The Orphans Experience:

Researching Children's Experience Sheila Greene, Diane Hogan, 2005-01-13 Strongly recommended as it provides a very useful overview of a range of methods mainly textual for exploring children's experiences. These accounts are placed well in the broader conceptual frameworks concerning both methodologies and ethical considerations. Educational Review. How should the researcher approach the sensitive subject of the child? What are the ethical issues involved in researching children's experiences? In essays written by a collection of key international authors, *Researching Children's Experience* addresses these questions and examines up to date methodological and conceptual approaches to researching children. This book is a practical, comprehensive and interdisciplinary guide for advanced students and researchers exploring a range of studies and the theoretical and ethical motivations behind them. The book is divided into three coherent sections: Conceptual, methodological and ethical issues in researching children's experiences; Methods for conducting research with children; The generation and analysis of text. *Researching Children's Experience* provides examples of how researchers from a variety of social science perspectives have set about carrying out research into children's experience. Useful to students embarking on a research project and to experienced researchers wishing to explore new methods. Greene and Hogan's book is an essential addition to anyone doing research on children. It will be especially useful to those in developmental psychology, education, nursing and other disciplines interested in studying children's experience. Amistad's Orphans Benjamin Nicholas

Lawrance, 2015-01-28 The lives of six African children, ages nine to sixteen, were forever altered by the revolt aboard the Cuban schooner *La Amistad* in 1839. Like their adult companions, all were captured in Africa and illegally sold as slaves. In this fascinating revisionist history, Benjamin N. Lawrance reconstructs six entwined stories and brings them to the forefront of the *Amistad* conflict. Through eyewitness testimonies, court records, and the children's own letters, Lawrance recounts how their lives were inextricably interwoven by the historic drama and casts new light on illegal nineteenth-century transatlantic slave smuggling.

Refugee Learner Experiences. A Case Study of Zimbabwean Refugee Children Lawrence Meda, 2017-09 This study is a presentation of Zimbabwean refugee learner experiences. Children escaped political persecution and economic problems which affected Zimbabwe in the year 2008. Many of these children were abused and witnessed traumatic experiences, their close relatives and neighbours being executed in cold blood. This study was guided by three critical questions: i) who are the Zimbabwean refugee learners; ii) what were Zimbabwean refugee learners' migration experiences; and iii) what were Zimbabwean refugee learners' school experiences. The study employed Bronfenbrenner's Social Ecological Model as its overarching theoretical framework. Each stage of the refugee experience was described at each point in time.
