Optimism of Butler's "Analogy", by Henry Scott Holland ...* Henry Scott Holland,1908 **Joseph Butler's Moral and
Religious Thought** Christopher Cunliffe,1992 The essays in this book mark the tercentenary of the birth of Bishop Joseph
Butler the leading Anglican theologian of the eighteenth century and also an important moral philosopher They cover the full
range of Butler s theological and philosophical writings from his Christian apologetic against the deists to his discussion of
the role of conscience in the moral agent as well as setting them in their historical context and suggesting their relevance to
contemporary religious and philosophical issues At a time of renewed interest in Butler s thought as well as in the theological
positions he was opposing it is timely and appropriate that these detailed studies of Butler s thought should now be made
available **The Westminster Review** ,1908 [The Periodical](#) ,1905 *The London Quarterly Review* William Lonsdale
Watkinson,William Theophilus Davison,1908 *Essentials of Psychology* Sarvepalli Radhakrishnan,1912 **The Mind of
Gladstone** David Bebbington,2004-03-11 Gladstone s ideas are far more accessible for analysis now that following the
publication of his diaries a record of his reading is available This book traces the evolution of what the diaries reveal as the
statesman s central intellectual preoccupations theology and classical scholarship as well as the groundwork of his early
Conservatism and his mature Liberalism In particular it examines the ideological sources of Gladstone s youthful opposition
to reform before scrutinizing his convictions in theology These are shown to have passed through more stages than has
previously been supposed he moved from Evangelicalism to Orthodox High Churchmanship on to Tractarianism and then
further to a broader stance that eventually crystallized as a liberal Catholicism His classical studies focused primarily on
Homer also changed over time from a version that was designed to defend a traditional worldview to an approach that
exalted the depiction of human endeavour in the ancient Greek poet An enduring principle of his thought about religion and
antiquity was the importance of community but a fresh axiom that arose from the modifications of his views was the
centrality of all that was human The twin values of community and humanity are shown to have conditioned Gladstone s
rhetoric as Liberal leader so making him in terms of recent political thought a communitarian rather than a liberal but one
with a distinctive humanitarian message As a result of a thorough scrutiny of Gladstone s private papers the Victorian

statesman is shown to have derived a distinctive standpoint from the Christian and classical sources of his thinking and so to have left an enduring intellectual legacy It becomes apparent that his religion Homeric studies and political thought were interwoven in unexpected ways The evolution of Gladstone s central intellectual preoccupations with religion and Homer is the theme of this book It shows how the statesman developed from Evangelism to Orthodox High Churchmanship on to Tractarianism and then further to a broader stance that eventually crystallized as a liberal Catholicism It demonstrates also that his Homeric studies developed over time Neither aspect of his thinking was kept apart from his politics Gladstone s early conservatism emerged from a blend of classical and Christian themes focusing on the idea of community While that motif persisted in his speeches as Liberal leader the category of the human emerged from his religious and Homeric ideas to condition the presentation of his Liberalism In Gladstone s mind there was an intertwining of theology Homeric studies and political thought

Religious Thought in the Nineteenth Century Bernard M. G. Reardon,1966 Mr Reardon begins with a substantial introduction characterizing the age as a whole contrasting it with the pervious century and assessing its permanent achievements The book is divided into two parts The first deals with twelve writers from continental Europe with an account of the chosen author s life work and opinions The second deals with British and American writers and again each of the twelve chapters is introduced by an essay of about 1500 words Mr Reardon gives special attention to the philosophical interpretation of religion and of Christianity in particular traditional dogma and ecclesiastical politics weather Roman Catholic or Protestant have been avoided and emphasis is given to ideas and interests that are characteristic of the period Not all the thinkers introduced e g Feuerbach Comte J S Mill are themselves Christians The results is a clear picture of the main currents of Western religious thought in the nineteenth century It is a century which the students of religion today is likely to find of great interest and to which many feel a close affinity Publisher *Voltaire's Candide, Or, The Optimist.
