Nagasawa,2017-10-06 Yujin Nagasawa presents a new stronger version of perfect being theism the conception of God as the greatest possible being Although perfect being theism is the most common form of monotheism in the Judeo Christian Islamic tradition its truth has been disputed by philosophers and theologians for centuries Nagasawa proposes a new game changing defence of perfect being theism by developing what he calls the maximal concept of God Perfect being theists typically maintain that God is an omniscient omnipotent and omnibenevolent being according to Nagasawa God should be understood rather as a being that has the maximal consistent set of knowledge power and benevolence Nagasawa argues that once we accept the maximal concept we can establish perfect being theism on two grounds First we can refute nearly all existing arguments against perfect being theism simultaneously Second we can construct a novel strengthened version of the modal ontological argument for perfect being theism Nagasawa concludes that the maximal concept grants us a unified defence of perfect being theism that is highly effective and economical

Anselm of Canterbury and the Search for God John T.

Slotemaker,2018-03-20 This volume provides a broad interpretation of Anselm's theological method through a study of his Monologion. The Monologion has been chosen specifically because of its rich and nuanced account of the search for the one God. Through a careful analysis of this text, what becomes evident is that Anselm's theological project is much broader than a single argument or a simple account of how divine justice and honor are appeased. What one encounters is a theology informed by the notion of the human desire for God and the honest search to come to know God in an intimate way. The Monologion therefore will present an entry point into Anselm's theological project. The second half of the volume will examine the reception history of Anselm's two most famous philosophical and theological contributions, i.e. the ontological argument and the satisfaction theory. Anselm is often misunderstood because his approach to theology is reduced to the one argument or a carefully construed calculus of human redemption; such readings of Anselm abound and often obscure the Benedictine context within which his thought developed, and so a careful reading of Anselm's texts and the history of reception and interpretation will offer a counter narrative to the standard perception of one of the greatest thinkers of Christian history.

**God, Existence, and Fictional Objects** John-Mark L. Miravalle,2018-10-18 God and fictional objects are central topics within philosophy, but rarely do the respective discussions overlap. Until now, the two fields have remained independent. Applying the debate about fictional objects to issues of theology for the first time, John Mark L. Miravalle bridges these two fields and presents a new approach to notions of God, creatures, and existence. Miravalle explains why Meinongianism, which holds that certain things can serve as intentional objects with properties even though they do not exist, can facilitate talk of nonexistence better than other metaphysical viewpoints such as Platonism, modal realism, and pretense theory. He identifies points of connection between theology and nonexistents and uses Meinongianism to buttress the cosmological and ontological arguments for God's existence. As a result, he is able to explore fresh solutions to problems of classical theism from the necessary existence of God and creation ex

nihilo to free will and the problem of evil By revealing how a particular account of fictional objects is especially harmonious with and supportive of the major claims of traditional theism Miravalle makes a major contribution to theistic metaphysics
