car in a desert landscape. The car's driver-side door is open, and the interior of the car is visible in the foreground. The background shows a vast, arid desert under a cloudy sky.

## **The High Road To Pyrrhonism:**

The High Road to Pyrrhonism Richard Henry Popkin, 1993-01-01 In this sequel to his classic study *The History of Scepticism from Erasmus to Descartes* Popkin examines the important role played by the revival and reformulation of classical scepticism in eighteenth century philosophy

**The Legacies of Richard Popkin** Jeremy D. Popkin, 2008-11-05 Richard H Popkin 1923 2005 transformed the study of the history of philosophy in the second half of the twentieth century His *History of Scepticism* and his many other publications demonstrated the centrality of the problem of skepticism in the development of modern thought the intimate connections between philosophy and religion and the importance of contacts between Jewish and Christian thinkers In this volume scholars from around the world assess Popkin's contributions to the many fields in which he was interested *The Legacies of Richard Popkin* provides a broad overview of Popkin's work and demonstrates the connections between the many topics he wrote about A concluding article by Popkin's son Jeremy Popkin draws on private letters to provide a picture of Popkin's life and career in his own words revealing the richness of the documents now accessible to scholars in the Richard Popkin papers at the William Andrews Clark Library in Los Angeles

Skepticism in the Modern Age José Raimundo Maia Neto, Gianni Paganini, John Christian Laursen, 2009 Since the publication of the first edition of Richard Popkin's classic *The History of Scepticism* in 1960 skepticism has been increasingly recognized as a major force in the development of early modern philosophy This book provides a review of current scholarship and significant updated research on some of the main thinkers and issues related to the reappraisal of ancient skepticism in the modern age Special attention is given to the nature importance and relation to religion of Montaigne's and Hume's skepticisms to the various skeptical and non skeptical sources of Cartesian doubt to the skeptical and anti skeptical impact of Cartesianism in the seventeenth and eighteenth centuries and to philosophers who dealt with skeptical issues in the development of their own various intellectual interests

The Riddle of Hume's Treatise Paul Russell, 2010-06-15 It is widely held that Hume's *Treatise* has little or nothing to do with problems of religion Contrary to this view Paul Russell argues that it is irreligious aims and objectives that are fundamental to the *Treatise* and account for its underlying unity and coherence

Hume's Scepticism Fosl Peter S. Fosl, 2019-08-22 Making a sharp break with dominant contemporary readings of David Hume's scepticism Peter S Fosl offers an original and radical interpretation of Hume as a thoroughgoing sceptic on epistemological metaphysical and doxastic grounds He does this by first situating Hume's thought historically in the sceptical tradition and goes on to interpret the conceptual apparatus of his work including the *Treatise* *Enquiries* *Essays* *History* *Dialogues* and letters

**Hume's Epistemology in the Treatise** Frederick F. Schmitt, 2014 Frederick F Schmitt offers a new account of Hume's epistemology in *A Treatise of Human Nature* which alternately manifests scepticism empiricism and naturalism Critics have emphasised one of these positions over the others but Schmitt argues that they can be reconciled by tracing them to an underlying epistemology of knowledge and probability

**Race and Racism in Modern Philosophy**

Andrew Valls, 2005 An innovative substantial intervention in critical race theory this book brings together an impressive roster of thinkers to trace the question of race in modern philosophical inquiry and explore its influence on contemporary philosophy

*Berkeley* Damian Ilodigwe, 2020-06-12 Berkeley is popular in the philosophical tradition as the philosopher who denied the existence of matter in favour of spiritual substance His *esse est percipi* thesis is understandably seen as a recipe for subjective idealism While there is a point to this reading of Berkeley it remains to be seen whether it does justice to the full significance of Berkeley's opposition to philosophical materialism In this book essentially a sympathetic reconstruction of Berkeley's philosophy Ilodigwe approaches Berkeley's Immaterialism from the standpoint of the philosophical issues raised by the emergence of modern science in the seventeenth century He argues that when approached in this manner Berkeley's opposition to philosophical materialism not only emerges as an attempt to overcome false abstractions but it also becomes possible to make sense of his claimed alliance with common sense in his battle against philosophical materialism While the realist portrait of Berkeley that emerges from this exercise is not free from difficulties it arguably offers us a fuller conspectus of Berkeley's philosophy of immaterialism

**Imre Lakatos and the Guises of Reason** John Kadvany, 2001-04-09 An exploration of the philosophy of science and mathematics of Hungarian emigre Imre Lakatos demonstrating its contemporary relevance

The Breakdown of Cartesian Metaphysics Richard A. Watson, 1998-01-01 Combines historical research and philosophical analysis to cast light on why and how Cartesianism failed as a complete metaphysical system Far more radical in its conclusions than his 1966 study *The Downfall of Cartesianism* a slightly revised version of which forms the main body of the current work Watson argues that Descartes's ontology is incoherent and vacuous his epistemology deceptive and his theology unorthodox indeed that Descartes knows nothing
