All people are conveniently ignoring the fact that a law doesn't exist in in the vacuum. These judges hear the cases of this type more often than us human being who gts outraged by one headline. And any judgement given in favour of her willnot only go against precedent , but will also create another precedent where such law will be flagrantly misused.

People forget that rape in India is one of the most serious offence in our law books, arguably even stricter than murder charges. And the burden of proof in most cases lies with defendant. Hence Marital rape as a concept can never be realized in India until , the marriage law remain hostile in India. The bunch of that an agrived women can force upon a man due to a nasty breakup, is already a big problem and now add on to that mrotal rape, would be asking innocent men to just kill themselves.

And those who will argue about what about the women who are actual victims of the real problem of Marital rape, I would say I have sympathy for them , similar to how you should have sympathy for those men who are implicated under bunch of false cases like dowry and domestic violence.

Again, The whole regime doesn't work in vacuum , and these judges are far more experienced to give judgements than me or you who just keyboard warriors with no real life experience on the ground, where as these judges do their jobs day in and day out on these same issues.

in Film explores the pernicious nature of rape in films from the silent era to the 21st century Film is an excellent medium through which to hold this discussion because film like the body as Judith Butler et al suggest is fluid and indeterminate and it is often contemplated as a site for negotiation and resistance This book addresses three major questions 1 why does rape persist as a recurring theme in film 2 how is this subject manifested in film and 3 what does this manifestation say about the act of rape itself its victims its perpetrators and our culture Rape is a sexual manifestation of aggression with the purpose of overpowering humiliating and hurting its victims An examination of media accounts has revealed that before the evolution of feminist film theory and the dismissal of the Production Code the rape victim in films usually fits into one neat set of criteria e g young adult white single middle class heterosexual When the victim s physical makeup deviated from the traditional set of criteria e g a child or a mature person of color married poor homosexual the rape was portrayed more violently The research for this book dwells on the portrayal of the latter type of victims because their sexual violations evoke an absorbing commentary on society s reaction toward those who do not easily fit within the status quo What is it about the makeup of these victims that makes their violations more horrific

Southern Slavery and the Law, 1619-1860 Thomas D. Morris,2004-01-21 This volume is the first comprehensive history of the evolving relationship between American slavery and the law from colonial times to the Civil War As Thomas Morris clearly shows racial slavery came to the English colonies as an institution without strict legal definitions or guidelines Specifically he demonstrates that there was no coherent body of law that dealt solely with slaves Instead more general legal rules concerning inheritance mortgages and transfers of property coexisted with laws pertaining only to slaves According to Morris southern lawmakers and judges struggled to reconcile a social order based on slavery with existing English common law or in Louisiana with continental civil law Because much was left to local interpretation laws varied between and even within states In addition legal doctrine often differed from local practice And as Morris reveals in the decades leading up to the Civil War tensions mounted between the legal culture of racial slavery and the competing demands of capitalism and evangelical Christianity
