Tarshis, 1972-01-01 Examines the chemical properties use and abuse of LSD and discusses the drug's immediate and long range effects **LSD: Doorway to the Numinous** Stanislov Grof, 2009-02-12 A pioneering book that explores the unknown landscape of human consciousness induced by LSD and other psychedelics Shows the relationship between shamanism near death experiences and other mystical and altered states with those induced by psychedelics Lays the conceptual foundation for the creation of important new therapies in psychiatry and psychology Stanislov Grof's first 17 years of research into nonordinary states of consciousness induced by LSD and other psychedelics led to a revolutionary understanding of the human psyche His research was the impetus behind a vastly expanded cartography of the unconscious including two new realms still unacknowledged by official academic circles the perinatal domain which holds memories of the various stages of birth and the transpersonal domain which mediates experiential identification with other species and mythic figures visits to archetypal realms access to past life memories and union with the cosmic creative principle The research presented in this book provides a map of the psyche that is essential for understanding such phenomena as shamanism and near death experiences as well as other nonordinary states of consciousness This map has led to the development of important new therapies in psychiatry and psychology for treating mental conditions often seen as disease and therefore suppressed by medication It also provides a new threshold to understanding and entering the numinous realm of spirit **NCB: Nuclear, Chemical, Biological Warfare** Joan Hyatt, 1990 Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1971 *Library Book Catalog, Subject Catalog, Volume 2* United States.
